Richmond, Indiana
"PANIC PROOF CITY"

Has a population of 22,324 and is
growing. It is the county
seat of Wayne County, and the
trading center of a rich agri-
cultural community. It is the
second largest city in Indiana,
69 miles and 4 miles from the
state line.

Richmond is a city of homes
and of industry. Primarily a
manufacturing city, it is also the
trading center of Eastern In-
diana and enjoys the retail trade
of the populous community for
miles around.

Richmond is proud of its splen-
did streets, well kept yards, and
beautiful shade trees. It has three national
banks, one trust company and
four building associations with a
combined resource of over \$5,000,000.

Number of population, 22,324.
Capital invested, \$7,000,000.
with an annual output of \$27,000,000.
and a pay roll of \$1,000,000.
The total pay roll for the
city amounts to approximately
\$5,000,000 annually.

There are five railroad com-
panies radiating in eight differ-
ent directions from the city. In-
coming freight handled daily, 1,750,000 lbs.
outgoing freight
handled daily, 750,000 lbs.
facilities, per day, 1,700 cars.
Number of passenger trains daily
\$1. Number of freight trains
daily, 17. The annual post office
receipts amount to \$80,000. Total
assessed valuation of the city,
\$15,000,000.

Richmond has two interurban
railways. Three newspapers with
a combined circulation of 12,000.
Richmond is the greatest hard-
ware and jobbing center in the state
and only second in the nation.
It has a piano factory producing a high grade
piano every 15 minutes. It is the
leader in the manufacture of
traction engines, and produces
more threshing machines, lawn
mowers, roller skates, grain
drills and burial caskets than
any other city in the world.

The city's area is 2,640 acres;
has a court house costing \$500,000,
10 public schools and 12,000 of the
finest and most complete high
school in the middle west; three
parochial schools; Earlham col-
lege and the Indiana business
college; five splendid fire com-
panies in fine houses; Glen
miller park, the largest and
most beautiful park in Indiana,
the home of Richmond's annual
chautauqua; seven hotels; munici-
pal electric light plant, under
successful operation and a pri-
vate electric light plant, insur-
ing competition; the oldest pub-
lic library in the state, except
one and the second largest, 40,000
volumes; pure refreshing water,
un surpassed; 40 miles of im-
proved streets; 40 miles of sewers; 25
miles of cement sidewalks and gutters
combined; 40 miles of cement
walks, and many miles of brick
walks. Thirty acres of park land,
including the Reid Memorial, built at
a cost of \$250,000; Reid Memorial
Hospital, one of the most modern
in the state; Y. M. C. A. building,
erected at a cost of \$100,000, one
of the finest in the state. The amuse-
ment center of Eastern In-
diana and Western Ohio.

No city of the size of Richmond
holds as fine an annual air ex-
hibit. The Richmond Fall Festi-
val held each October is unique,
no other city holds a similar af-
fair. It is given in the interest
of the city and financed by the
business men.

Success awaiting anyone with
enterprise in the Panic Proof
City.

This Is My 51st Birthday

GEORGE WILLIAM BROWN.

George William Brown, lieutenant
governor of the province of Saskatch-
ewan, was born in Holstein, Ontario,
May 31, 1860, of Irish parentage. He
attended college in Brantford and soon
after completing his education he em-
igrated to the west. Upon his arrival
in the new country he took up a home-
stead near what is now the flourishing
city of Regina, but which at that time
had not yet been laid out. By 1889,
however, Regina had secured its place
on the map, and Mr. Brown left the
farm and added one to the population
of the new city. He studied law and
within a short time became prominent
in the legal profession. For nearly
twelve years he held a seat in the old
northwest assembly. He remained a
member of the assembly almost con-
tinuously until that body passed out
of existence upon the formation of the
province in 1905. He then retired tem-
porarily from public life and spent sev-
eral years in European travel. He was
called to the office of lieutenant gov-
ernor last October. Despite his public
duties and his large legal practice Mr.
Brown has continued to take an active
interest in agricultural operations and
has several times held the presidency
of the Regina Agricultural association.

Turtle Soup at Lou Knopf's
Cor. 5th and Main, Wed.

A Woolen Schedule

According to Louis Ludlow, special writer for the Indianapolis Star, William Jennings Bryan has denounced those congressmen who are contemplating keeping protection on wool. Mr. Ludlow includes the name of Finly Gray, congressman from this, the Sixth district, as one whom Mr. Bryan charges with inclining toward the tariff on wool.

However, this is a charge brought by Mr. Ludlow and not by Mr. Bryan.

Here are the words of Mr. Bryan:

"Let no Democratic advocate of a tax on wool masquerade behind the pretense that he is voting for a revenue tariff," says the commoner. "Let him not add hypocrisy to the sin which he commits against his party."

"There is no reason why a few sheep raisers should be shown fa-
voritism at the expense of all who wear woolen clothing."

