

# RESCUE SHIPS SEEK VICTIMS OF SHIP WRECK

Check Being Made to  
Determine Exact  
Number Missing

ST. JOHN'S, N. F., March 18.—(AP)—Relief for the survivors and a check to determine the exact number of dead or missing constituted a task today for rescue ships lying off Horse Island near which an explosion burned and sank the sealer Viking.

Lack of exact information regarding the number of persons aboard the ship when it blew tore out her stern Sunday night and conflicting reports on the number who made their way across eight miles of ice floes to the island left the number unaccounted for in doubt. Officials said they believed the final check would show approximately 20 dead.

Between 118 and 124 survivors were huddled on Horse Island making the best of its meagre facilities and waiting for the rescue ships, Sagan and Foundation Franklin with doctors, nurses and food supplies to take them off.

The more seriously injured were being cared for in the five houses of the winter colony while others made themselves as comfortable as they could on the bleak, barren island.

The steamer Sagan arrived last night but made no attempt to put a boat ashore or take off any of the injured. Aboard her were three of the survivors, rescued from a list of the Viking wreckage yesterday 15 miles from where the ship blew up.

They were Harry Sargent, actor-explore of Boston, a member of Varick Frisell's motion picture expedition, Capt. W. K. Kelly, navigator of the Viking, and wireless officer C. King of the Viking.

All three had suffered injuries and from their 38 hours exposure on their piece of wreckage.

Sargent is the only member of the motion picture party who has been accounted for. Frisell, who was aboard the Viking with his assistants to take stills scenes for his picture "White Thunder," and A. G. Penrod, his camera man, are still listed among the missing.

Although figures on the number of men aboard the Viking varied from 142 to 155, Newfoundland government officials said they believed the ship carried an official complement of 142, including Frisell's motion picture party. Two young stowaways were found aboard after the ship left here March 9, making a total of 144.

The cause of the blast, which apparently buried many to their death and sent scores of others over the side to escape the flames, has not been determined definitely. One possibility advanced to explain the explosion was that the boiler let go under a high steam pressure caused to drive the ship through the ice. The other was an explosion of blasting powder used to clear a channel in the ice.

NEW YORK, March 18.—(AP)—The best available information from all sources as to what happened to

# GLAD TO TELL ABOUT KONJOLA

Time After Time This Medicine of 25 Ingredients Triumphs After An Elbe Tried Failed

A medicine is known, not for promises, but for the friends it has made and held just by making good. Well, Konjola is known as the medicine with more than a million friends.

Let us see how this remarkable medicine works. Take, as a typical example, the experience of Mrs. C. H. Bridges, 1327 N. Thirtieth street, Waco, who says:

"For six months I had spells of indigestion. I tried a number of medicines, but without results. But after four bottles of Konjola I am greatly improved. With two more bottles I expect to feel better than in years."

Next give thought to the grateful words of Mr. Thomas Moore, 314 Mission street, San Antonio. "Five years ago I began to suffer from kidney and stomach troubles and constipation. I often had to stop work for days at a time. Gas, Mr. Thomas Moore formed after meals, and I had attacks of nausea and vomiting. But after six bottles of Konjola I am better than in years. I have no more kidney trouble; food digests properly and I have gained in weight."

No wonder Mrs. Mary E. Jones, Lake Worth Road, Ft. Worth, is grateful for Konjola. She says: "For three years I suffered with neuritis in shoulders, neck and arms. Sleep was impossible. I had headaches, and my nerves were in a terrible shape. I have just finished the fourth bottle of Konjola, and am in excellent health, free from all pain and misery."

Isn't that the kind of medicine sufferers want and need? Konjola does work swiftly, yet it is best to take a complete treatment of from six to eight bottles. Buy Konjola in any drug store, and do not accept a substitute.—Adv.

# MAYOR WALKER ON WAY WEST

Mayor James J. Walker (right) of New York City, whose administration is under fire from civic groups, is shown here with Mayor Bryce B. Smith of Kansas City, Mo., when the latter greeted him as Walker was on his way west for a vacation. Walker said demands for an inquiry did not disturb him.

the company aboard the sealer Viking which exploded, burned and sank off La Barbe Island, White Bay, Newfoundland, Sunday night, shows 124 accounted for and 20 missing.

The following list has been prepared by the Associated Press on the basis of dispatches from Bowring Brothers, Ltd., owner of the ship, special correspondents, the Canadian Press and from La Barbe (Horse) Island and the steamer Ungava, of La Barbe.

On La Barbe Island ..... 118  
On rescue ship Sagan ..... 3  
On ice floes ..... 2  
Total accounted for ..... 123  
Missing ..... 21

Varick Frisell, New York movie producer; A. G. Penrod, New York cameraman; Dr. Bosch, ships doctor; three engineers; six firemen; seven sailors; one stowaway total missing, 20.

This compilation would account for the ship's regular complement of 142 and two stowaways.

No bodies have been found, lending hope that at least some of those missing may not have been killed by the explosion.

Although figures on the number of men aboard the Viking varied from 142 to 155, Newfoundland government officials said they believed the ship carried an official complement of 142, including Frisell's motion picture party. Two young stowaways were found aboard after the ship left here March 9, making a total of 144.

# JACK WALTON COMES BACK

OKLAHOMA CITY, March 18.—(AP)—The political star of "Barin" Jack Walton appeared in the ascendant today.

From an obscure position in the political picture of Oklahoma, the signs of a brilliant future were seen as he stepped into the limelight. The fiery ex-governor who was impeached from office in 1923 ran second for mayor of Oklahoma City in the non-partisan primary election yesterday. Two nominees were chosen.

