IN UNDERCLOTHES ONLY HE ARRIVED

Tramp Causes a Sensation at Local Station— His Clothing Burned.

Averring that because he slept too near a camp fire along the C. & O. railroad tracks, south of the city, last evening, his clothes and shoes were burned, a tramp, who refused to give his name appeared at the south side C. & O. passenger station early this morning, wearing nothing but his undergarments. Quite a sensation was created by the tramp among the persons who were awaiting trains and the trainmen, in the station.

The tramp was nearly frozen and it was some time before he was sufficiently "thawed" to speak. He said that he with several other "bums" went to sleep along the railroad tracks and that they built several camp fires around them. When he woke up this morning the others had left and his clothes had burned. It was with extreme suffering that he managed to walk to the station, he declared.

Wanted No Medicine. Asked if he needed medical attention the man answered in the negative. saying that he would soon "thaw" out and if he could secure some clothes he would be all right.

The matter was reported to the police by the ticket agent and Patrol Driven Wenger went to the station with the ambulance. The tramp heard the telephone message and he pleaded with trainmen to give him some old clothes. After a search two pairs of old overalls, a heavy winter coat and a pair of shoes were found. The man hurriedly dressed and when the ambulance arrived at the station the "transient" was "beating" his way south on the railroad tracks.

Some persons at the station were inclined to disbelieve the man's story, they asserting that it was a scheme to obtain better clothes, but others declared that no sane person would attempt to disrobe in the open when the mercury stood at 23 below the zero mark and take the risk of securing better clothing.

Nothing concerning the profession seems more puzzling to the dear old hear remarks like, "Why, I saw her as Juliet forty years ago and she doesn't look a year older now!" Of course allowance is made for makeup, but when they see us off the stage at close range, they need another explanation.

How strange women generally haven't learned the secret of keeping the face young! How simple a matter to get an ounce of mercolized wax at the drug store, apply it like cold cream, and in the morning wash it off! We know how this gradually, imperceptibly absorbs old cuticle, keeping the complexion new and fresh, free from fine lines, sallowness or overredness. We know, too, that this mercolized wax is the reason actresses don't wear moth patches, liver spots, pimples and the like. Why don't our sisters on the other side of the footlights learn the reason, and profit by

BACK COVERED WITH MASS OF PIMPLES

Burned and Itched So He Could Hardly Stand It. Tried Medicines, Etc., Nearly 3 Years. In Eternal Misery. Started Using Cuticura Remedies. Now Has No Sign of Skin Disease.

"My troubles began along in the summer in the hottest weather and took the form of small eruptions and itching and a kind of smarting pain. It took me mostly all over my back and kept getting worse until finally my back was covered with a mass of pimples which would hurn and title which would burn and itch at night so that I could hardly stand it. This condition kept getting worse and worse until my back was a solid mass of big sores which would break open and run. My underclothing would be a clot of blood.

"I tried various blood medicines and other remedies and salves for nearly three years and I was not getting any benefit. It seemed I was in eternal misery and could not sleep on my back or lean back on a chair. I was finally given a set of the Cuticura Remedies by my brother who recommended them to me very highly. I started using the Cuticura Remedies and inside of two weeks I could see and feel a great relief. I kept on using Cuticura Soap, Ointment and also olvent, and in about three or four months' time my back was nearly cured and I felt like a new being. Now I am in good health and no sign of any skin diseases and I am fully satisfied that Cuticura Remedies are the best ever made for skin diseases. I will always recommend them to anybody who will use according to directions.

"Get inside the Order Brother; Let us take you by the hand. You will surely not regret it: We're the best in all the land."

Charles L. Shore, the hustling tobacco salesman of Council No. 4, Indianapolis, spent the entire week in Richmond working the trade and making friends, which is easy for Charley, whose hearty laugh and hand-clasp wins friendship wherever he goes.

"Three Sheets In the Wind." "What was the origin of the phrase for drunkenness, 'three sheets in the wind?" a landsman asked a sailor the other day. "Well," said the sailor, "I'll explain that matter to you. The two lower corners of a ship's sail are held taut by two ropes, one called a public than the perpetual youth of tack and another called a sheet. The our feminine members. How often we tack is always kept very tight, but the sheet is loosened according to the wind, and the looser the sheet is the more freely the sail swings. If the sail is quite free its sheet is said to be 'in the wind.' Now, suppose that all three of a ship's sails were quite free. They would then fly about very crazily, and the ship would wabble. The course of the ship would be a zigzag one, and the reason for this would be that she had 'three sheets in the wind.' That, I guess, is why a man when he zigzags in his course is said to be 'three sheets in the wind' also."

MAN'S WEAKNESS.

It is because men are prone to be partial toward those they love, unjust toward those they hate, servile toward those above them, arrogant to those below them and either harsh or overindulgent to those in poverty and distress that it is so difficult to find any one capable of exercising a sound judgment with respect to the qualities of others.-Confucius.
