Rev. Dr. Aked Aligns Himself With Recallers at a Mass Meeting in His Church

HIGH TRIBUTE PAID TO WOMEN IN FIGHT

Men of City Earnestly Are Urged to Co-operate in Moral Crusade

Rev. Dr. Charles F. Aked, pastor of the First Congregational church, publicly aligned himself last night with leaders of the recall movement Instituted against Police Judge Charles L. Weller. In an address before a fashionable audience that filled the church to overflowing, Doctor Aked declared that Judge Weller was not sufficiently grounded in the precepts of twentieth century morals to hold his Pasquale, the police say, bunkoed a position on the bench.

A storm of applause swept over the church as the clergyman commended

"I do not believe that Judge Weller is corrupt or that his methods are dishonest—nor do I accuse him of having honest—nor do I accuse him of having committed a crime when he reduced bail in the infamous case the aftermath of which threatens his seat among the judiciary of this city. But I most earnestly declare that he has failed to appreciate the demands of the present day law for the punishment of crimes against womanhood," said Doctor Aked. MANY CASES ARE CITED

Here the pastor recited a long list

Here the pastor recited a long list of assault cases in which Judge Weller had reduced bail, with the result that the guilty persons had fled jurisdiction. Resuming, Doctor Aked said:

I find that it is one of Judge Weller's characteristics to reduce, or fix inadequate bail, in assault cases. Such sums as \$100 or \$500 in felonious assault cases are contemptible, and it shows that he has little realization of the horror of such crimes. He has in no way helped the reform movement, but he has made the work of reformers harder.

I hope that the men of this city will aid the women to get the necessary signatures to make the recall of Judge Weller a probability. I do not say this in any spirit of antagonism, but because I sincerely believe that this magistrate does not adequately appreciate the moral tendencies of the day.

The women of this city will make sure that no more filthy criminals escape the consequences of their loathsome deeds. The removal of Judge Weller will have a wholesome effect in police court

Doctor Aked touched on the scene in St. Paul's church last Tuesday aft-ernoon, when Judge Weller pleaded

his cause before a mass meeting of

"That was one of the most dramatic incidents I have ever witnessed," said he. 'I believe it is the first time in the history of the world that a magis-trate has come down from the bench to plead his case before an aggrega-tion of women—an enfranchised and enraged body of women intent on

enraged body of women intent on cleaning up the immoral slough of a great and evil city."

The clergyman prefaced his remarks on the Weller recall movement with a short review of the white slavery question. He said that girls were being coerced into lives of shame, where for-merly they volunteered themselves. Several hundred men and women signed the recall petitions as they en-tered the church.
