of this publication. Only the figures of  
circulation contained in its report are  
guaranteed by the Association.  
No. 169  
Secretary.

Items Gathered in  
From Far and Near

George Washington University.  
From the Springfield Union.

We believe that the senate com-  
mittee on agriculture and forestry has ac-  
ted wisely in making a favorable report  
on the bill to extend the benefits of the  
Morrill act, and the several amend-  
ments to it, to the District of Colum-  
bia, and specifically to George Wash-  
ington University, located in the Dis-  
trict. As the committee says, no  
good reason suggests itself for debar-  
ring the District of Columbia from  
benefits enjoyed by the states and ter-  
ritories as a result of the measure  
which has proved of such great value  
in developing and extending the ad-  
vantages of scientific and technical edu-  
cation. The committee finds no founda-  
tion for the assertion that George  
Washington University is a sectarian  
institution. It is not a public insti-  
tution in the sense that the state col-  
leges are, but the committee points out  
that in no less than six instances pre-  
viously institutions resting on private  
foundations have been designated to  
receive the benefits of the Morrill act.  
Among these were Yale, Brown, Col-  
nell and Massachusetts Institute of  
Technology. The committee finds it  
was not the intention of the act to  
force each state to establish a state  
college or university in order to be  
qualified to administer the fund pro-  
vided. By its present charter George  
Washington University is subject to the  
visitation and supervisory power of  
congress, and by the proposed bill  
four federal officials would be made  
ex-officio trustees of the university and  
an annual report on its work would be  
made to congress.

It is found that the university is al-  
ready complying with the terms of the  
Morrill act, and that of its 1,520 stu-  
dents last year, 544 were pursuing  
subjects called for by this instrument. It  
has established a college of engineer-  
ing and the mechanic arts, schools of  
architecture and pharmacy, a college  
of veterinary medicine, courses in bot-  
any, zoology and chemistry, and most  
of the subjects commonly embraced  
by the term "mechanic arts." It is  
prepared to comply fully with the pro-  
visions of the Morrill act, including  
among other things, the advancement  
of agricultural science. The univer-  
sity seems to be doing an excellent  
work and there is no good reason why  
it should not have the same support  
as is extended to institutions in the  
states and territories. Though resi-  
dents of the District of Columbia can-  
not vote, they need not be discrimi-  
nated against in the education of their  
children, nor should young people  
from the surrounding states be dis-  
couraged from attending an institution  
that has evinced such a worthy spirit  
of enterprise and self-help.

Sounds Like Irony.  
From the Newark News.  
And even now, every once in a while,  
somebody refers to Philadelphia as  
"the City of Brotherly Love."

Is It Possible?  
From the Chicago Record-Herald.  
There are in the United States senate  
several men whom we are almost sure  
George Washington would disapprove  
of if he were here now.

Mob City.  
From the Detroit Free Press.  
Civilization seems to find hard sled-  
ding in Cairo, Ill.

## TWINKLES

(By Philander Johnson)

Pungent Flavors.  
"One of these food experts says  
that a cactus leaf is edible."  
"Well," said the man who is not an  
epicure, "a cactus leaf is a little spiny.  
But I shouldn't think it would hurt any  
worse than horseradish or chile con  
carne."

Embarrassing.  
"I'll have to get another typewriter,"  
said the bustling man. "This one is  
constantly stopping my dictation to  
ask how some word is spelled."  
"That's a great loss of time."  
"I don't mind the time, but it inter-

## A REAL FOURTH.

"Four months from now the children of this country, and this city will  
be busy killing themselves."  
If some man were to stop you on the street and tell you that, you would  
begin to look for the proper authorities to have him locked up.  
For you would think it very improbable.  
You would think it very absurd.  
Why should the children of this or any other place, upon a day ap-  
pointed, engage in the practice of exterminating themselves?

The dealers in fireworks already have their agents on the road. And  
Fourth of July is coming.

