

Paved Highway Through Kenedy Hope Now Centered About Pope Measure

OUTLOOK FOR BILL'S OKEH SAID BRIGHT

(By Staff Correspondent)
RAYMONDVILLE, Feb. 18.—Realization of a dream of 25 years—a paved highway through Kenedy county—looks as a result of the Pope bill now in the legislature, Nat Wetzel, leader in Willacy county's fight, said today.

"It looks like the Pope bill will solve the problem, and bring us the road, and it looks like the bill is sure to pass," Wetzel said.

Sentiment Strong

Wetzel said he had letters from many Texas senators and representatives stating that they are working for the bill.

"Sentiment generally is so strong in favor of this highway that it is practically political suicide for any legislator to oppose this bill," Wetzel said.

The Pope bill was introduced by W. E. Pope, the veteran Nueces county representative, who has been a strong force in the Texas legislature for a decade or more.

The bill does not mention words. It states that the Texas Highway department shall proceed at once with the construction of a paved highway through Kenedy county.

It further declares the lack of such a road an emergency situation, which makes the bill emergency legislation and cuts through delays and some red tape.

'TROUSERS SO EFFEMINATE'

No. Edwin, these blushing beauties are not Marlene "Pantlegs" Dietrich and Bebe "Trousers" Daniels. These blushing beauties are Bert Wheeler and Robert Woolsey skirting about Hollywood. If rough old Marlene Dietrich wants to wear the pants, let her, say Bert and Bob. "Anything good enough for my mother is good enough for me," declared Wheeler. The only comment Woolsey had to offer was: "Trousers are so effeminate."

11 Wildcats Over Upper Valley Keep Oil Interest High

(Special to The Herald)
RIO GRANDE CITY, Feb. 18.—Eleven wildcat locations in widely scattered parts of Starr and Hidalgo counties, most of them deep tests, kept those interested in Lower Rio Grande Valley oil developments on the jump during the past week. These eleven wildcats offer almost unlimited possibilities and this accounts for the fact that acreage surrounding them is virtually all leased before they start drilling.

In addition to these wildcats, two tests in the Rio Grande City deep pool and two in the North Los Olmos shallow pool, both known areas, were drilling.

In the Rio Grande City pool, two new deep tests penetrated the 1,400-foot sand and drilled below 1,500 feet in vain search for the pay. Witherspoon's No. 1 E. M. Jones, located 150 feet from the north and 850 feet from the east lines of Block 5, Tract 77-A, Porcion 81, Ancient Jurisdiction of Camargo, was bailed dry at total depth of 1,488 feet. The well made an oil showing but no more. It was abandoned Friday. It is only a few hundred feet north of Sioux Oil company's No. 1 Goodrich, deep discovery. Its failure further limited nearby possibilities.

Howard Stages' No. 1 Ida Davis, located 150 feet from the south and 150 feet from the west lines of Block 16, Tract 4, Porcion 81, Ancient Jurisdiction of Camargo, and about 800 feet northwest of the Witherspoon test was abandoned dry Friday afternoon after making some oil showings earlier in the week. The hole was drilled well below 1,500 feet without obtaining production and definitely kills chances to the immediate north of the deep discovery pool, which is now one location wide and about four long, north and south.

In the North Los Olmos shallow pool, Sinclair & Culbertson's No. 2 Kelsay-Bass, located 150 feet from the south and 450 feet from the east lines of the southwest quarter of the southwest quarter of Section 5, Porciones 75, 76 and 88, Ancient Jurisdiction of Camargo, was abandoned dry at 899 feet. Only two feet of sand was cored in the regular shallow sand at 465 feet.

Hooks & Weaver's No. 14 Kelsay-Bass, a projected deep test in the heart of the shallow pool, lost a slip in the hole at 660 feet, failed to fish it out and finally skidded the derrick a few feet and started H-W No. 14-A. The new test is now drilling at 350 feet on the scheduled 2,000 foot test. Location is 150 feet from the west and 250 feet from the south lines of the east three-quarters of the northeast quarter of the southwest quarter of Section 6, Porciones 75, 76 and 77, Ancient Jurisdiction of Camargo. A gasoline rotary is being used.

