Tour S. S. S. in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. Last Spring my blood was bad and I was run down in health, and having seen your medicine highly advertised, I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman of a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place.

No medicine is of value as a tonic except one which purifies and enriches the blood, for until this is done the body will not receive its

required stimulus and disease-resisting powers.
S. S. S. is the best Spring tonic because of its genuine ability and worth as a blood purifier. It builds up the depleted system in

the true way, by purifying the blood and supplying an increased amount of nourishment to every portion of the body. S. S. S. removes all accumulations and impurities from the circulation, enriches the blood, and overcomes the unpleasant physical ailments that afflict at Spring time. It aids and improves the appetite, reinvigorates every fibre and tissue of the body and imparts healthful energy to all who are run down. S. S. S. is for sale at drug stores.
