

NEWBRO'S HERPICIDE Try It

Hair Tonics.

Hair Tonics should properly be called scalp irritants. As long as there is dandruff, it does not do the slightest good to irritate the scalp. Without dandruff hair must, and it surely will, grow luxuriantly, as nature willed. Every intelligent physician will tell you that nine-tenths of all hair troubles comes from dandruff. You are doubtless convinced of that fact. The sensible thing then is to kill the dandruff germ, and that cannot possibly be done with hair tonics. Dandruff is a germ disease, and no makeshift scalp scouring will do the slightest permanent good. The germ must be killed, and the only way in the world to do that is to

IS THE ONLY PREPARATION THAT IS MADE TO KILL THE DANDRUFF GERM.

and that actually does kill the dandruff germ, thereby leaving the hair to grow luxuriantly, as nature intended, and as hair always will grow where there is no dandruff.

EVERY PHYSICIAN IN THE WORLD

Will tell you that dandruff is the cause of nine-tenths of the brittle hair, the falling hair, and, finally and inevitably, Baldness.

PROFESSOR UNNA AND PROFESSOR LEBOURAUD,

The former the great skin specialist at the Charity Hospital of Hamburg, Germany, and the latter an assistant in the Pasteur Institute of Paris, France, have demonstrated beyond doubt that

DANDRUFF IS A GERM DISEASE.

The remedies suggested by those eminent scientists, combined with others discovered after a continuous year's laboratory experiments, are in NEWBRO'S HERPICIDE—a successful combination of two different chemicals being the crowning laboratory victory in this marvelous scientific product.

"DESTROY THE CAUSE, YOU REMOVE THE EFFECT"

Beware of Imitations.

No other hair preparation but NEWBRO'S HERPICIDE was ever made on the scientific principle of destroying the dandruff germ. Every other well-known hair preparation was put on the market before science had discovered that dandruff is a germ disease. Since the unprecedented success of HERPICIDE, there have been, of course, many imitations. None of these imitations, however, have been able to bring about the proper chemical affinity to produce the successful destruction of the dandruff germ. If it is not NEWBRO'S HERPICIDE it won't destroy the dandruff germ, and you cannot stop falling hair nor prevent baldness unless you kill the dandruff germ, and you cannot possibly kill the germ unless you

INVARIABLY ASK FOR IT.

After giving Newbro's Herpicide a thorough trial, we heartily recommend it for dandruff and falling hair. We do not have to push it, as customers, after using it once, invariably ask for it.

SCHLEY SENDS AN EXPLANATION

Rear Admiral Writes About the Howison Incident.

WASHINGTON, Aug. 24.—Acting Secretary of the Navy Hackett today received the reply of Admiral Schley to the letter recently submitted to him by the department declining to question Rear Admiral Howison as to the authenticity of the alleged interview with him reflecting upon Captain Parker. The reply was sent to Captain Lemly, judge-advocate of the court of inquiry. This means that so far as the department is concerned further action on the Howison incident will not be taken, that being left to the court. The correspondence is as follows:

WASHINGTON, Aug. 21, 1901.—Sir: I have to acknowledge the receipt of the department's letter of this date in reply to my communication of the 19th instant.

2. While it is true that one of my counsel, Captain Parker, replied to an inquiry made of him, did give his personal opinion of the several rear admirals on the active and retired lists, among whom was Rear Admiral Howison, I am assured by him that he believes the Secretary misunderstood him in that any of the officers named would be perfectly satisfactory to me. Captain Parker's conversation was had at a time when nothing was known of the alleged interview as published in the record.

3. In my letter of the 19th instant I expressly stated my opinion of the high personal character of Rear Admiral Howison and I avoided any expression of opinion as to the truth of the statements made in the newspaper clipping which I enclosed.

4. It was with the desire to avoid the necessity of making a formal challenge that I requested the department to lay before Rear Admiral Howison the statements that he is alleged to have made and thus give him the opportunity of such retraction as his sense of propriety might suggest.

5. I therefore respectfully state that the department has not put the proper construction upon my letter when it treated it in the nature of a preliminary challenge for cause. I could not challenge for cause until I discovered there was a cause and the object of my communication, as is evident upon the face of the statement in Rear Admiral Howison's had made this statement. You will observe in this connection that in his original statement he says: "I have made no public utterance relating to this subject." I submit that his private utterances would affect his qualification as much as his public utterances and my request was only to have this alleged interview submitted for consideration.

POPE LEO'S WONDROUS VITALITY A SURPRISE TO CARDINAL GIBBONS

Distinguished American Prelate Returns to This Country, After Having Visited the Supreme Pontiff and Devoted a Brief Period to the Storied Lands of the European Continent

Special Dispatch to The Call.

NEW YORK, Aug. 24.—His Eminence, Cardinal Gibbons, accompanied by his secretary, the Rev. W. A. Fletcher, returned today on the Etruria. For recreation they sailed on May 9 on the Trave, going direct to Naples and from there to Rome. A month was spent in the Holy City. To-morrow Cardinal Gibbons will celebrate mass in Brooklyn in the home of Major J. D. Kelley of 213 Clermont avenue, whose guest he is, and on Monday he will go to Baltimore, where an enthusiastic welcome has been planned by the leading Catholics of that city.

