

LIBERALS ARE BADLY BEATEN

Reciprocity Receives Backset in Cana- dian Elections.

(By United Press.)

Ottawa, Ont., Sept. 22.—The general election returns are incomplete, but they indicate that next parliament will contain 130 conservatives and 86 liberals. In Ontario province alone the conservatives carried 71 of the 85 seats.

Montreal, Sept. 22.—The Laurier government and reciprocity suffered an overwhelming defeat in the Canadian elections today. By a political landslide the Liberal majority of 43 was swept away and the Conservative party secured one of the heaviest majorities that any Canadian party has ever had—upward of 50. Seven cabinet ministers, who had served with Premier Laurier, were among the defeated candidates.

The Liberals lost ground in practically every province of the dominion. Where they won, their majorities were tremendous. Ontario, the leading province of Canada, declared almost unanimously against the administration and reciprocity.

Borden New Prime Minister.

Robert L. Borden, leader of the Conservative party, will shortly become the prime minister of Canada. He will be supported in parliament by a working majority of members far more than ample for his purposes.

The government defeat means that the Fielding-Knox reciprocity agreement, ratified by the American congress in the extra session, will not be introduced when the twelfth parliament assembles next month and that a revised basis of trade with the United States, looking to closer commercial relations will not be possible in the immediate future. The Conservatives are committed to a policy of trade expansion within the empire and a closed door against the United States.

RECORD YEAR FOR FLORENCE ORCHARD

Florence, Sept. 22.—The Lobach orchard, located just on the outskirts of Florence, is harvesting the largest crop of apples in thirty years. The orchard comprises twelve acres and the crop is estimated at 4,000 boxes, which have been sold to F. P. Smith, of Canon City.

The apples from one tree, picked yesterday, filled fifteen boxes. The orchard is one of the best in this portion of the Arkansas valley. Edwin Lobach, the owner, has resided in Colorado fifty-two years, the greater portion of which time has been spent here on the homestead of 125 acres.

A FIERCE NIGHT ALARM

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it arouses Lewis Chamblin, of Manchester O. (R. R. No. 2) for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, Hay Fever, LaGrippe, Whooping Cough, Hemorrhages fly before it. 50c and \$1.00. Trial bottle free. Sold by Hunter Palmer.

WILL MANDAMUS PAYMENT OF GOOD ROADS FUND

El Paso, Prowers and Boulder will probably be the counties chosen to join in the mandamus suit against State Auditor M. A. Leddy to test the validity of house bill No. 200. Suit will be filed today or Monday.

The ayes and noes on the third reading of the bill are missing from the senate journal. On this ground the state auditor and treasurer are refusing to pay out any money vouchered by the state highway commission on the good roads fund. Friday at 2 o'clock a commission of county attorneys, chosen at a conference of counties held in the senate chamber Thursday afternoon, conferred with the state highway commission and Denver chamber of commerce.

The chief object is to settle upon the county or counties which will bring the mandamus suit.

It was decided Thursday afternoon that mandamus proceedings would be the wisest method of testing the constitutionality of house bill No. 200.

President Johnson of the Denver chamber of commerce has announced that he will undertake to arrange for the financing of the suit. The Denver Real Estate Exchange is also giving its support to the movement to unite the road funds.

Attorney General Griffith has given the opinion that if a mere question of law is asked, the supreme court might take original jurisdiction. But if testimony is to be taken, it will be necessary to take the case to the lower courts first.

If the case goes into the lower courts there is more than a possibility that clerks, stenographers and other employees of the senate who had to do with the records of that body may be called as witnesses. If they are, sensations are expected to develop.

FLORENCE BOY DIES AFTER BRIEF ILLNESS

Raymond, the 11-year-old son of Mr. and Mrs. J. A. Sikes, died at his home south of the city on Thursday following a brief illness. The boy left school Wednesday morning and complained of a soreness in his neck. Thursday morning he suffered with a severe convulsion which was followed by a well defined case of tetanus. The death came as a shock to the family's many friends in this community, for apparently the boy was in the best of health Wednesday morning and was playing with the children at school shortly before he became ill. There seems to be some doubt as to just what brought on the convulsions, but it was no doubt the result of some injury the little fellow had received which resulted in an infection.

The funeral was held at 2 o'clock this afternoon.—Florence Citizen.

ENGLAND PLEASED OVER THE CANADIAN VOTE

London, Sept. 23.—The overwhelming defeat of Premier Laurier and the Liberal government's policy of reciprocity with the United States yesterday, came as a surprise to England.

It had been expected that the Liberal majority would be decreased, but even the strongest opponents of reciprocity had not so much as suggested such a majority against the Canadian-American agreement as the Conservative leader, Mr. Borden, obtained.

