Mr. Welch Wilbur extricated the preacher from the brush and dirt with which he was covered, and everybody knows what a hard job Mr. Wilbur had.

In Memoriam.

At her home in Newberry, S. C., on July 21, 1910, Mrs. Mary Danielsen departed this life to enter into "the rest that remains for the people of God."

She had lived her three score years and ten in humble, faithful service to the Lord Jesus, going about doing good in whatever way she could. For many years she was president of the Woman's Missionary society, and in this she was always at her post seeking to extend the kingdom of Christ. For 13 years she was teacher of a large class of boys in West End Sunday school, and was one of the sweetest spirits that ever walked among us.

Resolved 1. That deeply feeling our loss we bow in submission to the will of our Father, who does all things well.

2. That we extend to the bereaved family our sympathy in their grief, commending them in our prayers to the loving care of our Father.

3. That a copy of these resolutions be sent to the county papers, to the Baptist Courier, and one to the family.

THE CHAMBER OF COMMERCE.

Board of Governors Recommends That Initiation Fee be Abolished and Suggests Schedule of Dues.

The board of governors of the chamber of commerce held a regular meeting on Wednesday afternoon at 6 o'clock in the rooms of the chamber of commerce. There were present I. H. Hunt, J. P. Shealy, J. B. Mayes, W. G. Mayes, C. T. Summer and E. H. Aull. On account of the sickness of the secretary, Mr. S. S. Cunningham, Mr. E. H. Aull acted as secretary.

President Hunt stated that arrangements had been made with Mr. F. P. Devore to have charge of the rooms in the morning, afternoon and evening during the illness of the secretary.

Mr. Devore suggested that the board dispense with the service of the porter, as he was rarely in the rooms, and that he be given the authority to employ some one to clean up during the morning. The matter was referred to Mr. Devore to do as he thought best.

Mr. J. H. Hunter, who has been collecting for Mr. Cunningham, submitted the report of the treasurer, showing receipts and disbursements. The report was received as information.

The matter of readjusting the dues came up for discussion and by invitation, Mr. J. L. Bowles, chairman of the membership committee, was present. On motion of Mr. J. B. Mayes, it was decided to recommend to the chamber of commerce to do away with the initiation fee and the following schedule of dues was adopted:

Farmers (out of town)—\$3 per year.

Clerks—\$5 per year, of 50 cents per month.

R. F. D. and city carrier and bookkeepers—\$7.50 per year, or 75 cents per month.

All others—\$10 per year, or \$1 per month.

Banks and cotton mills, with the privilege of one representative from each—\$25 per year.

All other corporations—\$15 per year.

The annual rate is to be paid in advance.

President Hunt suggested that the board appoint three members, who, with himself, should be known as the executive committee; this committee to pass upon bills up to a certain amount and other matters that might come up for consideration without calling the board of governors together. The motion was adopted. President Hunt asked for a little time in which to make the appointments.

The matter of the rent that is due and the other bills was referred to this committee, who are expected to arrange these matters by the first of September.

On motion, the pastors of the churches in the city were elected as honorary members with the privilege of the rooms and of attending the meetings of the chamber of commerce, and engaging in the discussions, but without the privilege of holding office or voting.

It was determined to have a meeting of the board of governors at least once a month, and President Hunt will call a meeting at any time that any member will request it who has something to bring before the board.

Standing Committee Meets.

The standing committee of the chamber of commerce on good roads held a meeting on Monday evening and elected Mr. T. Roy Summer secretary. A sub-committee consisting of E. H. Aull, T. Roy Summer and J. A. Peterson was appointed to ascertain if there were any other merchants in the city who were willing to furnish a split log drag to be used by the farmers on the roads in the county. This committee will be pleased to hear from any merchant who feels disposed to help the cause of good roads in this way and the committee will endeavor to ascertain the cost of the building of this drag.

What is needed now, however, is to induce those who have promised to use the drags to use them. It probably would be a good idea to offer a box of candy to the first farmer who would use one of these drags that has been placed at his disposal on the roads leading along his premises. This suggestion is offered to the committee. There are several drags that have been idle for some time as many farmers promised to use them but have not done so.

YARBOROUGH GIVEN HEARING.

Held for Trial by Circuit Court—Several Witnesses Examined at Preliminary.

After a session lasting two hours, during which several witnesses were examined and a considerable amount of testimony taken, Thomas Yarbrough, the white man charged with attempted criminal assault upon a 7-year-old white girl of the Silver Street section of the county, and who was taken to the penitentiary for safe-keeping, was bound over by Magistrate Chappell late Wednesday afternoon for trial by the circuit court. The public was excluded from the preliminary hearing.

Solicitor R. A. Cooper was present and G. G. Sale, Esq., of the local bar, was assistant counsel for the State. The defendant was represented by Messrs. O. L. Schumpert and Eugene S. Blease.