"I have enjoyed every moment of the time I have spent abroad," said Cardinal Gibbons to a Call correspondent today. "My first visit was to his Holiness the Pope, and I can but say that I was amazed at the wonderful mental activity displayed by him. His mind is perfectly clear and his memory faultless. He talked of questions of the day and seemingly as a master of the situation. Physically he is a weak man, but this is not surprising."

when you consider that he is at an age when a majority who live as long are in a senile condition.

Cannot Discuss Philippines.

"I cannot say whether we discussed the situation in the Philippines or not. As to Cuba, that is not in my line. I do not know whether or not two American cardinals are to be created. If I did I do not think I would be at liberty to state it. In Ireland, at Oxford, just before I left for the United States, I celebrated mass at the church and later addressed the Irish people gathered there. I talked to them of moral temptations that would beset those who came to this country and the greater amount of energy necessary to be expended in order to meet with success here. I urged the Irish people to stay at home and told them that the same acuity of mind which they would need to use here would result in bettering their condition."

Cardinal Gibbons was asked as to the condition of the situation between the steel workers and manufacturers.

"I am interested deeply in this," he said. "I deplore a strike of any kind, and such a one as this, which unsettles business

affairs, is very unfortunate. It injures the country and before all interested have again placed themselves on a stable basis the loss is tremendous."

Visits to Famous Cities.

During Cardinal Gibbons' tour abroad Florence, Milan, Lucerne, Geneva, Lyons, Paris and London were visited by him. In London Cardinal Vaughan arranged a great reception, at which Em-bassador Choate, Lord Lansdowne, the Earl of Kinnear and other notables were present.

After leaving the Etruria, Cardinal Gibbons, accompanied by Major Kelley, his life-long friend, drove direct to Major Kelley's home in Brooklyn. There he will remain until Monday morning, when he will leave for Baltimore, where he will arrive late in the afternoon. Ten thousand persons are expected to be in the procession which will greet him. Charles J. Bonaparte will deliver an address of welcome and acting Mayor Williams and other city officials will assist. At the cathedral Cardinal Gibbons will reply to an address of welcome and later he will review the procession from the porch of his home at the rear of the cathedral.

EUROPE FEARS TRADE DISASTER

Continental Powers Are Frightened by American Advance.

LONDON, Aug. 24.—Former Senator W. D. Washburn of Minneapolis prior to sailing home on the American liner St. Louis today said that he had found considerable uneasiness among bankers and manufacturers on the Continent concerning American competition.

"They perceive," he added, "that we are just getting ready, and in no respect is it likely they can beat us in the future. How long can Europe stand to pay a balance of trade of \$60,000,000 a year after all securities are sent back? Some able Continental observers to whom I put the inquiry were unable to answer. They fear us."

Commenting on the "fantastic idea of a common bond of European nations against the United States" the Outlook says:

"One might as well try to hang a Venetian blind over the sun as to try to exclude the influence of American industries from the world. For one thing, Great Britain would be no party to the bond. For another, the power of American reprisals would be terrible. Even now Germany is on the verge of a struggle between classes caused by the proposed tariff. Under the German tariff Austria would suffer grievously."

RUPTURE

DR. FRANK WRAY, EXPERT TRUSS FITTER,

Who has had the largest experience in fitting trusses and treating Ruptures of any physician in this country during the past twenty years in New York, Boston and Chicago, has opened parlors for a short time at 264 Kearny street, where he is prepared to adjust his Fidelity Truss to every common or difficult case of Rupture that has baffled the skill of others to retain and make comfortable. The doctor has in his FIDELITY TRUSS the only one that will hold a Rupture under all conditions, and does it without using torturing elastics, leg straps or cutting springs; it is waterproof and clean, and permanently cures a large percentage of cases. This treatment is universally recommended by intelligent physicians. Dr. Wray fits every truss before you buy; after that he guarantees it to hold, or money refunded. Not for sale in stores. SIX-YEAR TERM FOR SULLIVAN

Jury's Recommendation Is Heeded by Judge Lawlor.

Daniel J. Sullivan, who was convicted by a jury in Judge Leavelle's court on the charge of forging Judge Cabaniss' name to an order on the City Treasurer for \$1500 bail money on March 15 last, appeared for sentence yesterday. He was sentenced to serve six years in San Quentin.

The Judge denied a motion for a new trial and arrest of judgment made by Attorney T. J. Lennon on behalf of the defendant, and then Lennon made a strong plea for mercy, as recommended by the jury. He pointed out that there was really a lack of intent on the part of the defendant to defraud any one, as the money had been paid over and the defendant had received his \$500 commission.

In passing sentence the Judge said:

In addition to the general view which the court is called upon to take as to the nature of this crime the facts of this particular case are to be viewed seriously. They involve, first, a simulation of the signature of a judicial officer, and, second, an assault upon the public treasury.

Is there anything on the other side which will justify a moderate punishment? No one could have witnessed the trial of this case and escape the influence which the personal situation of the defendant presented. That influence was felt by the jury and expressed in the verdict which it rendered. The court pronounces that it would give its recommendation very respectfully.

While the responsibility of punishment is entirely with the court, it always feels that the
