## This Is My 43rd Birthday

HENRI BOURASSA.

Henri Bourassa, leader of the Que-  
bec Nationalists and one of the most  
notable figures in the ranks of those  
now fighting the return of the Laurier  
government in Canada, was born in  
Montreal, September 1, 1868, and was  
educated by private tutors in that  
city. In 1886 he removed to Montebel-  
lo and for several years was mayor of  
that place. He entered federal politics  
in 1896, in which year he was elected to  
the Dominion house of commons. Three  
years later he resigned his seat in  
order to vindicate his position on the  
constitutional aspect of the partici-  
pation of Canada in the South Afri-  
can War. He was re-elected by ac-  
clamation in 1900 and was again suc-  
cessful in the general election of 1904.  
As a member of parliament Mr. Bour-  
assa was regarded as brilliant and ef-  
fective. He at first supported but lat-  
terly criticised the Laurier govern-  
ment. Through his Montreal newspa-  
per, and in his speeches, he is advising  
the electors of Quebec to vote at the  
coming election against Laurier and  
the extension of the Canadian navy,  
contracts are about to be let.

## FOUGHT IN Y. M. C. A.

A Marine Slashed Ship Ma-  
chinist in Brooklyn.

(National News Association)  
NEW YORK, Sept. 1.—A fight in  
which Jas. Marlowe, a marine, of Lex-  
ington, Ky., severely cut George Gelts,  
a machinist of Ft. Wayne, Ind., both  
attached to the U. S. ship Hancock,  
threw the sailors at the naval branch  
of the Young Men's Christian Associa-  
tion in Brooklyn into an uproar.  
Although Marlowe is a stalwart six-  
footer his age was against him, and  
Gelts was besting him when he drew  
a pocket knife and slashed Gelts deep-  
ly in the body. The clerk of the insti-  
tution, Davis Kennard, leaped over his  
desk railing and separated the men.  
Marlowe was arrested and Gelts was  
taken to the hospital in the Brooklyn  
navy yard.

## A Better Time Coming

Indiana has no public utilities commission. We wish that it had.  
In no other way that we know of will there ever be any end to the con-  
flict between the people and the public service corporations.

Wisconsin is well established in the new way of doing business and  
favorable reports from both citizens and corporations are coming from  
there.

The people of Richmond will be full of appreciation for any fair and  
square solution of the public service corporation question.

Richmond has every reason to believe that if a fair and square solu-  
tion can be reached in the water works problem of this city that it will  
be a straightforward and honest plan.

It was Robert LaFollette who started out in his career with the aim  
of settling such problems right. And the Wisconsin commission and  
much of its work is the result of his labors.

Full publicity of corporation affairs is the main feature of the public  
utilities commission.

Indiana, as we have said, has no public utilities commission. But  
it has a law on its statute books which gives the council the right and  
power to investigate the companies and corporations with which it has  
contracted, is contracting with or is about to contract.

It is the nearest that it comes to having any means of finding out  
about the public service corporations.

In two cities of Indiana this law is being put to the test.  
Richmond and Indianapolis.

At least in the affairs of the two cities things can not be rightly ad-  
ministered until this law is put into use.

In Indianapolis a garbage contract calling for half a million dollars  
is being investigated by the council under this law. The next step is to  
bring out the books of the companies.

In Richmond the water works contract cannot go any further in an  
honest and efficient way unless this statute is used to bring out the  
books.

This is an age when it is becoming more and more true that "The  
Truth Shall Make You Free."

It is under the ignorance of conditions and possibilities that the peo-  
ple have handed over the taxing power to small sets of men—from the  
Richmond City Water Works to the American Woolen company.

In Indianapolis if the city council hauls out the books of the com-  
pany, it will set a precedent which will make it very hard for corpora-  
tions to get the better of the citizens from now on.

If the city council uses this power it will do the same thing in Rich-  
mond.

We haven't much doubt that the majority of the council in Rich-  
mond are willing and anxious to act as the representatives of the people.

They are, we hope and think, willing to do anything the law empow-  
ers them to do in behalf of the people that they represent.

There is a better time coming in which things will be done by actual  
and accurate knowledge and not by guess work.

## LOST MUCH AT POKER

Gambling Excesses of John  
Ott, Suicide, Blamed.

VALLEJO, Cal., Sept. 1.—Poker  
games conducted on board United  
States vessels, in which he frequently  
lost \$400 and \$500 in a single sitting,  
are said to be directly responsible for  
the suicide of John Ott, Pacific repre-  
sentative of the naval branch of the

International Correspondence schools.  
The name of the receiving ship in  
Independence has been brought fre-  
quently into discussion of Ott's af-  
fairs. It is said that Ott has lost  
heavily in games conducted aboard  
that ship and members of the officers  
set constantly referred to him as an  
"easy mark." As a result of the stor-  
ies that have been circulating here it  
is rumored that a rigid investigation  
of gambling aboard all the vessels sta-  
tioned here will be commenced im-  
mediately.