If the Democratic party is to be Aldrichized, let the change of pol-
icy be made with audacity, at least.

The man who does wrong boldly may mislead a few, but the man
who does wrong by stealth, and then tries to conceal it by equivocation
confesses his consciousness of guilt and can not hope for a following.

"The Republican voters were brave enough to turn out a lot of Repub-
lican Aldriches; what reason have our Democratic congressmen to think
that Democratic voters are less courageous?"

The Democratic party owes much to Mr. Bryan if he is able to keep
in line with the Democratic progressives those other wavering men of
that party who are about to succumb to the pleas of tariff lobbyists.

No one can read Judson Welliver's remarks in the June Munsey's
on the Lorimer case without seeing the distinct relation between the wool-
en schedule K and the Lorimer case.

Aldrich proclaimed that the woolen schedules were the foundation
of all the tariff controversy. And by that Aldrich meant that if the Ameri-
can Woolen Company did not "get theirs"—then neither would any of the
other highly protected interests.

The president of the United States, Mr. Taft, in those all too mild
words proclaimed schedule K as "indefensible."

In such a case we believe that the tariff question becomes not a mat-
ter of partisanship, but of common honesty.

We believe that Mr. Gray feels this way about the tariff.

After his election he did a very brave thing—he outlined his pol-
icies in writing and placed himself on record:

"The tariff should be revised downward without delay, with objects
in view in the order of their importance as follows:

1st. To limit taxation to the needs of the government economically
administered.

2nd. To impose the lightest burdens on the necessities of life and the
heaviest on luxuries.

3rd. To reduce the rates on trust controlled articles to prevent mon-
opoly and restore competition.

According to this program Mr. Gray is against affording the American
Woolen company with the means of imposing taxes on the American peo-
ple through the medium of a tax on woolen goods—necessities.

It is on this account that until we have more tangible evidence that
we refuse to believe that Mr. Gray has been tricked over by the American
Woolen company no matter whether this comes from Mr. Bryan or as
is far more likely from the sweeping statements of Mr. Ludlow.

The American Woolen company and not the farmer is the beneficiary
of schedule K.

Mr. Gray has shown sincerity in all his actions. We do not believe
that his real intentions are to line up with the American Woolen company.

As the Palladium has remarked always in this connection—it is the
record of a man in congress that should be considered. We have no doubt
that Mr. Gray is willing to stand on his record.

The record is up to Mr. Gray—and his constituents.

A FORMER BANKER
PLACED ON TRIAL

(National News Association)
Washington, D. C., May 31.—John
Barton Miller, former secretary-treas-
urer of the defunct First Co-operative
Building Association of Georgetown,
was arraigned for trial today on charges
growing out of the failure of the
association. Miller is to be tried on
an indictment charging him with de-
stroying the books of the association
and also tried on a charge of embezz-
lement. He was convicted on the em-
bezzlement charge a year ago and sen-
tenced to serve twenty years in the
penitentiary. A new trial was later
granted on appeal to the District
Court of Appeals.

The Fuller's Teasle.

No machine has ever yet been in-
vented which can take the place of the
fuller's teasle. The little closely
massed flowers of this plant grow on
heads which are covered with stiff
hooked spines. These heads are great-
ly used in the manufacture of tweed
and other fabrics which require a
rough surface. They are set in large
rollers, which pass over the cloth, and
while the little hooks raise the nap,
they are too elastic to tear the mate-
rial. Other inventions have been tried
for this purpose, but none has proved
satisfactory.—Pearson's.

BRYAN AND PARKER
WILL BE SPEAKERS

(National News Association)
St. Paul, Minn., May 31.—Arrange-
ments are all completed for the big
Democratic conference here tomorrow
in which the party leaders of all the
Northwestern States will take part.
The conference will be followed by a
great banquet in the evening at which
William J. Bryan of Nebraska and
Alton B. Parker of New York are ex-
pected to be the chief speakers.

The Sea of Space.

The human mind cannot comprehend
what is meant by the four little words
in the expression "the sea of space."
If the volume of "space" included
within our solar system—which is per-
haps but a single train of planets
among hundreds of millions of a simi-
lar kind—were occupied by one single
globe 5,600,000,000 miles in diameter
it would be but a feather in the mar-
velous spread of "vacancy" surround-
ing it. In fact, it has been calculated
by scientists that in the space occu-
pied by our solar system something
like 2,700,000,000,000 globes the
size of our earth could revolve, each
one at a distance of 500,000 miles
from the other.—Exchange.

Most spiders have eight eyes, a few
species having but six.

"THIS DATE IN HISTORY"

MAY 31.

1600—Hudson in the "Half Moon" reached Faro Island on his western
voyage.

1740—Frederick William I of Prussia died. Born in 1688.

