

DISCUSS DUNE PARK IN CHICAGO

Question of Moment To Lake Co. Gets Atten- tion In Chicago.

CHICAGO, June 10.—The question of converting the Indiana dunes into a national park is receiving considerable attention in Chicago. A luncheon was held yesterday at the Chicago Club for the purpose of discussing preliminary steps toward asking the congress to take steps in that direction. The guests from Indiana were W. A. Guthrie, chairman of the state conservation commission, and Richard Lieber, director of that organization. Mr. Lieber presented the ideas of Indiana.

"The department of conservation," said Mr. Lieber, "which combines the divisions of geology, entomology, forestry, lands and waters, fish and game, will gladly exert unending efforts to help in conservation of the remarkable and unique spot in Indiana known as the dunes. In Porter county, where Indiana touches the Great Lakes system, which is one of the world's phenomena, sixteen miles of dunes, extending from the great metropolitan of the middle west, traverse this place without spoiling its beauty. Men more qualified than I have spoken of the dunes as a storehouse of nature's wonders. As it ranks with any of the natural parks it should be preserved as one."

The United States government may not be ready to initiate the making of another national park, but it is, as I understand it, gladly willing to leave the initiative to those most extensively concerned. Able men of Chicago are being asked to assist in this initiative. It has been said that geographically speaking, Chicago is most deeply interested in the confirmation of the Indiana dunes into a national park. Of course, that is so. The second largest city in the country needs such a breathing spot and a more wonderful one could not be found the country over, but at that I am not even setting up the claims of Gary for a like need. But I do claim that an awakened state pride will not permit our neighboring state, with its great city, to claim the exclusive honor of having saved the dunes."

A number of speeches were made by prominent Chicago men. It is expected that in a short time the movement for a national park will take form.

TELEGRAPHERS QUIT WORK

(Continued from page one)

company, union officials state, also will be effected.

President Koenekamp issued a statement at 8 o'clock today in which he declared the full effect of the strike probably will not be known for a few days. TO INCREASE IN FORCE.

The strike will increase in force throughout the day, he said. "The telegraph workers have been forced to make a test of strength because no other avenue of adjustment is open to them. It is only when the strength lies on the side of the workers that arbitration is pointed to as the way out. We are confident the result will be in our favor."

Koenekamp said it was impossible for him to estimate now the number of men out but discredited reports that the Western Union is running one hundred per cent.

ADOPT PEACEFUL PICKETING.

Union members in Chicago, it has been decided, will adopt a plan of peaceful picketing.

Although no strike of railroad telegraphers has been called, it is understood that officials of the railroad telegraphers' union have instructed their men to refuse to handle commercial messages.

The walkout this morning is regarded by union officials as a test of strength. If sufficient operators join in the strike to seriously cripple the telegraph companies, the operators believe it will demonstrate the power of their organization and ultimately force recognition of their union, which is the principal issue of the controversy.

TELE OPERATORS NOT OUT.

For the present, press association and broker operators are not involved in the strike although President Koenekamp has intimated that broker men may be called out later. The International News Service and United Press Associations, it is stated, are operating under contract with their operators and hence are not affected.

COMPLETE REJOINDER BY FRIDAY

Big Four Complete Reply To German Counter Proposals Today

JOHN EDWIN NEVIN
(STAFF CORRESPONDENT I. N. SERVICE)
PARIS, June 11.—The complete rejoinder of the allies to the German counter proposals will be handed to the German peace delegation, head of the German peace delegation, on Friday.

The Big Four this morning practically completed the economic conditions and made material progress toward completing the clauses relating to the League of Nations and the left bank of the Rhine. It is planned to allow the German delegation to proceed to Wainar and present the amended treaty for consideration by the German National assembly. Germany will then be required to signify within a week whether she accepts or rejects the treaty.

Clemenceau and Lloyd-George are accepting President Wilson's suggestions in dealing with the German counter claims.

The president has sharply rebuked the adamant attitude of both, declaring: "Unless there is the speediest action immediately, it is useless to continue. Bolshevism will triumph over law and order."

His declaration was followed by immediate concessions, making possible an early agreement.

Peels Off Corns Between Toes

The Great Corn Loosener of the Age. Never Fails. Painless.

