

RED CROSS AIDS EXILED GREEKS

Aegean Islands Are Thronged
With Fugitives From Asia
Minor Towns.

NEARLY ALL ARE IN RAGS

Cheering Crowds at Mytilene Take
Horses From Red Cross Carriage
and Draw It to Residence of
Governor General.

Athens.—In its work in the Greek islands the American Red Cross has the co-operation of the United States navy. Six submarine chasers have been assigned for transporting personnel and supplies.

On the island of Mytilene are 52,000 Greeks, who fled there from Asia Minor five years ago. Red Cross workers are regularly visiting all the towns and clothing has been given to about 20,000 of the refugees.

At the outbreak of the war, in 1914, there were 3,000,000 in Asia Minor. More than 500,000 escaped to the islands in the Aegean. Thousands were massacred. Armed bands of Turks roamed the countryside, plundering and murdering Greeks wherever found. The others, driven out of their homes and sent inland, are now returning, to find their homes either destroyed or occupied by Turks.

Allowed Six Cents a Day.
The refugees in the Aegean islands intend to return to Asia Minor as soon as conditions permit. At present the Greek government gives each refugee six cents a day.

The Red Cross is devoting much attention to the prevention of further epidemics, such as the typhus scourge, which took such a heavy toll at Mytilene.

Food is scanty and costly, and most of the refugees are underfed, even in the large towns. Nearly all are in rags. The hospitals are short of medicines and other supplies, and have been crowded by influenza cases.

Clothing, blankets and medicine are needed on all the islands. Canned meat for broth is wanted in the hospitals. American women run the workshops where clothing is made on the three islands of Mytilene, Chios and Samos.

22,000 in Town of Mytilene.
Of the 52,000 refugees on Mytilene 22,000 are in the town of Mytilene and its suburbs; the others are scattered about in 62 villages.

Of the 20,000 refugees on Chios part are sheltered in old houses and the rest in wooden barracks, divided with bagging and old carpets into "rooms," each accommodating a family of from five to ten persons.

The islands of Lemnos, Imbros, Tenedos and Samothrace are served with Red Cross supplies from Mytilene; Onchusa is served from Chios, and Icaria from Samos.

The American Red Cross agents were received at Mytilene with the greatest enthusiasm. The horses were unhitched and the carriage drawn by a cheering crowd to the residence of the governor general, who commandeered a private home and placed it at their disposal.

INDIAN IS FINE SOLDIER

Private Pontiac Williams, One Hundred and Twenty-fifth Infantry, is a full-blooded Ottawa Indian. He was born at Hart, Mich., and educated in the Indian school at Mount Pleasant. He was in all the battles of the One Hundred and Twenty-fifth, except Soissons. He was wounded at Chateau Thierry and was given the D. S. C. for gallant conduct.

TEST COW FOR TUBERCULOSIS

Law Makes It Compulsory in District of Columbia—Big Decrease of Disease Noted.

(Prepared by the United States Department of Agriculture.)

In the District of Columbia it is compulsory to test dairy cattle for tuberculosis. The law was passed in 1909. During the year which followed 1,701 cattle in the District were tested, and 19 per cent were found to have tuberculosis. In 1918, 1,206 cattle were tested and less than 1 per cent was found to have the disease. Since 1914 not more than 2 per cent of the dairy cattle in the District have been found to be diseased. This illustrates what systematic effort will do in the tuberculosis fight.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everybody, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

Swift & Company, U. S. A.

SYMBOL

OUR diplomatic, polite services meet with public approval. The beautiful dignity that characterizes the accomplishment of this organization is a symbol of respectful regard.
