A Growth Worth While.

In the development of the northwest during the past two or three years nothing has been so significant as the growth of manufacturing.

There is scarce a town in the entire northwest which within two years has not established a creamery, a brick yard, a woolen mill, a flax fibre mill, a tile factory or some similar enterprise. Almost every town and village has made its beginning in a small way in manufacturing. The sum total of all these small enterprises amounts to a very great deal and gives the northwest a very satisfactory start in manufacturing.

There is every reason to believe that the northwest will at no very distant day become one of the chief manufacturing districts of the new world. No other section of the country is more favorably situated or better supplied with transportation facilities while the raw material for scores of manufacturing enterprises is here to be found in almost unlimited quantities.

The growth of the past few years in manufacturing has been well worth while and we are confident that it is but an earnest of a magnificent development.

THERE has not been a national campaign for years without the profuse discussion of the "doubtful states." There is a popular idea that if candidates are not nominated from the doubtful states there is danger of failure.

dates which have made the best run have been those who have been nominated because of their special fitness without regard to the state from which they hailed. Bryan, the man, came nearer to being elected in 1896 than could have any man from one of the big doubtful states. The truth is that a strong outsider will get more votes in a doubtful state than a mediocre favorite son.

THE Duluth News Tribune wants Charlie Towne to run for president on the democratic ticket. Hasn't the party got a real democrat?

BITS FROM THE NORTH COUNTRY

'Nother bank for Borup.

Warroad hollers for a telephone.

The Mizpah farmer grows more numerous.

Great are the gardens of the Big Fork country.

'Twould take a day to name the base ball leagues of the north country.

Mentor makes up its mind to have a grist mill.

North country newspapers have all done honor to Chief Bemidji.

Would that the grand jury came but once a year in Cass county.

Bagley will have harmony if a band can do it.

The Mentor Herald pays the deserved tribute due from the north country to the patient ox.

The Hubbard County Clipper is just out with the Hubbard county financial statement. What's in a name?

A. M. Greeley hopes that "Bob Dunn brought some of that water from the Hot Springs—to keep his opponents in."

All kinds of railroads are pointing to the Roseau country, but the people up that way have determined to quit weariy for them and the Rainy River Region declares that all they want now is to cut out a path to Red Lake so that they may chase their ducks down there to drink.

Tips of the Tongue

George Ralph, Crookston: "I think the state ditch for Beltrami county will be located somewhere in the vicinity of Kelliher. People up that way are very anxious to have it put in there and there is a lot of state land in that vicinity that would be benefited."

Chas. Hayden: "Am just starting out on my duties as supervisor of assessments. They are not, however, county politics. I will be long enough as it is and there is no need of worrying about these things until it is necessary."

Henry Funkley, Blackduck: "I shall be a candidate for county attorney. I have assurances of support from my friends in various sections of the county sufficient, I believe, in warranting my candidacy and shall make a fair fight for the Republican nomination."

A Whole Family.

Rev. L. A. Dunlop, of Mount Vernon, Mo., says: "My children were afflicted with a cough resulting from measles, my wife with a cough that had prevented her sleeping more or less for five years, and your White Wine of Tar Syrup has cured them all."

J. A. McConkey.
