CAMBRIDGE CITY, Ind., Jan. 21.—The Lackey Sales company, not having been able to make satisfactory arrangements at this place, have decided to hold their March sale at Indianapolis. FREIGHT STRIKES RIG

EATON, O., Jan. 21.—Had their jump from a vehicle been delayed a few seconds, Irvin C. Wyson and Charles S. Davis, both of this city, probably would have been killed in an accident which occurred Wednesday night when their outfit was struck by Pennsylvania freight No. 36 at a point where Public Lane crosses the railroad. The horse was killed and their wagon was almost demolished.

Good Health Is Impossible Without Good Blood

Scientists have revealed some amazing facts regarding the functions of the blood and its relation to health. To many, the blood is simply a necessary part of the body, which takes care of itself.

A microscopic examination of one drop of blood shows millions of minute bodies or corpuscles, each an individual life force. The life of a corpuscle is usually six weeks and must be replaced, science tells us, at the startling rate of 8,000,000 per second.

Good blood is the foundation of good health and can only be attained through a stomach in good condition.

The source of most ills is traceable directly to the stomach, which acts as a power plant, converting the food we eat into blood. Like all machinery the stomach occasionally fails in its duties and requires assistance to put it in proper condition.

Duffy's Pure Malt Whiskey

a product of nature, being made from clean wholesome grain thoroughly malted, is invaluable in assisting the stomach in its important duties, by stimulating the flow of gastric juices necessary for the proper digestion of food. If the stomach is kept in good condition, health invariably follows.

He's Mighty Man Fulfills Poet's Far famed Story

Is Very Glad to Answer, Once Again, Literary Description.

Martin Bomberger, blacksmith, of Fairview, Ave., Riverdale, fulfills the poet's description: "The smith, a mighty man was he." And he needs all the strength of his big thighs, for his work, day after day is a test of agility and supple muscles.

When a few years ago illness first made its appearance, his appetite failed and his stomach refused to supply the power needed for those great muscles, he felt the more serious effects quicker, perhaps, than would have a man less active.

But the first class artisan of today must have his strength at ready call and his head clear, or he will fall out of the industrial procession, in which only the "love ones" march.

Because Mr. Bomberger did, fortunately, quickly find the remedy, he feels, he declares, that he should add his voice to those who are daily telling the merits of Tanlac, the Master Medicine that rebuilds the system.

"The I could not account for it, my stomach became bad; I had no appetite and, at last, I felt completely run down," said Mr. Bomberger. "My work became a burden and I saw myself as I had seen so many other men who suffered, that I had never expected to join them. My troubles came gradually creeping on and on for three or four years but I was worse last summer than at any time. I had dizzy spells and drowsy feelings. The indigestion caused gas, bloating and belching after meals. I felt tired on arising in the morning."

"After a few doses of Tanlac my appetite became good, as I continued to take it the dizzy spells left me and finally I felt fresh and active in the morning and ready for business. Tanlac surely does what is claimed for it. Tanlac is being specially introduced in this city at the four Thistlethwaite drug stores.—Adv.

Indigestion May Be Due to Constipation

Neglect of Important Function May Seriously Impair the Health.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition.

Bloat, with its attendant mental depression, sick-headache, the belching of sour stomach gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however; and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. Benj. Bassin, 360 Madison St., Gary, Ind., thinks Dr. Caldwell's Syrup Pepsin a wonderful medicine; for four years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

BENJ. BASSIN
A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.
