

STRONG LINE-UP FOR SALE OF XMAS SEALS

\$60,000 IS GOAL OF CAMPAIGN
FROM DECEMBER 1 TO 10

Ninety-one Per Cent of Money to Stay
In State for Public Health Work
—Pankey Is State Chairman.

With the coming of December 1, one of the most comprehensive health movements ever created in the state of New Mexico will be set into motion, in order \$60,000 for public health work within this state. Headed by Elmer D. E. Pankey, state chairman of the drive, there is a series of massive contributions, 1,200 persons, dentists and several thousand workers ready to make thorough efforts to carry the money necessary to carry out a broad program of health protection during the year of 1929.

The chief means for raising the money will be the sale of Red Cross Christmas seals. Those 100 students of holiday cheer have been sold in New Mexico for the past eight years. This year, the New Mexico Public Health Association, state agency for the seals, hopes to achieve a sale which is greater than all the other years combined. Seven million seals are being prepared at state headquarters in Albuquerque for distribution over New Mexico. There are to be sold at a cent apiece, "a penny's worth of prevention and cure."

Money Stays in State

In addition to being the greatest sale in the history of the state, the 1929 campaign is notable in that 90 per cent of the money raised will remain within the state, the remainder going to defray administrative expenses and to assist the National Tuberculosis Association in its various service and tuberculosis in all parts of the country.

The health program which the association has outlined consists first of the employment of six public health nurses who would be available for demonstrations of home care of the sick and would be able to direct all nursing work during an epidemic, such as the influenza outbreak of last winter. They would also direct surveys to find the health assets of the state. They could be mobilized at any point to meet a localized epidemic. One would be a specialist in school work and would be in charge of the Modern Health Crusade which is financed entirely by the association. Another would be detailed to follow up New Mexico soldiers, sailors and marines who were disabled during or from the service for physical or mental.

Lectures On Local Program

The employment of two full-time lecturers is included in the broad program. One would speak primarily in Spanish-speaking communities and would give lectures in Spanish with instructions to show methods of safe guarding health. The other would lecture only in English. Provision is made for educational work for the distribution of suitable literature in all necessary languages and for financing the Modern Health Crusade. The portion of money which will be spent for administrative salaries is eight per cent of the total contribution the medical funds in each of this kind.

The drive is to open December 1 and continue ten days. Special services to a number of churches on Sunday, November 29, will simulate a launching of the campaign. Some motion picture theaters throughout the state will show the progress of the Christmas seal sale over New Mexico.

THE STAND FOR HEALTH

The desolating fight against tuberculosis and other preventable diseases must give way to concentrated effort. The story of the mite who crept over a mountain is too familiar to need repetition. We know the wisdom of a united stand.

War records show that out of every 1,000 men of draft age examined 24 were rejected because of tuberculosis. New Mexico had its share of rejections from this cause. Nearly three hundred boys from this state were sent home from camp because of a tubercular condition. Not a man in the state escaped. Those rejected were mainly descendants of men or women who came to the state already infected. Many were born and raised here. Their names were Jones and Smith and Smith and Jones. Tuberculosis is no respecter of ancestry.

There is little sentiment in the air of the New Mexico Public Health Association for smokers even when they fight preventable disease. Teach health to the schools and let us hope for a stronger, more vigorous citizenry. Good business seems demands better health.

Money has been given for bankruptcy relief, for bleaching hospitals, for starting Bervia. Is it not time to realize that charity best begins at home? Ninety-one per cent of the money raised between December 1 and in regular within New Mexico for this most to prevent tuberculosis. It does double duty. It builds for generations to come. It does triple duty. Each Red Cross Christmas seal carries a message of hope, of cheer, of "peace on earth, good will toward men" to any part of my country. Each seal is a penny's worth of prevention and cure. Buy seals liberally; sign the right for better health in New Mexico.

Many Young Men and Women Offer Themselves For Christian Service

Southern Baptists Will Have Ample Working Force for New Program—Campaign Hopes to Strengthen Local Churches and Win 2,000,000 Lost to Christ During Next Five Years.

Group of Young Women Volunteers Preparing Themselves for Special Christian Service at Baptist Women's Training School, Fort Worth, Texas.

Undoubtedly the most encouraging development this year looks back over an active ministry of sixty years, practically all of which has been spent in the vicinity which he is now serving. Mr. Allison has the unusual distinction of having baptized 5,525 persons and at least 100 additional converts under his ministry have been baptized by an assistant pastor since Mr. Allison's health has not been good due to his advanced years. When this aged minister of the gospel presented the call for volunteers in special Christian service in this campaign three young men, all of whom were converted and reared under Mr. Allison's ministry, responded for the ministry themselves, one of them being his nephew.

But the campaign hopes to enlist a large number of Christian workers other than those several thousand who will give themselves entirely to special religious work. The campaign hopes to enlist 2,000,000 additional pupils in the Sunday Schools of the South and Southwest; win 2,500,000 additional souls for this section to Christ during the next five years; bring the Baptist church membership in the South to 2,000,000 and enlist all those in all forms of church work; increase the number of Baptist churches in the South to 10,000 and enroll 40,000 young men and women in the denominations' schools where they will prepare them selves for lives of Christian usefulness in their communities or for service in any part of the world where they may be needed.

Through the efforts of the many great missionaries, Christian doctors, nurses and teachers to foreign lands, cause in the spreading of the advancement of the Kingdom of God or grace in many special centers where they find the hand directs them. Baylor College, Dallas, Texas, an institution for young women, led the list of schools with 450 volunteers; Isaac Tammie College, Forsyth, Ga., responded with 200; Franklin College, Greenville, La.; Dr. M. M. Moore's Training School, Louisville, Ky., 142; Southeastern Theological Seminary, in Winston-Salem, 62; the Jordan School, about 100; Oklahoma Baptist University, Muskogee, 67; while similar responses came from numerous other institutions in the various schools comprising the District of the Southern Baptist Convention.

Prominent among the 600 interesting accounts of the special services held in the churches was a report from Rev. F. Allison, a Baptist minister of Elizabethtown, N. C., who, now in his eighties, still preaches.

He Has Had His Day

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. _____ had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

AROUND THE WORLD WITH THE AMERICAN RED CROSS. In Serbia.

As far back as the first winter of the war, the Red Cross sent to Serbia a sanitary commission that effectively checked the scourge of typhus, but after the United States entered the conflict, the Red Cross was able, in August, 1917, to send a full commission that carried on extensive relief operations among the suffering refugees of the tortured nation. Hospitals were established, the refugees fed, clothed and given medical attention, the army supplied with much needed dental treatment, tarsu machinery, and seeds provided to help the Serbs redeem their land to productivity, and, not least, measures undertaken for the succor of the children. The terrible condition into which these helpless victims of the war had fallen is well portrayed by this photograph of a little Serbian girl wearing the rags and expression of hopeless dismay that were all she possessed when the Red Cross came.

There is a fine opening for a restaurant and rooming house in Oscuro, with business increasing rapidly. Now is time to get in on the ground floor, and there is no better opening in the county for a hotel, restaurant and rooming house than Oscuro.

Cigarettes

Camels are sold every
where in scientifically sealed
packages of 20 cigarettes or
in packages (200 cigarettes)
in a glistening paper-covered
carton. We strongly recommend
this carton for the
home or office supply or
when you travel.

R. J. Reynolds Tobacco Co.
Winston-Salem, N. C.

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!
