### QURTZ MINING Machinery.

Bradford's Patent Ore Separator.

THESE MACHINES ARE OFFERED FOR sale, and are open to the examination of the Mining community of California, performing all that is undertaken for them, viz: to concentrate the particles of rock after it has been crushed and sized. The operation is nothing more than mechanically "panning out," but so nicely working that gold can be panned readily from "black sand." The most important application is to concentrate sulphurets from quartz, doing it rapidly and well. Nothing new, and are in use on a number of mining properties in the older States. Machinery on exhibition, and for sale by JESSE S. BLYDENBURGH, d23-3m 120 Market street, SAN FRANCISCO.

### To the Citizens of California.

CAUTION! I AM INFORMED that various liquor-mixers of New York, Boston and San Francisco, are extensively engaged in putting up in square bottles, under various titles, cheap imitations of my long established and renowned

### Wolfe's Scheidam Aromatic Schnapps.

Which adulterated compounds are intended to sell in California against my genuine article. My object is to announce that I have recently established an AGENCY IN SAN FRANCISCO for supplying the State and Oregon with my Schnapps, and that hereafter I will always keep said agency supplied with a large stock of that respectable drug and liquor dealer throughout California can always supply themselves at a regular price, merely enough over the New York price to cover cost of freight and charges; thus avoiding complaint as heretofore, of occasional scarcity and extreme high prices.

It is now many years since I first imported these Schnapps from the celebrated old distillery at Scheidam, Holland, in which I am interested. It is now conceded that no Gin was ever imported into this country which has approached my Schnapps in regard to PURITY, HEALTHFULNESS, and EXQUISITE FLAVOR or odor. This I claim, and for proof, point to their universal popularity and the immense and increasing consumption by all classes, north and south, east and west, comprising the temperance people, medical faculty, &c., to such an extent that my establishment, packing the enormous quantity of 8,000 bottles per day, is barely able to fill its orders.

Also, the Wolfe's Schnapps have been analyzed by the most celebrated Chemists, Drs. Mott and Beck, of New York, and others, who all testify that they are a

### Perfectly Pure Medical Tonic

Invaluable as a remedy against BAD WATER, GRAVEL, INDIGESTION, DYSPEPSIA, DEBILITY, &c. They also certify that they found my Schnapps to be free from Ardent Alcohol or Fusil Oil, an exceedingly hurtful ingredient, found in all common Gins, which Dr. Mott describes as "febrile, acrid, and seductive and producing irreparable effects upon the nerves and stomach." The certificate also prove my Schnapps perfectly clear of "the second or heavier Essential Oil of Juniper, also a dangerous component, produced by the over distillation practiced to increase the quantity in making ordinary Gins."

These statements are made with a view to invite comparison in California between the genuine Wolfe's Schnapps and the various brands of bogus imitations, mixed, doctored up, or sweetened Gins in square, black bottles, (imitation of my style of bottles) under different names and labels, whether marked London, German, Holland Scheidam Schnapps, &c., in infinite variety—concluding that the truth will result in California just as it has long since done in all the older States, in repudiating all the bogus, unwholesome imitations referred to, and the complete triumph of my pure Scheidam Schnapps.

I desire briefly to notice two facts which have lately added largely to the use of Wolfe's Schnapps in the City of New York and elsewhere. 1st. Prof. French Brandy is now almost impossible to obtain—nearly all the brandy imported from France being American raw spirits sent there, made into brandy, and shipped back again. 2nd. Many people are abandoning the use of American whiskeys, brandy and gin, since it has been discovered that they contain a deadly poison, in use at the west in distilling, thereby increasing the yield of liquor about one-third.

In conclusion, I will say to all who desire a whole, some, agreeable tonic and stimulating agent, a fair trial of

### WOLFE'S

Scheidam Aromatic Schnapps.

SOLE AGENTS 22 Beaver street, New York
