It's Easy

to see some of the reasons why the ladies should come here for their shoes—some of the reasons show from the outside. Look at our window display and then step inside. — You'll be glad you did, for other reasons are revealed when you try on a pair. But the real economy is in the durability—shows up after you have worn them months and months. There are other shoes that look almost as good, but they're not quite as comfortable, nor as stylish, unless they cost you more.