With virtual assurance that the Rio Grande City deep pool will not at the present develop into big pay, wildcaters who are keeping the boys interested in Starr county.

The Roma pool jumped into the limelight during the past week with two good gas wells completed out of what had been reported as abandonments, one deep test to be pushed down shortly, one test in the vicinity continuing drilling and two new tests proposed for the near future.

The gassers completed were Dawson's No. 3 Margo, located 600 feet from the west and 550 feet from the south lines of Share No. 3-B, Porcion 70, Ancient Jurisdiction of Mier, and Dawson's No. 4 Margo, located 700 feet from the west and 550 feet from the south lines of the same Share 3-B. Both wells tested 80 pounds rock pressure after they had once been abandoned as dry oil wells.

While there is no market for gas wells in this more or less isolated location, they will furnish more than enough fuel for Stuckney's No. 1 H. Gonzales, located 366 feet from the east and 3,156 feet from the south lines of Survey 339; for Jim Cloud, Inc., No. 1 Sanchez, located in the exact center of Survey 344, a short distance to the east; for Jim Cloud, Inc., No. 2 Sanchez, located 2,000 feet south and 600 feet west of No. 1 Sanchez; for a new deep test to be drilled by Moore & Jenkins in some time ago, from a light gas line to a heavy duty steam rotary rig. The deep test, to go 3,500 feet, should be drilling again shortly.

ROOSEVELT'S FREEDOM ENDS WITH 5 SHOTS

NEW YORK, Feb. 18.—(AP)—Five mad shots by an assassin have about closed the door of freedom to Franklin D. Roosevelt. The president-elect found today he was looking at the world through rows of blue coats.

Thongs Thankful

Mr. Roosevelt is also conscious as never before of the feeling of America for him as president-elect. The throngs that lined the streets last night when he arrived under an extraordinary guard of 1,000 policemen testified to their thankfulness that he had escaped death at Miami and to their admiration of his coolness under fire.

Where one policeman stood a month ago in front of the Roosevelt home on East 65th street, a squadron patrolled today. Although absolute order prevailed, the police, stirred to unprecedented precautions by Giuseppe Zangara and his hatred for "presidents and kings," were taking no chances.

The president-elect himself was still smiling and going ahead with the preparations for the presidency without any change in his daily routine. Meanwhile, he kept in closest touch with the Miami hospital where lie the five victims of the bullets intended for himself.

Hemmed by Police

Reaching New York late yesterday from the southland, the Roosevelt party was hemmed in by a cloud of police and secret service men. Leaving his home after dinner to go with his son, Elliott, to Masonic Hall where the society received the degree of Master Mason, he was again surrounded by police. Eight secret service men, with pistols drawn, rode in a car behind him.

As unconcerned as ever, Mrs. Roosevelt reached home yesterday just ahead of her husband and walked out amid the throngs of newspapermen and photographers to sing a "hello" into the car. Mrs. Curtis B. Hall, daughter of Mr. Roosevelt, rode with him from Philadelphia and accompanied him to the house.

James A. Farley, national chairman, headed the reception committee.

ISLAND HONOR

For instance, in Puerto Rico there is Yvette Louise Baker who has been chosen queen of the carnival, the first girl from the American continent ever to be given this island honor.

WEATHER

East Texas (east of 100th meridian): Partly cloudy; warmer in west and north portions Saturday night; Sunday partly cloudy to cloudy and warmer; local rains on west coast and in southwest portion.

Light to fresh easterly to southerly winds on the coast.

RIVER FORECAST

There will be no material change in the river during the next 24 to 36 hours.

Stage	Present	24-Hr. Change	36-Hr. Rain

WEATHER SUMMARY

Barometric pressure was moderately low to low over the Rocky mountain region and the Canadian northwest this morning, and relatively high over most of the balance of the country. Scattered rains occurred in the southeastern and middle Atlantic states except Florida during the last 24 hours. It was colder to considerably colder over Texas northward and most of Texas northeastward to the Great Lakes this morning, and somewhat warmer in portions of the northwestern states.