In a field of six candidates, "Barin" Jack ran only 172 votes behind the top candidate—C. J. Blinn—and today he stood a good show for the final elections April 7.

Although impeached, and now under indictment for mail fraud in connection with an oil company, his fighting campaign rallied votes that were seen as possible stepping stones in his attempt to regain his way to political fortune.

From the time of his entering public office, as commissioner of public works here in 1916, no other figure in Oklahoma's history has faced such extremes of victories and defeats as "Barin" Jack. In 1923 he won the race for governor by a majority of 50,000 votes, and less than a year afterward he was ousted from office by impeachment.

From the time of his entering public office, as commissioner of public works here in 1916, no other figure in Oklahoma's history has faced such extremes of victories and defeats as "Barin" Jack. In 1923 he won the race for governor by a majority of 50,000 votes, and less than a year afterward he was ousted from office by impeachment.

# 4,500 IRISH

His talk was applauded enthusiastically. Many other speakers were on the program.

Starting around 5:30 various contests were held, which lasted until the street dance started at sunset. Ray Judia and his El Jardin Hot Orchestra furnished the music for the street dance, and the paved streets, which had been cleared of traffic, were crowded with dancers until a late hour.

Weather remained clear and warm throughout the entire day.

"The celebration exceeded our fondest anticipations," said John C. Fanning, of Brownsville, originator of the affair and one of its most active sponsors. "The crowd was larger than we had expected, but it will be a lesson to us—our plans next year will be made accordingly. St. Patrick's Day in 1932 will be the most elaborate ever held in South Texas, and will be a great improvement over the one just past."

E. H. Guilfoyle of Port Isabel, chairman of the executive committee said that plans would be made immediately for starting preparations on next year's celebration, and predicted that 10,000 Irish would be present.

Tuesday the crowd was composed of Irish from every Valley town, and from all over south Texas, San Antonio, Corpus Christi, Beeville, Robstown, Kingsville and many other cities were represented.

# GOVERNOR GETS WALKER CHARGE

Roosevelt To Review Accu-  
sations Against Jimmie  
Walker

NEW YORK, March 18.—(AP)—Charges against Mayor Walker seeking his removal from office were before Governor Roosevelt today.

The City Affairs Committee, represented by John Haynes Holmes, clergyman, and Rabbi Stephen S. Wise, filed specific accusations of inefficiency and neglect with the governor last night. The governor planned to review them on his return to Albany.

While the full portent was not revealed, newspapers said they were similar to charges lodged against District Attorney Thomas C. T. Crain by the city club. Under the city charter the governor may suspend the mayor 30 days pending an investigation.

Upped by Governor Roosevelt to his right to continue, Commissioner Samuel Seabury has summoned Mr. Crain and his attorney, Samuel Untermyer, to confer with him tomorrow and formulate a plan of procedure in the hearings. John Kirkland Clark, Mr. Seabury's counsel also will be present.

W. Kingsland Macy, republican state chairman, has returned from Washington with a renewed demand that William L. Ward, Westchester county leader, withdraw his opposition to a legislative investigation of the entire city government. He said he had not conferred with President Hoover on that subject.

# TREASURY MUST RAISE MONEY

Millions Needed to Meet  
Vet Loan Payment  
Demands

WASHINGTON, March 18.—(AP)—Demands of World War veterans for loans have thrust before the treasury the necessity of raising \$200,000,000 in less than a month.

Likewise, Director Hines of the veterans bureau, believes that within a short time loan checks will be going out at the rate of 200,000 weekly, a sharp increase, as the new machinery hushes up with use.

Secretary Mellon announced yesterday a request by Veterans Administration Hines for \$500,000,000 to cover payments on 1,372,006 applications received to March 15. It had been estimated \$300,000,000 would suffice, and 1-2 per cent treasury certificates were issued to get that sum.

Hines said, however, the half-billion would be needed by April 11. Now the \$200,000,000 will be raised was not announced yesterday.

The veterans administrator also told Secretary Mellon \$1,000,000,000 would be required to pay all loans. He estimated 75 per cent of the \$200,000,000 adjusted compensation certificate holders would take advantage of the opportunity to borrow half the face value of their certificates.

# Not Such a Bad Fish Story at That

LOS ANGELES, March 18.—(AP)—Uncle Sam's guard vouchers for this fish story.

J. D. Jeanes and his son, fisherman, said they hooked a 350-pound sea bass and, during the battle, the master of their 46-foot boat became disabled. The bass started toward shore, towing the boat. Jeanes hoisted distress signals and a coast guard cutter answered. They landed the fish.

# Slaughter Peasants In China Uprising

SHANGHAI, March 18.—(AP)—The slaughter of 3,000 peasants in a communist uprising along the Hunan-Szechwan border was reported in Chinese dispatches today.

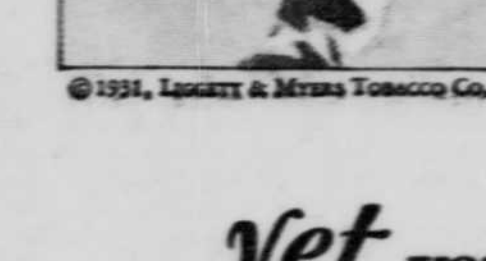

Nationalist government military forces at Shao, Hupei province, were reported to have undertaken an expedition against the reds. The scene of the uprising was designated as north of the Yangtze river in the border area mentioned. The area was said to have been pillaged.
