## PLATFORM OF THE AMERICAN PARTY, Adopted at the Session of the National Council,

February 21, 1856. 1st. An humble acknowledgement to the Schugeme Being, for his protecting care youchsafed to our fathers in their successful Revolutionary struggle, and hitherto manifested to us, their descendants, in the preservation of the liberties, the independence, and the union of these States.

2d. The perpetuation of the Federal Union, as the palladium of our civil and religious liberties, and the only sure bulwark of American Independence. 8d Americans must rule America, and to this end, nafire-born citizens should be selected for all State, Federal and

municipal offices or government employment, in preference to all others : nevertheless, 4th. Persons born of American parents residing temporarily abroad, should be entitled to all the rights of native-born

citizens: but, 5th. No person should be selected for political station. (whether of native or foreign birth,) who recognises any allegiance or obligation of any description to any foreign prince, potentate or power, or who refuses to recognise the Federal and State Constitutions (each within its sphere) as paramount

to all other laws, as rules of political action. 6th The unqualified recognition and maintenance of the reserved rights of the several States, and the cultivation of harmony and fraternal good will between the citizens of the several States, and to this end, non-interference by Congress with questions appertaining solely to the individual States, and non-intervention by each State with the affairs of any

other State. 7. 7th. The recognition of the right of the native-born and naturalized citizens of the United States permanently residing in any Territory thereof, to frame their constitution and laws, and to regulate their domestic and social affairs in their own mode, subject only to the provisions of the Pederal Constitution, with the privilege of admission into the Union whenever they have the requisite population for one Representative in Congress. Provided always, that none but those who are citizens of the United States, under the constitution and laws thereof, and who have a fixed residence in any such Territory, ought to participate in the formation of the constitution, or in the enactment of laws for said Terri-

Sth. An enforcement of the principle that no State or Territory ought to admit others than citizens of the United States to the right of suffrage or of holding political office. 9th. A change in the laws of naturalization, making a cuntinued residence of twenty-one years, of all not hereinbefore provided for, an indispensable requisite for citizenship here-after, and excluding all paupers and persons convicted o H. P. B ram would inform their friends and the public

with the vested rights of foreigners. 10th. Opposition to any union between Church and State no interference with religious faith or worship, and no test | to merit its continuance 11th. Free and thorough investigation into any and all al-

ledged abuses of public functionaries, and a strict economy in public expenditures. 12th. The maintenance and enforcement of all laws con stitutionally enacted, until said laws shall be repealed, or shall be declared null and void by competent judicial au-

18th. Opposition to the reckless and unwise policy of the present administration in the general management of one present administration in the general management of our national affairs, and more especially as shown in removing "Americans" (by designation) and conservatives in princi-ple, from office, and placing foreigners and ultraists in their places; as shown in a renking subserviously to the stronger, and an insolent and cowardly bravado towards the weaker powers; as shown in reopening sectional agitation, by the repeal of the Missouri Compromise; as shown in granting to unnaturalized foreigners the right of suffrage in Kansas and

consequences otherwise resulting therefrom, we would build up the "American Party" upon the principles 15th. That each State Council shall have authority to amend their several constitutions so as to abolish the several degrees, and institute a piedge of honor, instead of other obligations for fell wship and admission into the party. 16th. A free and open discussion of all political principles
