by W. W. Potter, who, although only class B player, putted like a chan pion. He made two approaches that were short, and just on the edge of the green. His first putt was fully 20 feet from the hole, and he surprised every-body by making a perfect putt of it and holing in 2. His second approach shot, made from a distance of 60 yards, fell within 15 feet of the hole. It fell within 15 feet of the hole. It looked like a certainty that he would need at least 2 to hole out, but again he made a great putt and holed in 2.

A number of nice long drives were made that rolled down the hill and off the course and counted for nothing. There were but few of the players able to place all three balls on fair ground. D. T. Beldin won this contest with a total score of 551 yards for the three balls.

Jack Neville could have won the macth easily had he not pulled his last drive slightly and gone off the course by a few feet, scoring zero. His first two drives were pretty ones of 211 and 201 yards. His last one was easily a 175 yard drive, but it rolled down the hill and stopped just outside the stakes.

R. Hayne made the longest drive of
the day when he landed his first ball
223 yards from the tee. His second
drive was shorter and his third went

POSTPONED TENNIS NO HOLIDAY FOR MATCHES ON TODAY BASKET BALL TEAM

Golden Gate Club Tourneys Scheduled

and, as a consequence, the same card is on for today.

At the California club an interesting match will be played in the finals of the first class. Mel Long and E. Fottrell will be on opposite sides of the net, and while the outcome looks a certainty, some pretty tennis should be brought out and the match should be a hard one. Long will undoubtedly be the winner, as he is in a class above his opponent. Fottrell, however, is a tall youth with a long reach and good style and strokes, and as Long has not done any practicing of late the match should be a close one.

The continuous tournament that started last week still continues to hold, the attention of the club members, and not a day passes without one or more matches being played.

Only one set remains to be played today in the tournament on the park courts. Bass and Foley played two sets a few weeks ago with Sonntag and Easton and won them both. It was to be the best three in five sets but dark.

Cured in Five Days

Hydrocele - Varicocele - Stricture No Detention From Occupation, Family or Home

Many cases cured permanently in one treatment. No severe operation. Most time saving. Most natural and permanent cure. I give my word and will cite you to other medical authorities that this is a fact. I am certainly prepared to cure by experience and equipment, which are the keystones to success. I have the best equipped medical office on the coast. I will give \$1,000 to any charity if every statement in this announcement is not true.

I invite you to come to my office. I will explain to you my treatment for VARICO-CELE, HYDROCELE, HERNIA, WEAKNESS, BLOOD POISON, PILES, FISTULA, BLADDER, KIDNEY, PROSTATIC and all Men's Diseases, and give you free a physical examination; if necessary a microscopical and chemical analysis of secretions, to determine pathological and bateriological conditions.

I daily demonstrate that Varicocele and Hydrocele can be cured, in nearly all cases, by one treatment in such a satisfactory way that the vital parts are preserved and strengthened; pain ceases, swelling subsides, a healthy circulation is rapidly re-established, instead of the depressing conditions. I guarantee you a cure to stay cured or refund the money.

MY DIRECT TREATMENT FOR

"WEAKNESS"

That disorder commonly known as "weakness" has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors, specialists not excepted, are attempting to overcome it by methods that have been in constant use and have always failed for half a century. They dose the system with powerful stimulants and tonics, calculated to restore nervous force or strength that is not and never has been lacking, with a result that the functions are temporarily excited, to the positive detriment of the patient. Weakness—we call it such for convenience just now—is only a symptom resulting from a chronically swollen and inflamed prostate gland, and is curable by local treatment only. Either early dissipation or some improperly treated contracted disease is responsible for the inflammation in most instances, though accident, injury, strain, etc. may produce the same result. I permanently cure these cases of prematureness, loss of power, etc., without the giving of a single internal dose, which demonstrates the absolute accuracy of my understanding and treatment of this disorder, in years I have not met with a single failure and I have entire confidence in my ability to cure all cases that come to me for treatment. I am equally certain that no treatment other

I am the only specialist in San Francisco who does not advertise a fictitious name and photograph. I publish my own photograph, right mame, parsonally conduct my office. I am the longest established, most successful and reliable, as medical credentials and press records prove. I make this statement so that you will know you consult a celebrated specialist, who sees and treats patients personally. I possess skill and experience, acquired in such a way that no other can share, and should not be classed with medical companies. Experience is the one standard by which judgment may be valued, and it is unwise and expensive to embrace the statements of medical companies. It is impossible for a medical company to aftend college. Companies have no diploma or license to practice medicine in California or any other state. Medical companies usually are named after a doctor. A portrait, whose personality and identity are indefinite, is selected and published as the legitimate specialist of the office. Hired substitutes, ordinary doctors with questionable ability, give consultation, examination and treatment.

A thorough investigation should be made by every ailing man as to the specialist he weeken.
