For Men Behind the Pen

You signers of checks, writers of letters, keepers of books and makers of records—here is a new ink—in fact, two inks in one. We were one of the first to add to our stock the newest member of the Carter's Ink family.

We feel sure there's a call among our friends for an ink usable in either fountain pen or inkwell. A wonderful new flow-controller is part of the equipment of quills, pens and ball-pens of Penicraft. A slight pressure of the finger controls the flow.

Come in and let us fill you up with this new ink, and show you the flow-controller.