SISTER OF 'TEDDY' DIES

NEW YORK, Feb. 18.—(AP)—From all over the nation messages of condolences came today, mourning the death of a distinguished member of the many-branched Roosevelt family, Mrs. Corinne Roosevelt Robinson.

Mrs. Robinson, who was a sister of Pres. Theodore Roosevelt and aunt of Mrs. Franklin D. Roosevelt, died last night of pneumonia in her 72nd year.

Like her brother, Mrs. Robinson had tremendous energy which carried her into philanthropy, society, literature and politics. She was the widow of Douglas Robinson, wealthy real estate man.

She made the old Roosevelt residence in East 20th Street a shrine for admirers of Theodore Roosevelt, campaigned for liberty loans, the Salvaterra Army, the Red Cross and the republican party; wrote several volumes of poetry and a book called "My brother T. R."

Mrs. Robinson was a fifth cousin of the president-elect. Surviving are three children: Theodore Douglas Robinson, who was assistant secretary of the navy under Pres. Coolidge; Mrs. Joseph W. Alsop of Avon, Conn.; and Monroe Douglas Robinson of New York.

Liquor Seized

MOBILE, Ala., Feb. 18.—(AP)—The liquor laden American lugger La Fite was en route here today in tow of the coast guard cutter Hahoning.

The lugger carrying 664 cases of whiskey fell into the hands of the Mahoning in the Gulf of Mexico last night off Southwest Pass, La. The cutter informed coast guard headquarters in a radio message.

VALLEY PARKS BUREAU BUSY WITH PROGRAM

Plans for continuation of the highway parks and beautification program now being carried out in the Valley are being arranged under the direction of the South Texas Chamber of Commerce bureau of parks and beautification.

This is a new bureau of the South Texas organization and is headed by Gutzon Borglum, mountain sculptor.

Borglum was in the Valley recently, and announced a plan for palm-planting of 1500 miles of highway from Brownsville west along the Rio Grande to Eagle Pass, then back through San Antonio to Houston, and back to Brownsville.

Mr. Borglum recently wrote the chamber of commerce here asking for a map of the highway beautification work in this section, and said he is preparing, as chairman of the parking board of the state highway commission, to recommend to the commission just where it takes up beautification work on the south Texas highways.

On the bureau of parks of the South Texas Chamber of Commerce along with Borglum are the following south Texas people, most of who are chamber of commerce secretaries: Mrs. Lorine Jones Spooner, Corpus Christi; J. E. Bell, San Benito; Miss Ruth Clark, McAllen; G. C. Richardson, Brownsville; A. Rivera, Jr., Eagle Pass; Mathias de Llano, Laredo; Vance Porter, Bay City; W. N. Blanton, Houston; M. W. Carlton, Yoakum; L. E. Cherry, Beeville.

PULLIAM FOR CONGRESS

F. W. PULLIAM
Candidate for Congress From the 15th District

Warren Pulliam, a native of Uvalde county, Texas, 44 years of age, a farmer, banker and business man, is the safest man to send to congress from the 15th district. He has all the qualifications requisite, but above every other consideration he believes that the farming industry needs the most attention at this time and being a farmer himself he is vitally interested in the welfare of his farmer and business friends. Civilization begins and ends with the plow. If the republic is to survive the producers of the necessities of life must be given every encouragement and protection and be given fair compensation for the things they produce. Pulliam will fight for the farmer, the stockman and the business man.

He is for deep water at Port Isabel and for flood control. He is a battler for lower freight rates and has represented the people in this particular before various congressional committees and the Interstate Commerce Commission very successfully for the past ten years and is therefore, not new to Washington. He is for Veterans of all wars; for federal employees and will abide by the rules of the democratic caucus with respect to the submission of the 18th amendment, but first of all and above all, he is for the farmers of his own and the Lower Rio Grande Valley sections. Vote for