Some people object to the noise.  
Such people have never been young.  
They do not know the joy of getting up early in the morning and, punk  
in hand, pockets stuffed with glorious sound making machinery, waking the  
neighborhood. They do not know the joy of sending a tin can into eter-  
nity with a giant cracker.

Such people even add zest to the day's pleasure by threatening to send  
for the police.  
Such people verily rejoice when some little friend of ours in the fire  
of life, puts out an eye or gets the lockjaw from a toy pistol.

If we had our way about this business we would begin right now to  
keep the community from being guilty of contributory murder.  
We should not say a word about the noise.  
We should take the trouble to give the KIDS A SQUARE DEAL.  
THEY ARE ENTITLED TO THE FUN.  
THEY DO NOT DESERVE TO HAVE LOCKJAW.  
RIGHT NOW, BEFORE THE DEALERS LAY IN THEIR SUPPLIES,  
LET PAINS BE TAKEN TO AT LEAST RULE OUT THE VERY DAN-  
GEROUS THINGS AND LEAVE PLENTY OF NOISE.

This will not please some of our readers—the ones who mind being hit  
by an occasional snow ball.

We haven't much faith in just passing ordinances.

Though we would like to have it arranged that the murderous varieties  
of fire works should not get into the hands of our very good friends—"the  
kids."

Ordinances are for dealers.  
And, to let them have a square deal on this affair, whatever is done,  
ought to be done now.

Then, instead of lecturing our children about the danger and making  
them restive under the rein, by driving them and disappointing them, we  
would like to see everyone get young for one day and go out and help the  
youngsters have a good time.

We do not even think that a long Fourth of July speech is necessary—  
except it be to remind some of the older people that we are facing just  
about the same thing now that worried the Signers.

But we are interested in the children.

Give them a real party and show that you are entitled to be their par-  
ents and their friends.

Give them something that has some fun and some pleasure in it—say a  
sham battle, and let them have a hand in the game too, Boy Scouts, say.

THERE WILL NOT BE ANY CASES OF LOCKJAW or any eyes put  
out if you will spend a little bit of your VALUABLE TIME.

Don't let any one mention a Sane Fourth. But fight the Lockjaw and  
give OUR FRIENDS A REAL FOURTH without contributory murder.

fores with discipline for me to have to  
keep saying I don't know."

Pursued.  
What is a pussio g'inter go  
To dodge this mighty dread,  
With groun'gows waitin' down below  
An' comets overhead?

A Motto Disproved.  
"What broke up your theatrical  
company?"

"The playwright introduced a line  
that was sure of a big round of ap-  
plause. The leading man, the leading  
woman, the comedian, and in fact ev-  
erybody, insisted on having the oppor-  
tunity to speak it. The result was a  
general quarrel."

Exactness.  
"So your little girl objects to saying  
'Now I lay me down to sleep?'"  
"Yes. She is a truthful child, and  
we have been living in a room near an  
elevated railway in New York where  
nobody could sleep."

A Spring Sarcasm.  
The season is approaching  
Which we hail with dulcet song;  
The eggs will not stand poaching  
And the butter's rather strong.  
For coughs and colds we're treated  
In scientific terms,  
And most of us have greeted  
A variety of germs.

The frolicsome bacillus  
Floats by, so light and gay.  
He doesn't mean to kill us;  
That's just his little way.  
Let no selfish moods confound us—  
Let us all rejoice to see  
That the microbes all around us  
Are as happy as can be.

## MASONIC CALENDAR.

Tuesday, March 1, Richmond Lodge,  
No. 196, F. and A. M. Stated meeting.  
Thursday, March 3, Wayne Council,  
No. 10, R. and S. M. Stated meeting.  
Friday, March 4, King Solomon's  
Chapter, No. 4, R. A. M. Called meet-  
ing. Work in the Past and Most Ex-  
cellent M. degree.  
Saturday, March 5, Loyal Chapter,  
No. 49, O. E. S. Stated meeting.