The result is welcomed generally here, as Englishmen believed the trade agreement presaged closer political relations between neighbors and a consequent loosening of the imperial ties.

There was a slight relapse in American securities on the stock exchange this morning following the news of the Liberal defeat, and the changes were credited to this cause.

THE CHICKEN MITE

There are two kinds of chicken mites, first the common chigger, scientifically known as the Trombidium holosericeum, and, second, a mite about the same size but with an ovipriform shaped body instead of an oval one, as is the case of the first. There are also some other microscopic differences. This latter parasite is scientifically called the Dermanyssus gallinae.

There has been considerable trouble with this first named parasite during the present summer, which extend into the fall. The hot, dry weather is most favorable for their multiplication and development. Many birds (principally hens) infested by the chigger, have been brought to this laboratory during the season. The statement from these poultry people invariably being that the birds die suddenly, and, when opened, all organs appear normal, at least so far as they could tell. Those examined in the laboratory have proved the same. Further examination reveals the fact that the cracks and crevices of the poultry houses, as well as the cracks and crevices of the roosts and the nests, were literally alive with these little pests, which are about the size of a pin head. When full of blood they appear somewhat red or bluish.

These chiggers are blood suckers. Their piercing apparatus is cone shaped, and with this they wound the skin and suck the blood. Imagine 500 to 1,000 (as we have found them) of these, and imagine the irritation, and you will readily understand why the birds die. The irritation which each produces at the point of attack is considerable.

The birds often die suddenly without many visible symptoms.

The parasite lays its eggs in the cracks, crevices, and in the fifth of the hen house, where they hatch out, first into an asexual, six-legged stage; later moults and develops into the eight-legged or mature stage.

To rid birds and premises of these mites it is necessary to thoroughly clean the building, including nests. Repeat this every two or three days, if not every day. Spray with two per cent solution (in water) of kresol, cerolin or zeoleum, forcing the solution into cracks and crevices and repeat twice a week. Pour coal oil on the roosts twice a week. Place one inch of air slack lime in the nests before placing new straw. Place in dusting wallow a small quantity of tobacco dust, sulphur and pyrethrum (insect powder.) Dust hens with same if found necessary, or dip with five per cent solution creolin, kresol or zeoleum.

FIRST AUTOMOBILE OVER MONARCH PASS

Salida, Sept. 23.—The first automobile that ever came over Monarch pass arrived in Salida yesterday noon. In the machine were County Commissioner Wiley, of Gunnison county, and Mr. Carter and family, of Whitepine, the machine being the property of Mr. Carter. It took only a little over two hours to make the run from the other side of the pass to Salida. The roads, according to Mr. Wiley, are in very good condition, except a portion between Monarch and Garfield, and the commissioners of this county now have a force working there. The arrival of this car in Salida, carrying a banner announcing the fact that it came over Monarch pass, created considerable interest among the good roads people of this city. The Gunnison county commissioners have been working all summer on the roads leading up to Monarch pass, this being designated as part of the famous rainbow route.

FOLEY'S KIDNEY REMEDY (Liquid). Is a great medicine of proven value for both acute and chronic kidney and bladder ailments. It is especially recommended to elderly people for its wonderful tonic and reconstructive qualities, and the permanent relief and comfort it gives.—For Sale by all Druggists.

FROM THE TROPICS TO HEAL UP

In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

This country is a large consumer of this costly seed because it enters into the famous catarrh remedy, Peruna, sold the world over.

INTERESTING REPLEVIN SUIT IN COUNTY COURT

A civil proceeding of more than ordinary interest was tried before Judge Cooper in the county court on Friday morning when Merrick A. Burnett brought suit against A. L. Green to recover possession of number of horses which the latter had seized and levied on as an officer of the law to satisfy a claim against Fred Tong. The greater part of the day was consumed in the hearing of the testimony and it was not until 10 o'clock Friday night that the case was given to the jury. Every step in the proceeding was strongly fought by the opposing counsel and a night session of the court was held in order to get through with the hearing. The complainant alleged that he had purchased the horses in question for the sum of five hundred dollars; paying part of the money at the time and giving his note for the balance.

The jury this morning brought in a verdict for the defendant, having found that Mr. Green was not the owner of the horses, but was simply holding them in custody as a legally constituted constable. The parties to the suit are all from Florence. Judge Chas. D. Bradley appeared at the trial for the plaintiff and Geo. H. Wilkes for the defendant.

A GREAT ADVANTAGE TO WORK- ING MEN

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted freely and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise."—For Sale by all Druggists.

