Dyspepsia Can Be Cured!

PAULING COUNTY, DALTON, GA., August 26th, 1854.

MR. CHARLES DELORME, Dear Sir: For several years past I have been severely afflicted with sick headache, and after trying every thing I could think of, and receiving no benefit whatever, I at last gave myself up as a confirmed dyspeptic. But hearing of your preparation, "The Bismuth of Life," I concluded to give that a trial also, and procured two bottles from your Agent Dr. T. A. Dorgan, of Darlington, S. C., and from the time I began to take it, I have not had a single attack of headache, and now feel in hopes that even the two bottles have made a cure of me. But fearing that I may have a relapse, I have determined to continue it longer, and I enclose you \$10.00 for which you will please send as many bottles as is customary for that amount. By Rail Road.

Respectfully yours, JOHN J. GREEN.

P. S.—Please forward by express train. Sept. 6, 1854 45

Notice.

The subscriber takes this method of making it known to the public, that he is now at work on, and will have in operation by another year his mill for manufacturing flour, having procured a pair of French Burr's made to order by the celebrated makers McMahon & Starr, Baltimore. His mill will be fixed with elevators, hopper bags &c., for working off the flour. In short, the flour will be carried through all the processes of a well regulated merchant mill, and with his experience in milling he has no hesitation in saying that he will be able to manufacture as good flour as any mill in the State. The mill is on a splendid stream that has never failed, 14 miles below Camden, and one mile from the main road. He will also be provided with stables for the accommodation of those coming from a distance, and the Planter shall have no excuse in future for not raising wheat for the want of a good mill. He expects also to have a Rice mill in operation.

Anatomical Lectures And Demonstrations.

DR. MYDDLETON MICHEL will commence his private course on Anatomy and Physiology, on the first Monday in November, at his Anatomical Rooms, opposite the Medical College.

Dr. MICHEL offers the following advantages to Students attending the Medical Session in Charleston. A complete course of Lectures is delivered during the season on Anatomy and Physiology, the Professor illustrating his course by preparation, drawings and models. Dissections are conducted on an improved plan, consisting in interrogating each member of the class, and making him demonstrate his own dissection. The Student may hereby multiply his opportunities for acquiring a knowledge of one of the most important and difficult departments taught in the College. Saturdays are devoted to Microscopical Anatomy.

Examinations are held regularly every night on each of the several branches, giving the class the benefit of a rehearsal, in a condensed form, of the subjects lectured on by the Professors of the Medical College, so as to reveal whatever may have escaped attention, and to correct errors entertained by misapprehending the meaning of the Lectures.

Dr. M., will find pleasure in recommending the proper text books in general use, in introducing his pupils to the acquaintance of the several Professors, and in facilitating the Students in all matters connected with their studies.

Reference may be made to Dr. M., at his residence, Queen street, 71, or at his Anatomical Rooms opposite the College.

Terms, Ten Dollars.

The subscriber is also prepared to take private pupils who for the ordinary office fee of one hundred dollars a year shall have access to a large library, diagrams, plates and models, and be furnished gratuitously with the ticket to the full course, delivered in the Summer Medical Institute. His pupils will thus be made familiar with dissection at the bedside, and be made participants in many surgical and obstetrical cases occurring in his practice, while they become acquainted with the methods of mixing and administering drugs. The strictest attention will be paid to the Microscope in connection with Anatomy and Pathology, and examinations held every day.

CHARLESTON SUMMER MEDICAL INSTITUTE. MYDDLETON MICHEL, M. D., Professor of Anatomy and Physiology. W. HUME, Prof. of Medical Chemistry. P. M. ROBERTSON, Prof. of Obstetric and Diseases of Women. R. A. KINLOCH, Prof. of Surgery. R. P. MICHEL, Prof. of Materia Medica.

Fee for the course \$50. Lectures commence in April and terminate about the middle of July.
