SINGER'S SEWING MACHINES. THESE celebrated machines are in practical and profita-ble use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or feather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PER-PROVINGERY. FECTLY, being strong durable and complete in contrivance and workmanship. A perfect seeing machine kept employ-ed affords a c'ear profit of \$1,000 a year, but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their

unparalleled popularity.

MACHINES FOR FAMILY SEWING. of a frail and delicate construction, are recommended by other manufacturers. Such machines are reads to eatch the eye, not to perform substantial work. The truth is. family sewing machines ought to be much stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No he speed of our machines has lately been doubled. No ther can compare with them in quantity of work.

The New machines of the latest improved style will be achanged on liberal terms for old saving machines of our wn make, or for operative machines of other manufactur-

own make, or for operative machines of other mainfacturers. Local agents wanted to sell our machines. 22

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Guzette," a paper devoted to the subject. It will be sent graffs.
