PRICES TUMBLE

IN STOCK MARKET

NEW YORK, June 1 .- Measured by the rate of shrinkage in prices,

the stock market offered a strong

impression today of the sinister

purport given by the speculation

to the action of the federal gov-

ernment against the advance in

railroad freight rates. The fall

in prices added to yesterday's de-

cline carried St. Paul and Reading down 9% before effective re-

sistance was encountered. Many

other active stocks showed losses

for the two days' movement of between five and eight points.

The result was the abrupt estab-

lishment of prices at the lowest level of the year for all principal railroad stocks. The showing was less striking in the case of the in-

dustrials, but the weakness in that group was sufficiently acute