## CURE FOR SUMMER COMPLAINT

At no time of the year are the bowels put to a severer test than during the hot  
weather. Thousands become afflicted with "summer complaint," or running  
off of the bowels. The cause very often lies in the drinking of impure water,  
the eating of unripe fruit or tainted food. But  
whatever the cause it is useless to try to cure  
the trouble with an astringent remedy, an  
opiate, or salts and such things. The bowels  
need not only a thorough cleaning out, but the stomach needs strengthening and  
toning, so that they may have a new start. All this is best obtained by the use  
of Dr. Caldwell's Syrup Pepsin, which is a great stomach, liver and bowel cleanser.  
It will quickly stop the unnatural passages, which are so weakening and give  
rise to vertigo. Thousands of families are using it steadily and thereby avoid  
all digestive troubles summer and winter. Buy a 50 cent or \$1.00 bottle today  
of your druggist and you will be surprised at the quick and lasting effects. You  
will find it a mild, gentle laxative, agreeable to young and old. Those who have  
never tried it can obtain a SAMPLE FOR A TEST FREE OF CHARGE by

druff, itching scalp and all other germ  
causes the trouble.

Greasy salves will never do this.  
ZEMO and ZEMO SOAP kills the  
germ and are guaranteed to cure dan-

the druggist selling them to refund  
your money if you are not satisfied  
with the results from the very first

NEWS OF THE  
LABOR WORLD

There are fifteen trade unions in  
China.

There are now 106 unions in the He-  
brew trades of New York.

Within the last forty years the num-  
ber of women workers in France has  
almost doubled.

Organized railway men in Glasgow,

Scotland, and vicinity have gone on  
strike for shorter hours and higher  
wages.

An order of the secretary of the in-  
terior of Denmark prescribes sanitary  
and other conditions in bakeries and  
confectionaries.

land, Calif., among the laundry work-  
ers, owners and drivers.

Ninety-five per cent of the drug  
clerks at San Jose, Calif., are organ-  
ized with a prospect of a 100 per cent  
organization in the near future.

The unemployed ration of the Asso-  
ciation Blacksmiths and Iron Workers  
of Great Britain was recently less  
than three-quarters of one per cent.

The Kansas State Federation of La-  
bor has started a campaign for a law  
forbidding women in Kansas to work  
more than nine hours out of twenty-  
four.

The organized bakers of Minneapo-  
lis, Minn., have decided to establish a  
co-operative bakery in that city and  
the preliminary steps have already  
been taken.

After twenty years of service all  
postmasters and clerks in Germany re-  
ceive a pension from the government,  
and after forty years a full pension, in  
addition to the regular salary.

All available statistics of wages in-  
dicate that considerably more than  
one-half, probably two-thirds, of the  
adult male wage-earners in America  
receive less than \$700 annually.

For the fifth time in a year an ef-  
fort is being made to organize the  
freight handlers in Ontario, and es-  
pecially those in Toronto. There are about  
one thousand and two hundred in the To-  
ronto terminals.

The secretary-treasurer of the Inter-  
national Brotherhood of Locomotive  
Engineers and Firemen reports that  
the disbursements for sick and fune-  
ral benefits during the month of July  
amounted to \$77250.

More than two-fifths of the 1,000,000  
factory hands in Japan are women and  
children. 70,000 children under the age  
of fourteen are employed in mills. In  
the match and tobacco factories many  
children under ten years are employ-  
ed.

Negotiations between the officials of  
the Chesapeake and Ohio Railway  
company and the representatives of the  
various organizations employed in the  
shops on the system, looking to-  
ward an increase in pay have been

broken off. The company practically  
refused to make any advances and a  
strike vote has been ordered to be  
taken.

Another and the third national victory for FLANDERS "20"

within a month. This time a clean sweep in America's hill climbing  
classic. The THREE speed FLANDERS "20" won event in her class Satur-  
day at Worcester, Mass. climbing Dead Horse Hill in 1 minute 18.85  
seconds, breaking all previous records for her class by 46 seconds,  
and defeating second car in her class by 37 seconds. She also beat  
records made by the following high powered and higher priced cars in  
other classes. Velje Buick, Cole, Hudson, Firestone, Oakland, Cameron,  
Krit and Empire.

FLANDERS "20" was the lowest priced car in the contest. Dead  
Horse Hill is one mile long with a rise of over 400 feet to the mile.  
Newspaper accounts say course was slow because of bad surface and one  
very bad spot near finish line.

FLANDERS time better than time made in 1909 by any car less  
than three times her price. And faster than time made last year by  
any car but one of three times her size and price. She averaged a  
little over 46 miles an hour up to the eight per cent grade. Strictly  
stock chassis. Event run under A.A.A. rules and supervision. FLANDERS  
"20" was sensation of the sixty and seventy horse power cars barely  
beating her phenomenal performance.

Sending you photograph of WITT in victorious FLANDERS on  
the hill.

She has now only to win the three hundred mile Savanna Road  
Race to prove her invincibility in speed as she proved her reliability  
in the Little Gladden; her staying powers in Minneapolis, to Helena  
Montana reliability run, and her hill climbing qualities on Dead Horse  
Hill. Watch the little wonder at Savanna.
