SOME MINING MATTERS.

No one can gainsay that there is a feel-

ing of confidence in Las Vegas in the

future prosperity of the Hualapai mining

district, which is located in the northern

part of the Territory. Many look upon it

as the coming Cripple Creek of New Mex-

ico. So far as THE OPTIC knows, there has

not been a single man who has visited this

camp, who has returned with an unfavor-

able report, or, in fact, who has not re-

turned with very flattering reports. Some

of those who are in a position to learn

which way the straws are blowing, claim

that in the next four months more than

3,000 people will locate in the Hematite

district. The title to the land, up there,

is undisputed and the Maxwell land grant

company is exceedingly liberal in their

terms with locators, even making better

terms than can be made with the govern-

ment.

This OPTIC has arranged for a regular

weekly correspondence from the Hematite

district and will furnish its readers with

the plain, unexaggerated truth.

The faith of the "Surprise" mine owners

grows stronger with each passing day.

The coal mine out near Trout springs is

showing up better and better, as the work

of development proceeds.

Statehood means foreign capital to de-

velop New Mexico's mines, and this capital

will not be unwisely placed, either.

near Mineral Hill, this county, composed

largely of men who have crossed the main

range from Santa Fe.

The Las Vegas mining and prospecting

company expect to have a report on their

recent mill run, made from their Lake

Valley mines, recently.

There is always a calm just before a

storm, and this fall in business, now, may

be the forerunner of better times. The

mining interests will yet prove to be the

salvation of New Mexico.

The Matilda mining company, which has

one of the most promising properties in

the Hematite district, began work in ear-

nest, Monday last, and will get out a mil-

lion as soon as a few feet more in depth is

reached.

D. C. Winters has some fine samples of

sulphur, alum, asphaltum and onyx, all of

which came from different places in San

Miguel county. A number of inquiries

have been received by him from Chicago,

in answer to an advertisement he had in-

serted in the newspapers.

Don Lorenzo Lopez is down about eighty

feet in the old Spanish mine, in the vicini-

ty of Anton Chico, and the "funds" are

very interesting, though nothing valuable

has been reported yet. There is every

reason to believe, however, that this will

prove a valuable property.

a witness against the Blossburg postoffice

per day for 133 days by the presiding

judge.

law, who is in ill-health.

Powers Gillespie is up from the vicinity

of Ft. Sumner to make proper application

for a land entry, down in that section.

W. S. Hopewell, of Hillsboro, and W. H.

Pope, of Santa Fe, lawyers, left respect-

ively for Albuquerque and Santa Fe, last

evening.

gone over to Santa Fe to attend a regu-

lar meeting of the Territorial peniten-

tiary board.

Mills, of Texas, was a passenger for Wash-

Bouras are back from a trip down the

the Plaza hotel.

An Oversight.

In the hurry of asserting "copy" at the

last moment, yesterday afternoon, the vote

for members of the school board from

wards Nos. 3, and 4 was unintentionally

omitted from THE OPTIC's otherwise splen-

did, illustrated account of Tuesday's city

election, at which the pops and the democ-

rats combined successfully in getting away

with one republican on the ticket, only.

Below is the omitted vote, and THE OP-

TIC begs pardon for the sin of omission:
