## Shake Off That Grip

When Spring comes, with its changeable weather and your exposure, it is best to clear away all the symptoms left after an attack of grip. That evil disease leaves you weakened, and when its victim attempts to "do his bit" he exposes himself to the risk of a second attack, for which he is less prepared, and which may have graver consequences.

### There's Danger in Delay

April and May are pneumonia months. In this time a weakened system is a constant source of danger, for the pneumonia and grip infections are in the air, and after a long winter the body is so clogged with waste it cannot resist them. Fortify the health, remove the catarrh, and improve the digestion.

### For Quick Relief PERUNA

This reliable tonic is recommended to remove the waste from the body, counteract the catarrhal poisons and allay the inflammation that is catarrh, restore the regular appetite and tone up the entire system to resist disease. A well man is safe.

As a tonic after grip it has won many commendations, while its effectiveness in catarrhal conditions is unquestioned. Take no chances—Take Peruna.

Peruna Tablets are always ready to take. You may carry a box with you and ward off colds and chill. The liquid medicine in your home is a great safeguard. Protect your family.

ETHEL CLAYTON

in

"THE BONDAGE OF FEAR"

When a woman fights to retain the love of her husband and to retain her happiness, she fights hard. Young Vesta Randolph in this thrilling feature, is forced to fight as woman never fought before. Enmeshed in a web of circumstances which she dare not explain—though wholly innocent of any wrong intent or thought she takes things into her own hands and finds a way out. The characters are clear-cut and human, the action is constant and intense and leads upward in ascending power until the startling and wholly unexpected climax is reached. This is a supreme offering. See it.
