

JOHN W. KERN NOT TO SPEAK BEFORE COMMERCIAL CLUB

Owing to Other Engagements He Found It Impossible to Appear in This City Next Monday Night.

W. D. BYNUM PROMINENT MAN ON SHIP SUBSIDY.

Has Always Been an Important Figure in Indiana Politics and Is Noted for Activity in Campaign of 1896.

Owing to conflicting engagements, the Hon. John W. Kern of Indianapolis, will not be able to speak before the members of the Richmond Commercial club next Monday night. The time of the meeting has been changed to Tuesday night and the Hon. W. D. Bynum, who was formerly a democratic congressman from Indiana, is widely known. That was previous to 1896 and when Bynum was nominated in 1896, Mr. Bynum went with the gold democrats. Until quite recently he has been located in New York City, serving as a member of the federal codification commission, to which position he was appointed by President McKinley. Mr. Bynum is again located at Indianapolis. The important feature of the address he is to deliver here will be arguments against a ship subsidy. Mr. Bynum is a man of ability, a forceful speaker and members of the Commercial club and their invited friends have the promise of a profitable evening.

The London Pit.
The pit we used to read about in English novels has almost disappeared from the London theaters, surviving mainly at the music halls, though much abbreviated. The orchestra stalls have supplanted it with their high charges so that the paragon appears quite American. Back of observation, in what we should call the paragon circle, are the cheap seats forming the modern pit. High and low, rich and poor, are thus brought directly in contrast.—Travel Magazine.

Rooks and Sunday.
All the animal world appears to know a Sunday from a week day. There is a tradition in Lancashire and perhaps elsewhere that the rooks always commence building on the first Sunday in March. This has been frequently verified by observation, and the punctuality of the rooks might almost claim to exceed the limits of coincidence.—Country Life.

Intended to Pay.
The kindly old lady from the country had purchased a pair of gloves in a department store.
"Cash," shouted the saleslady.
"My land," exclaimed the old lady, fumbling in her valise, "I'll give it to you just as soon as I find my pocket-book!"—Harper's Weekly.

He Cinched It.
"My boy, I like you, and I want you to marry my daughter, but have you spoken to her mother about it?"
"No, sir."
"Then, to cinch it for you, I'll oppose the match!"—Denver Post.

A Troublesome Future.
Nurse—Bridget, come here and see a French baby born in Dublin. Bridget—Poor little darling! It's a great perplexity you'll be to yourself, I'm thinking, when you begin sheepeat!—Punch.

LIVERPOOL.

If this concerns you, read carefully: Dr. Caldwell's Syrup Pepsin is positively guaranteed to cure indigestion, constipation, sick headache, offensive breath, malaria and all diseases arising from

It is expected that the Rev. J. E. Cathell will preach at the St. Paul's Episcopal church next Sunday.

THE FIRST COFFEE.

Near the middle of the fifteenth century a poor Arab was traveling through Abyssinia, and finding himself weary and weak from fatigue, he stopped near a grove. Then, being in want of fuel to cook his rice, he cut down a tree, which happened to be covered with dead berries. His meal being cooked and eaten, the traveler discovered that the half-burned berries were very fragrant. He collected a number of them, and on crushing them with a stone he found that their aroma increased to a great extent. While wondering at this he accidentally let fall the substance into the can which contained his scanty supply of water. Lo, what a miracle! The nearly putrid water was almost instantly purified. He raised it to his lips. It was fresh, agreeable, and in a moment the traveler had so far recovered his strength and energy as to be able to resume his journey. The lucky Arab gathered as many berries as he could, and having arrived at Aden, in Arabia, he informed the district of his discovery. That worthy divine was an inveterate opium smoker and had suffered for years from the influence of that poisonous drug. He tried an infusion of the roasted berries and was so delighted at the recovery of his own vigor that in gratitude to the tree he called it "cubab," which in Arabia signifies "force."

