GRAIN QUOTATIONS

E. W. WAGNER & CO.'S REVIEW
CHICAGO, Feb. 5.—Refusal of cash corn consumers to take hold, the absolute indifference of the grain world, and the attitude of the farmer in not selling had a large influence on the grain market today. Broomhall intimates that Europe may not require much of the United States new wheat crop, which is a serious blow to the bull side. Locals think farmers will have to sell. They say the farmer is one of corn and that longer he holds the worse his position. Many think the market should rally some time tomorrow. Cash corn 2 to 3 cents lower. The southwest food situation looks unsatisfactory. Corn trend seems to be affecting feeders.

Bolshevik Transport German Force in Ukraine

PARIS, Feb. 5.—Polish representatives here have received reports to the effect that a delegation sent by the military authorities of the German army occupying parts of Lithuania and Estonia to the Russian soviet government has signed an agreement by which the Bolsheviks undertake to transport German troops from Ukraine over the Briansk-Kovno railroad, which is under Bolshevik control.
A soldier's council, with Herr Werle, Spartacist leader, at its head, controls the tenth German army, which is occupying Grodno and Kovno, it is reported. It is said that the general staff officers of this army are all Bolsheviks. It is said that it was this army that compelled Polish contingents fighting against the Russian Bolsheviks to evacuate Vilna and to give up their arms.

INVESTIGATION OF BOLSHEVISM ORDERED IN U. S.

Senators Charge Radical Organizations Are Plotting to Overthrow Government.

WASHINGTON, Feb. 5.—Sweeping investigation of Bolshevism, I. W. W. and other propaganda was ordered unanimously today by the Senate after two hours of tempestuous discussion, in which several senators declared that organizations were plotting to overthrow the American government by violence.

The Senate judiciary subcommittee, which for more than a year has been investigating pro-German and brew-ers' propaganda, was authorized by the Senate resolution to conduct the new inquiry. The committee will begin work probably next Friday. Chairman Overman announced tonight, after an executive meeting of the committee to consider procedure. Senator Overman said the new investigation would cover a wide range and would continue indefinitely, probably even after Congress adjourns.

The resolution offered by Senator Walsh of Montana Democrat, and adopted without a roll call or dissenting voice, extended the committee's power "to inquire concerning any efforts being made to propagate in this country the principles of any party exercising or claiming to exercise authority in Russia, whether such efforts originate in this country or are incited or financed from abroad, and another to inquire into any effort to incite the overthrow of the government of this country or all government by force, or by the destruction of life or property, or the general cessation of industry."

Burley Tobacco Price Puts Zest in Sales

CINCINNATI, O., Feb. 5.—Monday's large offerings put considerable zest in the sales of burley tobacco at the Kenton Loose Leaf warehouse, Covington, and another good-sized market is anticipated. Receipts of new crop tobacco are coming in steadily from nearby counties, and the high prices prevailing now are encouraging growers to market their product as rapidly as possible. Warehouse officials confidently expect the market to retain its activity throughout the entire sales season.

HUNTINGTON, W. Va., Feb. 5.—New high averages for burley were established at the local breaks when 220,000 lbs. were disposed of at an average fraction over 50c a lb. The highest price for a single basket was also recorded when a Wayne county planter disposed of a basket which brought \$1 a lb.

AURORA, Ind., Feb. 5.—The Aurora loose leaf tobacco market sold 95,895 lbs. of tobacco at an average of \$32.04. Market advanced from \$2 to \$5 on the common grades and an advance as high as \$10 on bright tobaccos.

MAYSVILLE, Ky., Feb. 5.—The sales of loose leaf tobacco over the market Monday and Tuesday broke all records for high prices. A basket of tobacco raised by John Dorn, of Flemingsburg, sold at the Farmers' and Planters' warehouse, brought \$100 for one basket and a crop average of \$73 for several thousand lbs. Approximately over \$500,000 lbs. of tobacco was sold here today at an average of \$41. Two big block sales from the Home and the Farmers' warehouse were reported in Monday's sale, bringing up the amount of tobacco sold here to 1,150,000 pounds.

FLEMINGSBURG, Ky., Feb. 5.—The Burley warehouse sold about 110,000 pounds of tobacco at from \$12 to \$30 per 100, an average of \$46.70. Market strong. The growers had one of the best sales of the season, averaging over \$41.

Students Cast Votes for Prize Picture at Exhibit

Students of the Richmond high school will cast their votes in the art gallery as members of the Art association are doing for the selection of the picture to receive the Mary T. Foulke Purchase Fund Prize.
Both the Art association and the student body has until February 12 to vote.
There will be no chapel at the high school between now and February 12 to give the students a chance to vote, and for this reason the other method was chosen.

Trustee Edgerton Is Back at Office Again

CANADA MOVES TO SOLVE WORLD'S VAST FOOD PROBLEM

While Herbert Hoover, food administrator of the United States, proposes to solve the world's food situation by conservation, the Hon. J. A. Calder, Canadian government minister and father of the new land legislation of the Dominion, proposes to solve it by increased production. This is the fundamental difference between the food programs of the United States and Canada.
Mr. Calder proposes to force cultivation of every acre of unproductive land in the country. Canada's greatest asset is land and its greatest need is population. There are about 400,000,000 acres of uncultivated land in Canada, of which 250,000,000 acres are in the rich prairie provinces of Manitoba, Saskatchewan and Alberta, where more than 1,000,000 American farmers have settled in the past few years.
Canada's land problem is just now a world food problem. With all its land under tillage, Canada could supply the entire world with food. If the untilled land in the western

Earlham College Board Meeting This Week

A reception will be held at Earlham college Wednesday for the members of the college board who will be in the city to attend the annual board meeting on Friday and Saturday. Members of the college faculty and student body will be present at the reception. Several important questions concerning the operation of the school year of 1919 will be brought up at the board meeting at the two-day session, and Friday evening a banquet will be given for the faculty and board members.

How Many Women do you Know

Who can say they are perfectly well? "I am tired all the time," "I am so nervous it seems as though I should fly," "I can hardly drag around to day," and all such expressions are characteristic of women who have overtaxed their strength until headaches, backache, nervousness, dragging-down pains, irregularities and the blues, symptoms of a female weakness, have developed. Women who are in this condition may rely upon Lydia E. Pinkham's Vegetable Compound to restore them to health and strength.—Adv.

GRAIN DEALERS AGREE GUARANTEE SHOULD BE KEPT

Winchester Man Witness at Hearing Before House Committee—Urges Rights.

WASHINGTON, Feb. 5.—Grain dealers, exporters and millers today presented to the house agriculture committee varied suggestions for methods of carrying out the government guarantee to producers of \$2.25 a bushel for the 1919 wheat crop. All agreed that the true market price, as determined by world conditions, would drop below the guaranteed rate, and that the government should make good the difference directly rather than by maintaining artificially the higher price.

The witnesses also agreed that the existing United States Grain Corporation, or some similar body, should be maintained as a buffer against the market, and that the consumer is entitled to have cheaper bread and that the farmer must receive the high price for his 1919 wheat crop that was guaranteed by the government.

To give the farmer his price, which everybody agrees must be done, and at the same time give the people cheaper flour and cheaper bread, means that the government must assume a considerable loss—the difference between the price guaranteed to the farmer and the world market level which is now assumed to be in the neighborhood of \$1.35 a bushel.

Propose National Memorial for Founder of Red Cross

(By Associated Press)
PHILADELPHIA, Pa., Feb. 5.—A national memorial for Clara Barton, founder of the American Red Cross, is proposed.