Notwithstanding the duty of 40 per  
cent. a barrel, large quantities of ap-  
ples from Oregon, Washington and  
other states are consumed in Western  
Canada.

## Deafness Cannot Be Cured.

by local applications, as they cannot  
reach the diseased portion of the ear.  
There is only one way to cure deaf-  
ness, and that is by constitutional  
remedies. Deafness is caused by an  
inflamed condition of the mucous lin-  
ing of the Eustachian Tube. When  
this tube is inflamed you have a run-  
ning sound or imperfect hearing, and  
when it is entirely closed, Deafness is  
the result, and unless the inflammation  
can be taken out and this tube restor-  
ed to its normal condition, hearing  
will be destroyed forever; nine cases  
out of ten are caused by Catarrh,  
which is nothing but an inflamed con-  
dition of the mucous surfaces.  
We will give One Hundred Dollars  
for any case of Deafness (caused by  
catarrh) that cannot be cured by Hall's  
Catarrh Cure. Send for circular free.  
F. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, or  
Take Hall's Family Pills for consti-  
pation.

## Hope for India's Child-Wives

A CHILD WIFE OF INDIA AND HER HUSBAND.

The 25,000 American women organ-  
ized to fight child marriages in India  
have won a first victory.

Prominent Hindu citizens of Cal-  
cutta, awakened by the dangers of a  
system that is depleting the vitality  
of the race, have held a mass meeting  
and declared against the marriage of  
girls under 16 and men under 25 years  
of age.

If the campaign begun is successful,  
258,780 betrothed baby girls under 4  
years of age, 2,201,404 baby wives be-  
tween 5 and 9 years old, 8,105,759  
wives whose ages range between 10  
and 14 years—in all 10,307,163 wives  
under 14 years of age—will have  
American women to thank for their  
salvation.

The fight of American women  
against the Hindu practice was  
brought to the attention of the public  
last year when Mrs. Caroline P. Wal-  
lace of Calcutta toured the country  
lecturing and enlisting women under  
the banner of the Indo-American  
Woman's Restoration league.

The league aims to restore Hindu  
women to the safe and honored posi-  
tion they occupied before the invasion  
of the Mohammedans in the sixth cen-  
tury A. D. That invasion brought in-  
to the country the practice of child  
betrothals and marriages.

The marriages no longer have re-  
ligious significance. A hundred super-  
stitions hold the people in thrall and  
cause frightened mothers to give up  
their babies to the most revolting  
practices of licentiousness under the  
guise of marriage.

Millions of little girls, forced to be-  
come wives and mothers before they  
have passed their childhood, dumbly  
despairing and sometimes ending their  
own lives to escape their 40 or 50-  
year-old husbands, have touched the  
hearts of American women, who have  
organized to save the children.

The Restoration league had its or-  
igin in a visit made to India nine years  
ago by Miss J. M. Holmes, Miss Carrie  
A. Tennant and Mrs. Wallace, all of  
Los Angeles. In India they saw the  
most hopeless womanhood in the  
world. They investigated the revolting  
practices to which little girls are  
given over, and the terrible custom of  
child-widowhood, which means that  
the baby whose husband chances to  
die is a widowed outcast for life.

The three women organized the  
league and since then Mrs. Wallace  
and Miss Tennant have been almost  
constantly in India. The action of the  
Calcutta mass meeting against child  
marriages was the first of the kind  
ever taken by leading Hindus.

## THE TRAVELS OF A LIE

New York, March 1.—Somewhere on  
this continent a lie started. It had to  
do with false hair and leprosy, and it  
grew and grew, until today there is  
not a city of any size in the United  
States that isn't filled with this lie  
made local.

You've heard it. Everybody has. It  
runs this way when it is told to you:  
"Say, did you hear? There's a girl  
on the South-side (or the East-side,  
or across the river, never in your own  
locality), who has leprosy. Why, her  
skin is flaking off snow white, her  
teeth are loosening and they say she  
is a ghastly sight. Why, it's right  
here at home, and—do you know?"  
she took it from wearing a switch."