Infants and children are constantly needing a laxative. It is important to know what to give them. Their stomachs and bowels are not strong enough to handle the heavy doses of calomel, pills, powders or tablets. Give them a mild, pleasant, gentle, laxative like Dr. Caldwell's Syrup Pepsin, which acts on the bowels, gives the system a new lease of life, and is the great remedy for you to have in the house. Give children when they are sick.

Mrs. William Srethour, Sr. of Piqua, Ohio, is visiting Mrs. John T. Foulke of South Sixteenth street.

Mr. Harvey Hunt has just returned home from a business trip through the east and a few days stay in Chicago.

AMERICAN FLEET SAILS FROM PORT

Left Rio Janeiro This Afternoon for Punta Arenas, South America.

TORPEDO FLEET PRECEDES.

LEFT THE PORT LAST NIGHT, MUCH TO THE SURPRISE, AS IT WAS ANNOUNCED VESSELS WOULD TOUCH BUENOS AYRES.

Rio Janeiro, Jan. 22.—The American battle fleet sailed from this port this afternoon for Punta Arenas. A great send-off was given the fleet as it sailed out of the harbor.

The torpedo fleet sailed at 9 o'clock. The last night for Buenos Ayres. The departure of the little war vessels for the Argentine capital proved quite a surprise to the Brazilians, as it had been hinted from Washington that the fleet would not visit Buenos Ayres, and that the battle-ship fleet would not sail in Argentine waters, but go on a direct course south to the Straits of Magellan.

FISHER SPEAKS TONIGHT TO MEN

Will Deliver an Address at the High School Hall of Interest.

INTERNATIONAL SECRETARY

Dr. George L. Fisher, one of the leading U. S. M. C. A. workers of the country will speak this evening at the high school hall and every man in the city is invited to attend. Excepting high school students, boys under sixteen years of age will not be admitted. The meeting is held under the auspices of the local Y. M. C. A.

Dr. Fisher is the international Y. M. C. A. secretary and head of the physical departments of North America. He will speak on physical culture in the broad sense of the word, and will say things that every man ought to hear and ought to know.

MANY MEN ARE EMPLOYED

Hoosier Drill Has 325 Employees Working.

Manager Fred Carr, of the Hoosier Drill branch of the American Seeding Machine company, stated today that at the present there are 325 men employed at the concern. This working force is not likely to be increased unless additional large orders are received. Last year at this time there were about 400 men employed at the Hoosier Drill.

THE CHAMOIS.

Exciting sport, the more exciting because of the hardships connected with it, is offered by chamois hunting in the mountains of Europe. The chamois are found everywhere in the highest mountains of Germany, Austria, Switzerland, in Transylvania, in the Carpathians, also in the Alps, and these extremely shy animals are regarded by all true hunters as the most desirable of all game. The chamois belongs to the antelope species; but, unlike its kin of the broad plains, it prefers the barren walls of the high mountains, and like mountain sheep, the flex and the mouflon, it selects in this territory full of chasms and canyons the most impassable regions as its lair. During the summer months the chamois roams in the higher altitudes, but in the winter time it must descend to find its food. After feeding it returns to its old impassable nooks, where it feels secure. As in the case of the deer, the male is called a buck and the female a doe; but, unlike all other animals of this kind, both sexes are antlered, the horns being called "krickel." But those of the does are somewhat lighter than those of the buck. The doe brings forth one fawn every year, sometimes two, but very seldom three, which are very dearly loved by the mother and which she protects against all dangers.—Outer's Book.

Male Blushers and Their Cure. "A good many men blush," said a physician, "some so painfully that they come to me to be cured. The cure I recommend is an old one. It is the abandonment of overheavy clothing, especially of woolen socks. Amazing it is how many male blushers have a predilection for thick socks of wool. But some blushers wear light enough clothes. To them I can only recommend a nerve treatment. I advise them to make speeches at banquets, to be witnesses in murder trials, to go to teas and dances, to develop, in short, the nerve, as a wrestler develops his muscle. Blushing is a difficult disorder to cure. As a rule, it passes away of itself when the victim reaches his thirty-fifth year."—New Orleans Times-Democrat.