The first witness was the alleged victim, who is a mere tot, being seven years old during the past several days, according to her testimony and that of her mother. She gave a detailed story of the affair, and at times her choice of words would have been horrifying even coming from an adult. She said she learned these words from Yarbrough on the day of the alleged occurrence. Her testimony was considerably shaken under a most rigid cross-examination, but she reaffirmed her statements when counsel for the State again took charge of her on the re-direct examination. The father and mother were sworn, and the mother told of receiving an anonymous communication which led to her questioning the child. B. B. Gruber, the man who told that he had mailed a letter from Mrs. Yarbrough, wife of the defendant, directed to the mother of the child, on the day this anonymous communication was postmarked, was given a grueling cross-examination as to his interest in the affair, the effort being directed towards showing that he had an interest which did not appear on the surface.

There was no argument following the testimony. Magistrate Chappell said that under the rule which required him to hold for trial where a probable case was made out by the State's testimony, he would send the case to the circuit court.

THE FOUR-INCH MAINS.

Letter From South-Eastern Underwriters Association to Chief Henry B. Wells.

Following the article on fire protection in connection with four-inch water mains in a recent issue of The Herald and News, Chief Henry B. Wells, wrote the South-Eastern Underwriters association in regard to the matter, asking for their opinion thereon, and enclosing the clipping from The Herald and News. In reply he has received the following letter:

Atlanta, Ga., August 6, 1910.

Mr. H. B. Wells, Chief Fire Department, Newberry, S. C.—Dear Sir: I am in receipt of your favor of the 4th instant, with stated enclosure of clipping concerning fire department and water protection in your city.

Enclosed herewith I am handing you report that was made by one of our engineers under date of May, 1907, which, I think, will give you all the information you desire concerning conditions in your city at that time and which we have not since been advised have been changed.

With reference especially to the 4-inch piping, I will refer you to the undersigned printed matter under Water Supply on the last page of the report and from this you will note that our engineer recommended the substitution of not less than 6-inch mains wherever the 4-inch pipe was down at that time. Generally speaking it is our custom to discourage in every way we can the use of any water pipe for fire fighting purposes of less than 6 inch diameter, unless it be inside buildings, and it is also to the interest of the cities in connection with their future development to avoid the use of these small mains.

Yours very truly,
A. M. Schoen,
Chief Engineer.

The matter under score, referred to in the letter, is: "All 4-inch pipe should be replaced by mains not less than 6 inches in diameter." The remainder of this sentence is: "And connect up all dead ends as far as practical."

MR. FULENWIDER CALLED.

Pastor of the Lutheran Church of the Redeemer Called to Savannah, Ga., Pastorate.

Savannah, August 10.—The Rev. Edward Fulenwider, of Newberry, S. C., has been nominated by the elders and deacons to succeed the Rev. J. H. Wilson as pastor of the Evangelical Lutheran Church of the Ascension. The nomination will be presented to the congregation next Sunday, and the vote of the church on the call will be taken two weeks thereafter. The nomination is equivalent to a formal call. The church is one of the largest in Savannah.

The above telegram appeared in the News and Courier yesterday. Under the rules governing this church, the council nominates and the congregation elects. Of course it usually happens the congregation elects whoever is nominated by the council.

Mr. Fulenwider's attention was called to this item yesterday and he said of course he could make no statement yet, that he had received no call and even if the call should come he could make no statement until it was received.

This is a very large congregation, probably the largest in the Lutheran church in the South, and the field is a large one and the opportunity for work is almost unlimited.

Mr. Fulenwider has been pastor of the Lutheran church of Newberry for about two years and has done, and is doing, a good work in this congregation. The congregation has been very materially increased. The attendance on all of the services is excellent and all departments of church work are moving along smoothly. His congregation in Newberry would regret exceedingly to lose him. While the congregation is not as large and the salary is not as large, yet, this is one of the most important churches in the Southern church inasmuch as it is the college church and the pastor comes in contact with young men of the college and is their pastor during their stay in the city.

SOCIAL.

On Wednesday morning Mrs. D. Fair Pifer entertained in honor of Miss Edith Gayle, of Monroe, La., at her home in College street. Pelham and Miss Gilder. The following guests were present: Misses Gayle, Goggans, Florence Bowman, Mary Nance Fair, Sadie Goggans, Genevieve Evans, Bess Gilder, Lucile Wilson, Marguerite Cromer, Carolyn Cromer, Mottie Eunice Ming of Laurens, S. Two prominent officials of the Southern Railway company visited Newberry yesterday, spending several hours in the city. Mr. J. S. B. Thompson, of Atlanta, assistant to the president, and Mr. R. B. Pegram, of Charleston, general agent. These two gentlemen have visited a number of important points along the lines of the Southern, inspecting local conditions and meeting patrons of the road, in the desire to learn everything possible about the service being rendered that would tend making possible improvement that might be desired in any point.

"The near approach of the opening of the new business year makes it particularly important for us to get in as close touch as possible with conditions along our lines," said Mr. Thompson, to a representative of The Herald and News, "in order that we may be in a position to give the service most satisfactory to our patrons. The Southern Railway company has recently authorized large expenditures for heavier rail, new and larger locomotives, and increased freight and passenger equipment and as engines and cars for which we have contracted are delivered to us we hope to be able to so increase our facilities as to be able to take care of the heavy business for the fall which is expected throughout the South."

Mr. Thompson, who spends much of his time visiting different sections of the South is much pleased with conditions in this territory and spoke in the most flattering terms of the progress being made here. On the afternoon train Mr. Thompson and Mr. Pegram left for Anderson.
