Wide winged as that enchanted awas, filte sale-th through the night. And purple grows the gloom upon The mage of her fight.

The bark, she bears no mortal same,

She is the ship that Turner knew On the contanted seas;

That drift on all the tides of the And all the seas of song. She bath Ulyssus by her beim,

als ship of a diviser realis. And of a fairer slime.

THE SHIP OF DEATH.
West aften the the sheeping United to human ken.
Another ship goes sailing doe Bearing the souls of mon. She is the skip of shadow most,

fibe is no ship of mortal name, But an oternal burk! Whe will not passes or etay. So speedily she bears them on, All on an unknown way.

But semetimes when the duster tide. Hath filled the widening stream. That was and shadowy ship will glide ity the ship of one; and dream.

Whereon the watchers dimly know A terror to the stark.

DRIVEN OFF BY MORMONS.

To listen to them one would suppose that I was to blame for the illevration of their molars, and the breaking of their hy-cuspids."

"I suppose you witness some odd freaks when you give ether or chloro form."

"Well, the other day a man I has given ether got out of the chair am wanted to give me a thrasbing. That struck me as being sufficiently odd."

"Did it so?"

"I want to tell you one thing, my friend, and that is that pulling feet doesn't hurt so much as most peoplitink it does."

"You're good authority."

"You're good authority."

"You're good authority."

"You're good authority."

"You can laugh if you like, but the truth is that not more than four used out of the nerves are prepared to be hurt, and every man or woman that leaves the dentist's chair wil event that he or she was nearly mindered. You remember this man that went about the structs a year or two ago pulling teeth without pain? To legin with he didn't charge a cent. That made a great difference."

"Not a popular method, though, think, among destitas."

"No it is not likely to come integeneral use. Secondly, the man we were talking about had a band of musis with him. Thirdly, he pulled very rapidly. Fourthly, his puttonts die not come preparation to the more man had been and a great difference."

"Not a popular method, though, think, among destitas."

"No it is not likely to come integeneral use. Secondly, the man we were talking about had a band of musis with him. Thirdly, he pulled very rapidly. Fourthly, his puttonts die not come preparation be hard, frightly."

"As you filto," the dentist said, pick fing up some brutal-looking instruments with points as sharp as the northmas wind. "But there's a mother metles beside distracting the attention for drawing teeth painlessly. It is called the rapid behavathing process. The lung are to be how revershaped with air ignored properties of the rapid behavathing process. The lung are to be no overcharged with air method more than can be exhausted. This makes the head giddy and produces a poeuliar effec

I hain't, an' if I want a tooth pulled I'm goin to hev it done.'

"So he left, and I concluded after ward that I got the ancodute cheap."

The victim tried to lange, but there was a sheet of clastic, a string, a roll of cotton-batting, a looking-glass and a prong in his mouth, so he gave it up.

"There was an old negro woman came in here not long since." went on the dentist, choerfully unconscious of the writinings of his victim, "and she wanted to hab hear toof pulled.' Of course I said I would. Then she wanted jost a wee, wer bit ob effer. Well, I wouldn't give her any ether. So ale said she'd take 'a drop ob whisky.' I offered to get a little for her, but she said she carried her own winky. So she took a pint bottle from her pocket, sai down on a chair—she must have weighed two hundred pounds—put that bottle to her huge lips, and never step-

"What do you slo with them when they scream?"

"Pet them, of course. What else can I do? Tell them I know I'm a ment of any wound brute, when as a matter of fact I haven't have them at all. Others are yeary ugry. The men of so your habits get the drop on you.—

mes molecto the bill on any geomain of its unconstitutionality or the right of Congress to
e-mot the law is not questioned. The other is
that the first section of the bill is not tooghed
upon by the message and no intimitton is
given by the President as to whether that
section, of itself emb dying, as it does, an
independent proposition, and is precise
form spt.:adiy urged by the Secretary of
the Interior in his lant annual report, meete
with his approval or disapproval. The
committee them analysed the objections of
the President that the bill is vages in its
provisions in that it might apply to various
grades of disability or dependency, and
submits to the House and the country that
those who framed the bill after menths of
careful consideration made no mistake and
have confined the bill to a class, and that
clane can be well defined as consisting of
those totally disabled or dependent on their
daily inbor for support.

"We regret, says the committee, "the
strained interpretation put on the bill is
the message as an excuse, rather than a
reason, for returning it to the Rouse, and bodieve we do no injustice to the executive,
when considering the whole message, te
say that if its provisions had been planer,
and no question could have been reliable to
labor, he would have interposed his objections. It passes the comprehensions of the
committee to understand how the President could have overfectored in another bill
(the Mexicus Pension bill) what are
alloyed as faults in this bill. Every distinction made by the act of the President,
the committee can not believe, will be induring dispression to the summittee of
this country."

Referring to the expenditures of money
which the ensemblate of the President is
extraned in presentant of the President is
