and Oxfords at Reduced Prices

Vicious Criminals.

The following interview of Warden Gilvan, of the Missouri penitentiary, in the Jefferson City Tribune, does not indicate that the world is getting better very fast:
"The institution is rapidly filling up with the most dangerous class of criminals. There are more of these men there now than ever before. Robberies have become so common over the State that the penitentiary is receiving the worst class of inmates in its history. Hold-up men, footpads, high-class burglars, pick-pockets and thieves in general are crowding the criminal court dockets of the State and being sent to the penitentiary in great numbers. Many of these felons are desperate men, something that the prison officers have had forcefully impressed upon them here of late through bold attempts to escape from the prison. Discipline will have to be tightened up in dealing with these men or there will be killings to relate."

NO EFFORTS BEING MADE TO REPUDIATE WAR DEBTS TO U. S.

Both British and French Sources of Information Deny Rumors.

London, June 25.—"Great Britain has not the slightest intention of repudiating any war debts. In fact, she is now preparing to repay what she owes the United States."
Thus Lloyd George, British prime minister, gave the lie to widespread rumors in the United States reporting Britain's stand to the contrary.
"Great Britain is prepared to pay America and will do so," he said. "We never expected any help from that quarter, other than the suspension of the interest charges on British debts, which the United States already has granted. I have never even heard repudiation discussed."

Paris, June 25.—France has not decided upon any move to suggest repudiation of war debts.
This was ascertained through a careful canvass of the members of the members of the parliamentary finance commission.
However, several of the commissioners seemed of the opinion that England is expected to make such a suggestion, although nothing has been actually settled.

Should England make the first move France naturally would follow, and the result would be an indefinite suspension of payment on all inter-allied war loans. In such an event, the United States, being the only creditor, would be the only sufferer.

Corbin-Bush.

Ivan Corbin and Miss Merle C. Bush were united in marriage at William Woods College, Wednesday morning, June 16, in the presence of a few intimate friends, Rev. E. F. Abbott, officiating.
Mr. Corbin is a son of Mr. and Mrs. G. A. Corbin, of this pack, and he is at present cashier of the Sprague Bank at Sprague, Mo. The bride is a daughter of Mrs. Sam Bush of Calloway county, a graduate of William Woods College and the Missouri University and is a very accomplished young lady.
The happy couple left that morning for St. Louis and will make a brief bridal tour before returning to Sprague to make their home. We wish to join with their many friends in wishing them success and happiness in their married life.—Hume Telephone.

A movement is under way to hold an old-fashioned county fair at Clinton this fall.

Another Old Border Settler Gone.

Mrs. Mary Ann Morrell died at her home east of Hume, Friday, June 18, 1920, at the age of 78 years. Funeral services were held at the home, Monday afternoon, conducted by Rev. J. R. Scott, burial was made in the Hume Cemetery.

Mary Ann Lawrence was born in Welney Norfolk, England, June 14, 1842, coming with her parents to America in 1852 and settling at Schoolcraft, Michigan. She was married to Jacob P. Whalen in 1867, two children were born to this union, William and John Whalen. William died in infancy and John survives her. Her husband, Jacob Whalen died August 18, 1863. She then moved to Barnesville, where she met and married J. Monroe Morrell in 1868. To this union five children were born, two of which, Mrs. J. R. Daugh, Birch Tree, Mo., and Mrs. J. R. Hutchinson, Hume, with 16 grand children and 6 great grandchildren, survive her. Mr. Morrell died December 15, 1915.

She was a kind and loving mother and will be sadly missed by her children and all who knew her.—Hume Telephone.

Suff Drive on Tennessee.

Washington, June 25.—A delegation of suffragists, headed by Miss Sue White of Nashville, left here for Tennessee today to work for ratification of the federal suffrage amendment by a special session of the Tennessee legislature.

Governor Roberts, at the request of President Wilson, has said he will call this session. Democrats now at San Francisco will be asked to bring pressure upon Tennessee Democrats in behalf of suffrage, according to the National Woman's party here.

New York, June 25.—An energetic campaign to obtain the ratification of the suffrage amendment, through the Tennessee legislature has been planned by the American Woman Suffrage Association, it was announced by officials at national headquarters here. Although no poll has been taken on the legislature's attitude, women suffragists here were confident of ratification.

Tennessee legislature has ninety-seven Democrats to thirty-five Republicans in the two houses, twenty-six Democrats to seven Republican Senators, and seventy-one Democratic representatives to twenty-eight Republicans.

Benedict Crowell, assistant secretary of war, has resigned, Secretary Baker announced Friday. His resignation is effective July 1. Mr. Crowell plans to enter private business.

No Price Cut This Year.

Washington, June 26.—There is little prospect of a decline in food and clothing prices this year and increased exports may actually cause an advance, Royal Meeker, commissioner of labor statistics, said today.

"There can be no decline in prices until there is a decrease of currency in circulation or an increase in the goods exchanged for currency," Meeker said.

Currency is being deflated slowly with the paying off of debts, but this can scarcely affect prices this year, according to Meeker. There is also no possibility of an increase in quantities of vital necessities of life being produced this season, and generally prospects are that food and cotton crops will be below normal.

"Inasmuch as the food budget constitutes about 40 per cent of the entire budget of the average family," Meeker added, "there can scarcely be an appreciable lowering in the level of prices until the cost of food comes down."

"At present there is no prospect of a decline in the price of clothing, nor can there be any until there is a considerable increase in the cotton and wool crops."

Premier Giolitti, of Italy, has announced the promulgation of a decree to confiscate all fortunes created by the war.

NO UNION LABOR FOR FOSTER

Kansas Organizers Run Out of Town When They Attempt to Organize the Coal Miners.

In the west part of the county, in the neighborhood of Foster, there are several coal mines and recently a citizen of that town, doubtless having visions of a soft union job in mind, concluded that the miners working in that territory should be organized into a union. He sent to Pittsburg, Kansas, headquarters of Alexander Howat, head of the Kansas miners' union, and two organizers came to Foster last week to get the union to going. A meeting was called at which the gentlemen from Kansas made speeches telling the miners what wonderful things the union would do for them. All went well until one of them in the course of his remarks, it is said, told if the wife or member of the family of a union man should die the union would at once pay the bereaved \$500. A man in the back of the room got up and told the organizer that he was all kinds of

liar. That he had recently come from Pittsburg, where he was a member of the union and that his wife had died while he lived there and while he was a member of the union, but that he had never seen anything of the \$500. He also added a few remarks not very complimentary about the union and its officers. A row was started and the Kansans deeming discretion the better part of valor jumped into their car and made a hurried get away. By that time the men were mad all through for being so gullible and started a hunt for the man who thought a miners union would be a good thing, but he, too, had pressing business elsewhere and was not to be found.
Foster is still getting along without a coal miners union.

Recent statistics published in Germany on that country's war losses state that 1,350,000 men were killed. There are 520,000 war widows, according to the statistics, 1,130,000 war orphans and 500,000 maimed or consumptives supported mostly by charity.
