OLD-TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost everyone knows the value of such a combination for keeping the hair a good even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a Hair Tonic of this kind was to make it in the home, which was troublesome and not always satisfactory. Nowadays, almost an up-to-date druggist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

Royalty on the Maps.

Now that the Princess Patricia has given her name to the new district of Ontario, it may be said that the members of the sovereign families of Britain during the last three centuries figure handsomely in the gazetteers of the world.

Maryland was named in honor of Henrietta Maria, whose husband granted it to George Calvert, first Lord Baltimore, and his heirs forever. The Carolinas are named after Charles II. While Georgia was named in honor of

George II, in whose reign it was colonized. An island was named after Princess Patricia's great-grandmother, the good Queen Charlotte, while even the memory of that rather colorless lady, the wife of William IV, is immortalized in the capital of South Australia.

To come down to our own day and generation, it is hardly necessary to recall that the grandparents of Princess Patricia, Queen Victoria and Prince Albert, are lavishly commemorated on the maps, or that her uncle,

the late King Edward, is commemorated, among other parts of the world, in Antarctic lands. Probably no non-royal personage recently living is so well assured of this form of immortality as the late Cecil Rhodes.
