A brief description of the school and its work will be given, and the girls will show how the blind read and write. The program should prove instructive as well as entertaining.

The greatest photo-dramatic production ever seen on the screen will be the attraction at the Grand theater on Friday when Geraldine Farrar, the celebrated operatic prima donna, will appear in a film version of her famous opera, "Carmen," produced by the Jesse L. Lasky company. In "Carmen" Miss Farrar is seen as the half-wild, fascinating gypsy who is the head of a band of smugglers. How she leads one man to death and another to ruin and is herself stabbed by a jealous lover are but incidents in this thrilling five-reel picture. The bull fight scenes were specially staged by a company of toradors brought from Spain and with bulls brought from Mexico. Over 20,000 persons took part in the scenes at the arena. The cast to support Miss Farrar was selected from the most prominent and capable artists in the country. "Carmen" is considered the last word in photo-dramatic development.
