RELIEF WORKERS RESTORING ORDER IN THE PESTILENCE-THREATENED CITY OF GALVESTON

State and Federal Officers Join Hands and Give Short Shift to the Lawless Element—Bodies Burned Without Attempt at Identification.

GALVESTON, Tex., Sept. 16—This was a deadly Sabbath in Galveston. Services were held in the few churches made use of since the great storm. All day men and boys were at work cleaning away the debris. Only a few dead were found during the day, and they were quickly burned, no attempt being made to identify them. The military authorities and the civil authorities were cooperating harmoniously and consequently there is less looting and desecration of corpses. Sheriff Thomas is in charge of the isolated district and is directing the recovery of property.

United States Marshal Grant has been given full authority by Adjutant General Curry, and is directing affairs on the mainland, aided by troops of rangers, who are ordered to make short work of looters and to save all situations to which the looters and soldiers and civil guards stationed at Texas City and Virginia Point are under the direction of Marshal Grant. These are the two points of ingress into the city. He also has control over all the railways running into the city and all craft plying between Virginia Point and Texas City, and no one can embark or disembark at these places without his permission, unless having authority to do so from some superior officer.

The destitute wishing to go to friends in the country are given free transportation and are being sent out of the city as rapidly as the limited transportation facilities will permit of the prosecution of transportation. The owner of any water craft or railway found guilty of charging more than the regulation fee will be arrested and severely dealt with.

The cleaning up and disinfecting of the streets, stores and buildings is being diligently carried on, and the sanitary condition of the down-town portion of the city has been greatly improved. Mayor Jefferbock, today, said that there would be no statement in the work until the entire city is cleaned and disinfected.

The goods stores and clothing houses resemble grand louts, every available space being occupied with goods long up to day. Fortunately the weather is clear, and dry and bright for this purpose.

Since all the railways terminating here have united upon one bridge and are pushing the work night and day with a large force reconstituting it, while the tracks are being restored on the line and manned by a large force, it is confidently asserted that Galveston will have communication directly by Wednesday next. If this is done it will relieve the existing situation wonderfully of supplies to the relief camps in Houston.

The injured and sick, under the thorough system established by the Board of Health and local physicians, are receiving every care and attention and doing as well as could be expected under the circumstances, which were being impressed daily.

All the churches in the city being either wrenched or ruined, with one or two exceptions, did not receive any service.

To-morrow a census of the Catholic population will be taken to ascertain the number of widows and orphans caused by the storm and the exact number of Catholics that perished.

The Board of Health and the Federal Government have ordered, O. G. W. were here to-day and organized local relief committees to look after and care for the sick and destitute of that order, for whom an appeal has been made to the board of the Union for relief.

The keeper of the life-saving station at the western extremity of the island got to-day. He reported the station gone and that a frightful scene of devastation exists there. He says that there are only a few heads and bodies and marshes are strewn with the carcasses of animals and people, and that the stench is terrible.

NAMES ADDED TO DEATH LIST
From Stricken Galveston Come Further Evidence of the Hurricane's Work.

AUSTIN, Tex., Sept. 16—The list of those who perished in the destructive hurricane that raged over Texas last night is to be augmented considerably by the authority of the United States marshal on the mainland.

California Red Cross Society Aids Local Workers in Increasing the Fund for the Texas Sufferers.

The Red Cross Society of California, which is the only national organization in existence for the relief of the suffering victims of natural disasters, is now in the midst of a struggle to increase its funds so that it may be able to meet the pressing needs of the Texas people, and at the same time to protect itself against any possible check or interruption. The society has already forwarded $5000 to the United States government, which has been used to purchase the necessary supplies to repair the damage caused by the hurricane, and also to relieve the sufferers of the Texas people. The society is now receiving contributions from all parts of the country, and is asking for the support of all those who care for the suffering humanity.