A corn mashed, squeezed and crushed, all day long, in between two toes! You can try the desperate, "treat 'em rough" way and try to dig it out and fail. Or,

"Two Drops of 'Gels-It'—That's All!"

You can try the sensible, peaceful, painless, easy way and use "Gels-It." It's easy for "Gels-It" to remove corns in a few minutes. It's a liquid—a wonderful, painless formula—it has never been successfully imitated. It settles on the corn, and drives immediately. Instead of digging out the corn, you peel it out painlessly. There's no "Gels-It" that doesn't stay "Gels-It." It's a sure, safe, reliable, never-fail, "Gels-It" the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. "Gels-It" is sold by E. Lawrence & Co., Chicago, Ill. Sold in Hammond and recommended as the world's best corn remedy by J. W. Wells and Harry's Drug Store.—Adv.

Boy Scout Column

DOINGS AT OK-SHEE-LA.

Yesterday was a big day at Camp Ok-shee-la. The Hellograph was kept busy sending flashes of light to attract passersby and occasionally Scout would flash a message to show how it worked. The Hellograph is a wonderful signaling instrument that will send a beam of sun light in a straight line for twenty to thirty miles. By means of a shutter short and long flashes may be sent and messages conveyed.

St. Casimir's troop sent six uniformed Scouts to assist in the window demonstrations which were put on at the Lion Store, Hammond Hat Shop and Kamradt Furniture store on State street.

In the evening the Scout Band gave a concert and then the Scouts presented a play. After this Messrs. Batony and Finn assisted the executive in a very interesting relay work. The large crowd howled with delight to see Elton Stinson and others juggle a nine pound brick. The hat relay was interesting and required quick thinking.

Scoutmaster Malin introduced a medicine ball which was vigorously used though the weather was warm. Counting Coach and Simpkins were interested spectators.

Charles Howard spent some time telephoning for 10 feet of "skirmish" line and called on Scoutmaster Cooper at the Model in search of a place. Charles is a wise man. Scout Charles Levin made a flying trip to Postville for a four cornered triangle. He is a bright lad and a member of the I. O. O. F. High school. His chief aim is to get a pair of leggings that will meet around his chubby legs.

After "taps" Scout Nagelmann tried to have several sacks of popcorn delivered at his tent, but part of the load was intercepted and the purveyor put to flight. However, ice cream cones were later served as a solace. Sam is still looking for a pound of steak that he lost at breakfast.

The executive wishes to acknowledge with thanks a generous plate of hot, home-made biscuits, which Mrs. Schobbe kindly sent in for breakfast. Not content with this donation she later sent a most excellent cake. Scouts should visit the Schobbe studio and see sample of the new Scout photo. The folder has our monogram in gold and there is a special background for Scouts.

Tonight the drummers will entertain and Scouts from the several troops meeting on Wednesday will be present.

Tomorrow the teachers of the Central school will be the guests of the executive at a social luncheon.

PICKFORD FILM BY OWN COMPANY

"Daddy Long Legs" in which Mary Pickford has the most appealing role of her career, and which will be presented at the Deluxé theater today, tomorrow, Friday and Saturday, is one of the most celebrated stories of the past decade. It first appeared in the Ladies' Home Journal, where it was hailed as the most humanly interesting serial in the history of that publication.

It soon followed in book form, and was read in every city of the English speaking world. One million copies were sold, so that Jean Webster, a young woman not long out of college, made a fortune from this single work. Of course the stage claimed it, and under Klax and Erlanger management it "cleaned up," making hundreds of thousands of dollars for the producers.

The part of Lady Abbott, the orphan girl, is one exactly suited to Mary Pickford. For a long time Mrs. Pickford has been anticipating the part, for it was inevitable that she should play it once the theatrical producers were willing to turn over film rights. These Miss Pickford purchased recently for \$40,000.

Other acts are Depper & Stoddard, club jugglers; Holman & Perry, a comedy musical novelty; Gruney & Young, singing, talking and dancing; and the Fondelli Trio, a European novelty. In addition to these fine good vaudeville acts there is another episode of Ruth Roland's thrilling serial, "The Tiger's Trail."
