"It was three years ago last spring that my health failed me," says Mrs Arthur 'Conklin, of 'No. 5 Coldwater street, Battle Creek, Mich. "I suffered from leucorrhoza and other troubles that, I presume, were caused by the weakness it produced. I had sinking spells, nervous headaches, was weak and exhausted all the time and looked like a walking skeleton.

"My back and limbs would ache almost continually and there were days when I was absolutely helpless from sick headache. I tried one doctor after another but cannot say that they helped me at all. My liver was sleggish and I was troubled some with constipation.

"One day a physician who has now retired from practice met my husband on the street and inquired about my health. He advised my husband to get some of Dr. Williams' Pink Pills for me, said they were a good medicine, better for my trouble than he could put up. I tried them, improved steadily and soon was entirely cured. As soon as the leucorrhoca was cured the headaches and other pains stopped. I am entirely well now but intend to continue to use Dr. Williams' Pink Pills as a spring tonic."

# WOMEN WHO SUFFER FOR NORTH POLE

AIRSHIP PLAN OF WALTER WELL MAN AND SANTOS DUMONT.

## ALL MODERN APPLIANCES

Chicago Record-Herald Correspondent Has Orders to Go Ahead With the Scheme—To Start Next Summer From Spitzbergen.

Chicago-"Build an airship, go find

the north pole and report by wireless telegraphy and submarine cables the progress of your efforts."

This was the startling assignment given a few days ago to Walter Wellman, the Washington correspondent of the Chicago Record-Herald, by Frank B. Noyes, editor-in-chief of the paper, and the commission has been accepted

man, the Washington correspondent of the Chicago Record-Herald, by Frank B. Noyes, editor-in-chief of the paper, and the commission has been accepted by Mr. Wellman. As an assistant on this daring expedition Mr. Wellman will have the services of Alberto Santos-Dumont of Paris, who will have charge of the construction of the air-ship and will act as aeronautic director and pilot for the ship on its voyage toward the north pole.

The airship, the order for which has been given, will be built by Louis Godard of Paris under the supervision of M. Santos-Dumont, and will be completed by the end of next April. No definite date has been decided upon when the explorers will start on their journey, but it is expected that everything will be in readiness to get away next July or-early August. After completion the airship will have several trials in or about Paris, and in June all the paraphernalia will be assembled in Spitzbergen, where the explorers will swait a favorable opportunity for the dash for the pole, which, according to Mr. Wellman, should the expedition meet with a good run of luck, should be reached in less than a week.

In announcing his acceptance tonight of the proposed expedition, Mr. Wellman said:

"If I did-not believe that the chances of success were greater than those of failure, I would not accept the commission. Mr. Noyes acted on no sudden whom or impulse when he gave me the order to try and locate the much-sought north pole, as he had before him a report submitted to him as to the outcome of two visits to the inner polar regions.

"The problem of reaching the pole by means of an airship does not require high-speed, and the present state of the art of aerial paying the propers and the paying how and the present state of the art of aerial paying the present state of the art of aerial paying the present state.

the outcome of two visits to the inner polar regions.

"The problem of reaching the pole by means of an airship does not require high speed, and the present state of the art of aerial navigation by gas—buoyed and motor-driven ships—is ample for that purpose. From an easily reached base of operations in northern Spitzbergen we have but 550 geographical miles to go to the pole and a like distance for the return voyage. It we take the whole at 1,200 miles it means but 100 hours of motoring at twelve miles an hour. Santos-Dumont has frequently made from nineteen to twenty-three miles an hour with small airships equipped with relatively small motors.

"The airship in which we propose to attain the northpole will be the largest practicable airship ever built.

"It will carry 5,500 pounds of gasoline and its distance capacity during calm weather will be eighteen miles more than equal to the distance from Spitzenbergen straight across the pole and the whole Arctic ocean to Alaska. As our airship will be constructed it will be able to make headway against two-thirds of all the winds that blow, even though squarely adverse, and it is part of our project to motor only with favorable winds and to anchor our ship will be to, and "lie to' in all unfavorable winds of velocity exceeding one-half the normal speed of our craft. The ship will be equipped for safe anchorage in the highest winds ever known in the Arctic regions. In fact, the ship will be subject to the will and hand of the navigator, just like a steamship upon the ocean.

"Besides the 5,500 pounds of fuel mentioned, the ship will carry also five men, a comfortable car to live in, (which is also a boat in case of need), food and supplies for seventy-five days, sledges to draw them over the ice, and, in fact, a completely organized and equipped sledging party, ready at any moment, should it be necessary, to abandon the airship and take to the lee.

"Wireless telegraph stations will be established at Spitzbergen and at Haan-

ice.

"Wireless telegraph stations will be established at Spitzbergen and at Hammerfest, Norway, 600 miles distant. Further than this, a wireless equipment will be carried in our airship, and it will be our effort to send daily dispatches to the outside world throughout all the time the expedition is in the Arctic regions, even from the pole it. Printers Strike !s Begun.

