

OUR MEN'S SUIT DEPARTMENT

Is one of which any store might justly feel proud. Surrounded on all sides by plate glass, the light is of the sort that does not fear the most searching light and most earnest examination. Fully 10,000 suits, or as many as any five clothing houses in town combined, on exhibition in the Suit Department.

THE SUIT AT \$10

is about the best suit that \$10 ever bought. Your intelligence wouldn't permit you to believe that it is a \$15 suit nor do we claim any such nonsense for it. What we say and what we stand ready to convince you of is that the \$10 suit is here in greater variety, in better materials, in more stylish making, in more thorough workmanship, perfect in part and whole and more to your liking than any other \$10 suit to be found in Kansas City, no matter where you find it. All of this season's patterns and shaping and therefore correct from fashion's standpoint. You're heartily welcome to compare it with any suit at the same price in town, either before or after buying--and your money's always ready if you prefer it to any article purchased here.

THE SUIT AT \$12

is an exceptionally well made suit for the money and can be bettered at the price anywhere. This business is conducted on the lines of fulfilling all promises and of not promising more than it can fulfill. Your own judgment is our best ally in the selling of clothes. We tell you plainly and truthfully just what you are buying and protect you from any possible dissatisfaction in the future by buying back anything that doesn't suit you. A new store--a great store--and a stock as new and great as the store itself. Come and judge for yourself of the justice of our claims regarding this \$12 suit; see if it isn't superior in every point to any suit at \$12 that you've ever seen on the market before.

When it comes to the lines above \$15--at \$18, \$20, \$22 and \$25--it takes the very finest of the custom tailors to compete with them. Other clothing houses don't attempt it.

Kansas City's Foremost Clothiers, Shoers, Hatters and Furnishers.
SOUTHEAST CORNER TENTH AND MAIN STS.

THE SUIT AT \$15

arouses more favorable comment than anything we have ever offered. It is so perfect in the making, so vastly superior to the average \$15 suit in the materials, the trimming is so thorough and exceptional that the man who wants a \$15 suit is most apt to be the owner of one of these as soon as seen. It's far easier to claim a thing than to prove it, but it is by tests of comparison that our stock shows best. We invite them--urge you to them; know that they will result in ultimate benefit to us. The plain truth about these suits is so strong that the telling of it would sound like fiction. No other house can meet them; no other house can give you as many to select from; no other house has one-fifth the styles and patterns to be found here--and every one of the many productions of 1895.

CHICAGO GRAIN MARKETS.

RAINS AND SNOWY WEATHER CAUSE A DECLINE IN DECEMBER WHEAT.

Good Cables, However, Cause a Reaction and the Future Closed at 58.3-8c.
—Corn Was Lower and Oats Dull—Pork Declined.

Chicago, Nov. 9.—The continued rains and snowy weather, and the fact that there is no prospect of a change in the weather at Northwestern points, caused December wheat to fall off this morning soon after the opening, which was at yesterday's closing price, 58c. It soon dropped to 57c, but, encountering easier and some other good news, caused a reaction to 58c. Consideration of statistical reports and light clearances from Atlantic ports then had a bad effect and the price fell off again and after various changes, closed at 58.3-8c. The estimated result of the week's domestic movement of wheat is that the visible supply will, on Monday, be about 1,000,000 bushels, or 2,000,000 bushels in excess of the demand. Minneapolis and Duluth are expected to give an increase of 1,000,000 bushels, and New York an increase of about 2,000,000 bushels.

In corn, the prospects of clearing weather, with perhaps the more important matter that the November shorts nearly all covered yesterday, caused a decline of 1/2c in that future. December and May are within 1/2c of their previous day's closing values. Trade was small. Sales were very small and changes in price slight. May opened and closed at yesterday's price.

In soybeans, prospective large receipts at Atlantic ports caused a decline of 1/2c from the beginning and a decline of 1/2c in soybean oil was finally established for the day. The full in the weakness, the decline in each being only 1/2c.

A TIMELY BANKER.

A Nebraska Man With a Roll Thought He Had Been Robbed.

A man very much under the influence of liquor entered the station of Michael Ryan, the ex-patrolman, in the North end, Friday night, and displayed a roll of bills three inches in diameter. He was freely spending his money and a crowd of greedy hangers-on was watching his every movement. Subsequently Ryan offered to take charge of the stranger's money and we received the offer, giving Ryan the money without counting it. He also gave this money to a man who was standing nearby.

Yesterday morning an excited individual hurried into Central station and told Captain Phillips that he had been robbed of \$25 and his watch. He described himself as a man from Nebraska, and took out a watch and asked Ryan whether it was his property. Ryan said it was not, but the man said he had lost it in the night. Ryan said he had lost it in the night. Ryan said he had lost it in the night.

Chamberlain's Pain Balm.
Mr. J. M. Ammerman, a prominent merchant of Fort, Columbia county, Mo., in speaking of this balm, said: "I can truly say that I have never found anything to compare with it for sprains, bruises, burns and like injuries. We have used it in our family for several years and feel that we cannot do without it. This balm will heal a burn or bruise without medication, and in a short time the time required by any other treatment. In many instances it has cured a severe sprain in three or four days time, while that many weeks are usually required."

THE POULTRY SHOW.

Rapid and Satisfactory Progress Being Made for the Annual Exhibit of Feathered Creatures.

All matters pertaining to the second annual meeting of the Metropolitan poultry and pet stock show, to be held in this city November 27 to December 2, are progressing splendidly, and the officers are much encouraged over the outlook for the gathering. That it is to be far greater than last year's meeting is conceded, and entries now made are enough to demonstrate that interest in the show is widespread and that most of the leading fanciers of the land are to be represented.

The managers are anxious to secure greater local interest and have decided to hold a series of lectures and demonstrations, with the importance of the gathering. Many of the ladies who are interested in the show have been invited to give lectures on the care of poultry, and the importance of the show to the poultry fancier. The lectures will be given in the evening, and the managers are confident that they will be well attended.

A feature that cannot fail to attract great attention and prove highly entertaining to all is the show of wild birds, to be made by Mr. J. H. Stimmann, of Chicago, Ill., who will have one of the most complete collections ever seen at any show in the West and fully as fine as any in the East. The show will be held in the West and fully as fine as any in the East.

He was a member of the Humane Society and was known as a humanitarian officer.

Five thousand dollars in coin were shipped from Oklahoma on the stage, and the robbers were evidently aware of the fact. They waited until the stage was about to start, and then they fired.