1819—Walt Whitman, famous poet, born near New York City. Died March
26, 1892.

1855—Charlotte Bronte, famous English novelist, died. Born April 21, 1816.

1862—Union troops forced to retreat in the battle of Fair Oaks, Va.

1880—The League of American Wheelmen was organized at Newport, R. I.

1889—Flood at Johnstown, Pa., caused by the breaking of a dam, resulted
in the loss of 2,295 lives.

1902—Peace of Pretoria, ending the Boer war.

1910—The royal proclamation of the union of South Africa was read at
Pretoria.

Establish
Prestige

A great many things we do simply because they are "the thing."
It's human nature to want to be "in right." You want to be "in
right;" I want to be "in right." Even as I pen this ad., I wonder if it
will make a hit with you. If I thought you wouldn't read it, I surely
wouldn't write it.

Well, it's the same way with shoes. The young men of this town
who are "in right" are wearing TEEPLE'S \$4.00 OXFORDS. They
know they are getting the best; they know they are setting the style.
This spring they are being fitted to Oxfords, Pumps and Low-Ties in
Gun Metal, Tan and Patent Leather.

They are only paying \$4.00 the pair.

Teeple Shoe Co.

OUR POOR LITTLE EARTH.

A Mere Speck Compared With Some
of the Monster Suns.

The main facts of astronomy are
highly interesting. It is only dry text
books that have made us turn away
from them. Read a good popular as-
tronomy and you will gain a dim, re-
mote idea of infinity and eternity.
Sometimes you think you see a big
star, but you do not. You merely see
the light from it which has been 2,500
years in reaching us.

Almost everybody knows that our
earth is a third rate planet in our
solar system. Jupiter would scarcely
condescend to notice us. But they do
not know that our sun itself sits be-
low the suit. It would not be admit-
ted to a congregation of important
heavenly bodies. Canopus, the larg-
est star that we see, is 10,000 times
the size of our sun, and our solar cen-
ter is hopelessly outclassed by Alde-
baran, Rigel, Sirius, Betelgeuse and
countless others.

Mark Twain put this fact very well
in one of his stories, "Captain Storm-
field's Visit to Heaven." When the
captain arrived and announced that he
was from the earth the recording an-
gels could not remember ever having
heard of such a place before. One
finally recalled that it was a poor lit-
tle planet belonging to a poor lit-
tle solar system away down in a dark cor-
ner of the heavens.—New York World.

The tallest and the shortest people
of Europe, the Norwegians and the
Lapps, live side by side.

ONE THOUSAND MORE
Is Added to the Earlham Debt
Fund.

EARLHAM DEBT FUND.
Previously acknowledged \$25,026
New pledges 1,282

Total today \$26,308

Another thousand was heaped on the
Earlham fund today and the total was
changed from \$25,026 to \$26,308. In
exact figures the increase was \$1,282.

There were twenty-four contributors
and the average contribution was \$53.
A Plainfield friend contributed \$500
and Carriage came to the front with a
pledge of \$250 from one man.

With Memorial Day out of the way,
the canvassers have settled down to
the hardest kind of work for this week
and next. There is a total of nearly
\$24,000 to be raised in exactly three
weeks. It was this understanding and
realization that Chairman Pearson de-
cided to keep his canvassers at work
in the first ten districts until every
man and woman had been seen who
might be induced to help Earlham.
The new territory into which canvass-
ers were sent the first of this week is
not, on the whole regarded as favor-
ably as the first ten districts. A great
deal of the new territory lies outside
the state lines in Ohio and Illinois.
The people in these communities are
farther from Earlham and may not
be as easily impressed with its needs.
Therefore Chairman Pearson and his
assistants are relying more and more
on the Indiana counties that have al-
ready been visited, and upon the coun-
ty of Wayne and the city of Richmond
which are yet to be the center of a
canvass.

The value of phonograph records
sent abroad during 1910 was \$2,709,959
more than double that of the previous
year.

A GOOD REASON

Richmond People Can Tell You Why
It Is So.

Doan's Kidney Pills cure the cause
of disease, and that is why the cures
are lasting. This remedy strengthens
and tones up the kidneys, helping
them to drive out of the body the
liquid poisons that cause backache,
headache and distressing kidney and
urinary complaints. Richmond people
testify to permanent cures.

Martin Bulach, tailor, 433 S. Elev-
enth St., Richmond, Ind., says: "In the
spring of 1902, I suffered from a weak
and lame back and other symptoms of
kidney trouble. Learning of Doan's
Kidney Pills, I procured a supply at
A. G. Luken & Co's Drug Store and
their use brought me prompt relief.
Since then I have had no further need
of a kidney remedy, as my cure has
been permanent. I gave a statement,
recommending Doan's Kidney Pills,
after I had used them with such good
results and I still hold a high opinion
of this remedy."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.

Remember the name—Doan's—and
take no other.