New York.—Twelve hundred union printers, the employes of forty-four book and job printing concerns in New York city, went on strike Tuesday and began the struggle for the eight-hour day which had been declared to go into effect that day. Members of the local Typothetae, against whom the strike was declared, asserted that hundreds of non-union printers from various parts of the country are hurrying to New York to take the places of the strikers and to secure the high wages paid in this city. Representatives of the Typographical union say that the eight-hour day principle has already been won in New York and that the percentage of men compelled to strike is very small.

## Scott Murderers Arrested.

Colorado Springs, Colo.—The murderers of Frank L. Scott are under arrest and have confessed. Charles Essick, aged eighteen years, of 313 South Wahsatch avenue, fired the shot that killed Mr. Scott on the night of December 20th. His partner in the crine was Leslie Francisco, aged twenty years. Both are in the county jail. In their confessions the young men state that they did not intend to murder Scott. They started out to hold up someone. After ordering Mr. Scott to halt, Essick, in his excitement, involuntarily pulled the trigger. The crime was committed on Wednesday night, December 20th, in front of the residence of Frank N. Strong, 420 East Pike's Peak avenue.

## SUNDAY CLOSING LAW

HOW GOV. FOLK ENFORCED IT

Salooon Keepers of St. Louis, Kansas City and St. Joseph Who Resisted the Law Lost Their Licenses.

the Law Lost Their Licenses.

Governor Folk set about to enforce the Sunday-closing law, which has been on the Missourl statutes forty years unamended. He has control of the police boards in three first-class cities in Missourl—Kansas City, St. Joseph and St. Louis—and also the control of the excise commissioners there who have absolute power to revoke a saloon man's license at will. The Supreme Court has decided that the Sunday-closing law is inoperative against every business except the saloon, and the saloon men could not compel other stores and shops to close because the saloons were shut up. That weapon was denied them. And when the order came to close at midnight Saturday, they closed.

The first Sunday a throng of drunken men and women crowded the St. Louis

The first Sunday a throng of drunken men and women crowded the St. Louis bridge coming and going to Illinois, where liquor could be bought. The second Sunday the saloons closed. Then, after the custom in such cases, a few of them opened their back doors. Their licenses were promptly revoked by the excise commissioner. The throng on the St. Louis bridge was not so large licenses were promptly revoked by the excise commissioner. The throng on the St. Louis bridge was not so large that Sunday. The third Sunday—which is the Sunday when Sunday-closing spasms generally cease, a few more back doors opened, and Monday morning the keepers of those places lost their licenses. There were a few convictions also in court for violation of the law. The crowd on the bridge was gone. The people were getting used to the law. And from that time on St. Louis, Kansas City and St. Joseph salcons have been closed on Sunday and the excise law has been observed as well as the law against larceny or against murder. And the German-American population of St. Louis—which is supposed to be particularly obstinate in its demand for beer, law or no law, is larger in St. Louis than in any American city of its size. The German-Americans are there obeying and upholding the law. The story that they are law-breakers is a saloon-keeper's scarecrow to frighten weak-kneed politicians. Outside of St. Louis, in St. Louis county, where the amusement parks are located, the governor's display of policemen at the Delmar race-track put the fear of the law into the saloon-keepers and restaurant men so completely that the law is observed there strictly. The hotel bars and all drinking places are closed on Sunday in the first-class cities of Missouri for the state. And to-day Missouri is probably the only state in the Union without a dead-letter law on its statute books—William Allen White, in McClure's Magazine. Magazine.

Booker T. Washington his an article in the American Illustrated Magazine for January, entitled "The Negro in Business." He tells of the really remarkable success of a particular negro, Groves by name, and then tells what Groves says about it. Mr. Washington says:

But why is Mr. Groves called "The Negro Potato King?" Let me answer. Last year he produced upon his farm 72,150 bushels of white pontatoes, averaging 245 bushels to the acre. So far as reports show, this was 12,150 bushels nore than any other individual grower in the world produced. And besides the potatoes raised on his own farm, Mr. Groves buys and ships potatoes on a large scale. Last year he bought from white growers in the Kaw Valley, and shipped away twenty-two cars of white potatoes. He also bought fourteen cars of fancy seed potatoes in North and South Dakota, which he sold to growers in the Kaw Valley, and in Oklahoma and the Indian Territory. Vegetable Compound is a positive cure for all those painful ailments of women. It will entirely cure the worst forms of Female Complaints. Inflammation and Ulceration, Falling and Displacements and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. It will surely cure.

Backache. It has cured more cases of Female Weakness than any other remedy the world has ever known. It is almost in-fallible in such cases. It dissolves and expels Tumors in an early stage of development. That

Bearing-down Feeling, causing pain, weight and headache, is instantly relieved and permanently cured by its use. Under all circum-stances it acts in harmony with the female system. It corrects

Irregularity,
Suppressed or Painful Periods, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility. Also

Dizziness, Faintness, Extreme Lassitude. "don't-care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the organs. For

Kidney Complaints and Backache of either sex the Vegeta-ble Compound is unequalled. You can write Mrs. Pinkham about yourself in strictest confidence. LYDIA E. PINKHAM MED. CO., Lynn, Mass.

The more we know of our ills, the easier and sooner relief will come. Pains and aches of the flesh, joints and muscles are