Or else:  
"She worked in Blank's department

store, in the hair goods department,  
and she got the leprosy from handling  
Chinese hair—all the black switches  
come from China, you know. And  
they say some of the other girls in  
Blank's hair department are sick at  
home, and they have strong symptoms  
of leprosy."

Now, this is a lie, for no one ever  
got leprosy from handling or wearing  
hair switches, nor has medicine a  
record of a single bona fide case of  
any skin disease contracted from  
handling or wearing false hair.

But the lie has cut such inroads in-  
to the false hair trade that it has be-  
come a very serious thing in New  
York, the center of the hair goods in-  
dustry.

The New York investigation has  
shown practically beyond dispute that  
the lie was deliberately started by an

ONE DOSE ENDS INDIGESTION,  
HEARTBURN OR GAS ON STOMACH.

A little Diapiesin will prompt-  
ly regulate any bad  
Stomach.

Why not get some now—this mo-  
ment, and forever rid yourself of  
Stomach trouble and Indigestion? A  
dieted stomach gets the blues and  
grumbles. Give it a good eat, then  
take Pape's Diapiesin to start the di-  
gestive juices working. There will be  
no dyspepsia or belching of Gas or  
eructations of undigested food; no  
feeling like a lump of lead in the  
stomach or heartburn, sick headache  
and Dizziness, and your food will not  
ferment and poison your breath with  
nauseous odors.

Pape's Diapiesin costs only 50 cents  
for a large case at any drug store  
here, and will relieve the most obsti-

nate case of Indigestion and Upset  
Stomach in five minutes.

There is nothing else better to  
take Gas from Stomach and cleanse  
the stomach and intestines, and, be-  
sides, one single dose will digest and  
prepare for assimilation into the  
blood all your food the same as a  
sound, healthy stomach would do it.

When Diapiesin works, your stom-  
ach rests—gets itself in order, cleans  
up—and then you feel like eating  
when you come to the table, and what  
you eat will do you good.

Absolute relief from all Stomach  
Misery is waiting for you as soon as  
you decide to take a little Diapiesin.  
Tell your druggist that you want  
Pape's Diapiesin, because you want  
to become thoroughly cured this time.

Remember, if your stomach feels  
out-of-order and uncomfortable now  
you can get relief in five minutes.

## WE LOAN MONEY

We are established to loan small amounts of  
money to people who have no banking facilities  
or property upon which money can be raised, but  
have too much pride to appeal to friends for fi-  
nancial aid. We make loans ranging from \$10.00  
upwards, and make them in a  
satisfactory manner to the  
borrower, because we make a study of the in-  
dividual need of each customer. If you are in need  
of money for any purpose we will supply it cheer-  
fully and upon a more liberal plan of payment  
than you can get elsewhere, and allow you to pay  
it back in small payments arranged by yourself.

## INDIANA LOAN CO.

3rd Floor Colonial Bldg.,  
PHONE 1341 ROOM 42

## American manufacturer of hair goods

to cut off foreign competition.  
A typical illustration of the lie's pro-  
gress comes from Chicago. Continual-  
ly Health Commissioner Evans of Chi-  
cago is called to the telephone to hear  
some mysterious individual inform  
him of a case of leprosy contracted  
from Chinese false hair. Several  
times he has investigated, to find a  
situation something like this:

The inspector went out to talk with  
the telephone informant. That lady  
didn't know where the leper lived, but  
Mrs. Blank did. The inspector went  
to Mrs. Blank. All she knew was what  
Mrs. Dash had told her. Mrs. Dash  
referred the inspector to Mrs. Smith.  
Mrs. Smith passed him along to Mrs.  
Jones. Finally he reached Mrs. White.  
All she knew was a telegraphed story  
she had read in a newspaper.

Detroit was a center for leprosy  
stories. Boston and Baltimore both  
got undesirable publicity in this re-  
spect. Cleveland had rumors for  
months. The story spread to the Pa-  
cific coast.