HAVE INSTALLED NEW ELECTRIC ELEVATOR

The Fremont County Fruit and T. G. association have installed an electric elevator in their shipping room that now enables them to handle twice the number of boxes of apples in just half the time that was formerly required. The innovation is a great improvement and only goes to show the increased efficiency that is being acquired by fruit handlers throughout this section.

RED DYPEPSIA TABLETS.

Relieves gas in stomach, distress after eating, stomach nervousness, dizziness, headache, heartburn, heart palpitation and other ailments caused by faulty digestion. Price 25c. Prepared by United Drug Company, Boston, Mass. Sold in Canon City only by Mitchell and Eggers—The Rexall Store.

OTERO SCHOOL CENSUS SHOWS LARGE INCREASE

Lajunta, Sept. 25.—Figures compiled by S. S. Phillips, county superintendent of Otero county show that there are 6,223 persons of school age in the county. This report shows an increase of 244 over last year's enrollment.

FUNERAL HELD AT WILSON'S THIS AFTERNOON

The funeral of the late Mrs. D. W. Garrett and children, D. W. Garrett Jr. and Juanita was held at Wilson's undertaking chapel at 3 o'clock this afternoon in the presence of the relatives, neighbors and immediate friends. The services were conducted by Rev. T. P. Stafford, pastor of the First Baptist church, and were very impressive. The funeral offerings were among the most beautiful and elaborate ever seen here; the caskets as they lay in the chapel almost obscured by the masses of roses, lilies and other bloom. The flowers were the contribution of the friends of the deceased and the various lodges of the city, which vied with each other in presenting these evidences of sorrow and testimonials of esteem. The two daughters of Mrs. Garrett in the east, Mrs. Jones, of Bristol, Tennessee, and Mrs. Germain, of Baltimore, Maryland, were unable to get here to pay the last sad rites of respect to the memory of their mother and little brother and sister, although telegrams of condolence of the most touching character were sent to their father and surviving brothers and sisters. Mrs. Grant ent at the obsequies and interment. Miller, of Gates City, Virginia, arrived here this afternoon to be present at the burial was at Lakeside cemetery.

POPULAR YOUNG PEOPLE WED AT GREAT FALLS, MONT.

After a courtship lasting over a period of several years, during a portion of which time they attended the same school in Canon City, Miss Kathryn Wadleigh, daughter of Mr. and Mrs. E. T. Wadleigh, of this city, on Wednesday last became the wife of Henry Lloyd, the marriage ceremony taking place at Great Falls, Montana, and thus has Westcliffe lost one of her most popular young ladies.

The bride is possessed of an amiable disposition and has always been a favorite among the younger set here and held in highest esteem by all. She was accompanied out Monday as far as Denver by Mrs. Wadleigh.

The groom is a young man of sterling qualities, ambitious and thrifty. His occupation is that of civil engineer and he at present enjoys a lucrative position with the Alberta Land company at Suffield, Alberta, at which place they will take up their abode.—Wet Mountain Tribune.

RECORD WANTS—c LINE

MANY HUNTING LICENSES ISSUED

The approach of the deer shooting season has caused an exceptional demand for hunting licenses and ten or fifteen of them are being issued from the office of the county clerk daily. Up to noon today a total of twelve hundred and fifty-four hunting licenses had been granted in this county since the beginning of the calendar year, which establishes a new record for such permits for such period. Of the whole number of hunting licenses issued in this county only one was to a non-resident of the state, for which the fee was ten dollars. Five fishing licenses have been granted here during the last nine months to non-residents of the state, for which the fee was two dollars in each case. Eleven hunting licenses were granted at the county clerk's office last Saturday and applications were received for ten more through the mails this morning.

DIED AT THE HOTEL DENTON SATURDAY NIGHT

Max Arthur, of Buffalo, New York, died at the Hotel Denton about 12 o'clock Saturday night from tuberculosis. Deceased came here in company with his wife and daughter on Tuesday of last week for the benefit of his health, which had been declining for a long time, with the hope that a change of climate would prove beneficial. Mr. Alexander was aged fifty-one years, two months and nineteen days and was prominent in business and social circles in his home city. He was engaged in the fur trade and leaves a family of five daughters. The remains were taken to Buffalo for burial.

HUNTERS WARNED NOT TO FORGET THEIR LICENSES

Salida, Sept. 25.—Every hunter, a resident of the state, who is planning to take a trip after deer when the season opens is advised to get a license or he may get into serious trouble. This license costs but \$1, but it is a protection if some game warden or deputy should ask for the small bit of paper. It can be secured from the county clerk or his designated agents in the various towns. The deer season this year is very short, being from October 1 to 6 inclusive.

Mrs. George F. Rockefeller has gone to Denver and Greeley for a week's visit with friends and relatives.