Dr. L. Duncan Bulkley, an author-  
ity on leprosy, and who now has a  
leprosy case at the New York Skin  
and Cancer hospital, said the hair  
story is ridiculous.

"It would be impossible to contract  
leprosy from hair, even though the  
hair came from the head of a leper,"  
he said.

## HAS BLOOD POISON

Isaac Spahis, a student at Earlham  
college, and a son of Mr. and Mrs.  
Doddridge Spahis, of Milton, is con-  
fined at his home with blood poison-  
ing, resulting from knocking off the  
nail of one of his toes while playing  
basket ball at the college recently. It  
is not believed that his illness is se-  
rious.

Melbourne, Australia has never seen  
any real fighting, but it has had sev-  
eral scores. Its people for a long time  
cherished the delusion that the Rus-  
sians had designs upon their city.  
Twice Russian admirals dropped in  
there casually, took soundings, and  
landed observation parties. Once the  
citizens were aroused from their beds  
in the small hours of the morning by  
cannon booming and rocket firing  
down the bay. "The Russians at  
last!" was the general cry. But it  
was only a too-jovious British captain  
who had made a record passage from  
London.

The average yearly slaughter of fox-  
es in Germany is about twenty thou-  
sand.

## CHILDREN WHO ARE SICKLY

Mothers who value their own comfort and the  
well-being of their children, should never be without a  
box of Mother Gray's Sweet Powders for Children,  
for use throughout the season. They Break up Colds,  
Cure Feverishness, Constipation, Teething Dis-  
orders, Headache and Stomach Troubles. THESE  
POWDERS NEVER FAIL. Sold by all Drug Stores,  
etc. Don't accept any substitutes. A trial package  
will be sent FREE to any mother who will address  
Miss S. C. Gray, Le Roy, N. Y.

## DISAPPEARS SUDDENLY

Poslam Makes Quick Work of Skin  
Disfigurement.

By taking a small part of the skin  
which is affected with some blemish,  
such as pimples, rash, blotches, etc., or  
which is unduly inflamed, itching or  
chafing, and applying thereto a small  
quantity of poslam sufficient only to  
cover the selected surface, an imme-  
diate demonstration may be had of the  
remarkable properties of this new dis-  
covery and enough poslam for the pur-  
pose will be mailed free of charge to  
any one, upon request, by the Emer-  
gency Laboratories, 32 West 25th  
street, New York. The spot so treat-  
ed will be cleared and healed in twen-  
ty-four hours.

Poslam puts a stop to itching as soon  
as applied, and its readiness in healing  
these small surfaces and minor trou-  
bles is but an indication of its rapid  
action in curing eczema, tetter, scabies,  
etc., on hands, limbs, scalp or any part  
of the body. As the quantity necessary  
to use varies with the nature of the  
trouble poslam is put up in two sizes,  
one for 50 cents (for minor uses) and  
the regular jar at \$2. Both are al-  
ways on sale at W. H. Sudhoff's and  
other drug stores.

During the first fifty years of the  
old American navy, 1798-1848, the mor-  
tality of naval officers resulting from  
naval wars. In the eighty-two duels  
listed by a recent writer, thirty-six  
men were killed, all naval officers ex-  
cept three civilians. The per cent. of  
mortality was 22, or five times the mor-  
tality of the federal army in the  
civil war. One-half of those not killed  
in these duels were wounded. The  
large number of casualties was un-  
doubtedly due to the short distance  
between the combatants, which cus-  
tomarily was only ten paces, or thirty  
feet. In a few duels the distance was  
even less. In the Barron-Decatur duel  
it was twenty-four feet, and only  
twelve in the Bainbridge-Cochran duel.

## NOTICE F. O. E.

Business of great importance for  
Wednesday night, March 2nd, 1910.  
After the business session a Dutch  
Lunch will be served. All Eagles  
please be present.
