

NEWBERRIANS HONORED.

President and Secretary of North Carolina Synod Hall From Newberry.

At the meeting of the North Carolina Lutheran Synod last week, Rev. M. M. Kinard was chosen president, and Rev. H. A. McCullough secretary—both natives of Newberry. Speaking of these gentlemen, the Wilmington Star says:

Rev. M. M. Kinard, Ph. D., the president of the Lutheran Synod, is a native of Newberry, S. C. He received his literary education in the schools of Newberry, the University of South Carolina and his Theological education in the Seminary at Charleston and that in Gettysburg, Penn. He spent 16 years of his life as a minister in South Carolina, three years in Tennessee, during a pastorate in Knoxville, coming from that city to Salisbury. He has been pastor of St. Johns church in Salisbury for four years, and under his leadership that church has made rapid progress along all lines of work.

Dr. Kinard is a cultured gentleman and a close student. He is also an able preacher and pastor, possessing a personality of uplifting influence. He is one of the ablest men in the synod, and his leadership will no doubt prove of great value to the body.

Rev. H. A. McCullough, who has been elected secretary of the synod for the fourth time, consecutively, is easily one of the strongest men in the synod, and one whose influence is felt largely for good along every line of the work of the advancement of the church. He, also, is a native of Newberry, S. C. His literary education was secured at the seminary in Charleston. He has held four pastorates, one in Concord, N. C., another in Orangeburg, S. C., another in Mount Pleasant, S. C., and is at present pastor in Albermarle where he has been for four years.

As a secretary he is painstaking and accurate and although he is doing the work of a busy pastor, he finds time to look after the detail work of the synod. The standard of Mr. McCullough's Christian life is high, and as preacher, pastor and secretary, he is conscientious and true.

COMMENCE WORK ON ASYLUM.

Landscape Artist Employed for "State Park"—Visit Other Institutions.

Columbia State, Saturday.

The State hospital commission meeting here yesterday decided to employ H. P. Kelsey, of Salem, Mass., as landscape artist for the development of the entire property at "State park," comprising 2,500 acres. Mr. Kelsey was employed several years ago by the Civic Improvement league of Columbia to make report upon the development of park systems about this city. His report is regarded as one of the most valuable documents on this subject that has been made from this section of the country.

Mr. Kelsey is at present employed upon both private and public park work in Greenville. He has also been employed by the trustees of Clemson college.

To Drill Well.

The commission visited the grounds at "State park" yesterday. Preparations are being made for drilling a deep well, eight inches in diameter. It is hoped to have one of the buildings for the new hospital completed in a short time. This house will be used for negro patients.

Inspect Asylum.

The commission decided to send several members to other States to inspect the asylums, so that at the next meeting an architect will be chosen and work commenced on the erection of the several buildings. The commission will spend \$200,000 during the year.

The Members.

The members of the commission are: Dr. J. W. Babcock, Dr. Robert W. Wilson, Jr., Charleston; James Payne, Anderson; John F. Floyd, Spartanburg, and E. H. Aull, Newberry. The date of the next meeting of the commission has not been announced.

THE DISPENSARY COMMISSION.

S. W. Scruggs Makes Affidavit of Milder Sensational Nature.

Columbia, May 11.—Secretary B. Frank Kelley, of the State dispensary commission, stated this evening that very probably an announcement of the commission's decision in the Carolina Glass company's petition will be made at the next sitting of the commission, which will be Monday. The commission will attend to several important matters at that time. The Carolina Glass company has made a strong showing for a refund of the \$21,900 taken over by order of the old com-

mission from the several county dispensaries. The Glass company is also seeking to have the whole claim reopened.

The dispensary commission met here today with all members present. The commission consists of James Stackhouse, Marion, chairman; B. Frank Kelley, Bishopville, secretary; Thos. F. Brantley, Orangeburg; John V. Wallace, Charleston; Fred. H. Dominick, Newberry.

The commission has not yet employed counsel, according to an announcement by Secretary Kelley. Mr. Kelley also stated that the Scruggs matter was the only proposition taken up today. He also made the announcement that the commission has not yet replied to the last letter from the Felder firm.

In the Scruggs matter the commission heard only the ex-parte testimony from the claimant. The commission called upon its secretary to ask Attorney General Lyon to attend, but the attorney general was out of the city. The matter will again be taken up at the next sitting of the commission.

Scruggs Springs Sensation.

Columbia, May 11.—Another sensation in the dispensary situation was revealed today in a hearing before the new dispensary commission. S. W. Scruggs, of Spartanburg, through counsel, is seeking to secure about \$3,000, a balance he alleges is due him for work done during the old dispensary commission's regime for Attorney General Lyon. Scruggs claims that he has already been paid \$1,000 for the services he rendered, and he is seeking to secure the balance now from the dispensary commission. What makes the claim of a sensational nature is the class of work that Scruggs says that he did.

It will be recalled that G. H. Charles, the former clerk for the old State dispensary directorate, was said to have given up valuable information to Attorney General Lyon to aid him in his prosecution of the dispensary graft cases. When Attorney General Lyon wished to get Charles, the ex-clerk was out West; it was in the chase for Charles that Scruggs claims he did his work. It was he, according to the affidavits filed here, that could accomplish the work of bringing Charles back to South Carolina. There is the claim that it was necessary for him to pay for the support of Charles and his family in order to keep the former dispensary clerk in this State. Many are the sensational rumors of the movement of Charles during the days Attorney General Lyon was making efforts to secure information with regard to the old dispensary dealings. Scruggs claims that he rendered a valuable service in his handling of "Lody" Charles, as the young clerk was known in dispensary days.

Charles was to have testified in the "Hub" Evans case at Newberry, but information of his death reached here shortly before the trial.

BYRNES HAS THE MUMPS.

South Carolina's "Baby" Congressman Laid Up—House Resting.

Washington, May 11.—Representative Jas. F. Byrnes, of the 2nd South Carolina district, is confined to his hotel with the mumps. Representatives Aiken, Johnson and Ellerbe have gone home. The situation here in the house, such as it is, is now held down by Messrs. Legare, Finley and Lever.

The lower house is now taking a well earned breathing spell after its hard work in passing legislation up to the slower-going senate.

WILLIAMS'S SUCCESSOR CHOSEN.

Columbia, May 12.—At a session of the State board of health tonight and early this morning, Dr. J. Adams Hayne, of Wyoming, was elected secretary of the board and State health officer, succeeding Dr. C. Fred Williams, of this city, who recently resigned. The position pays \$2,250. Dr. Williams resigned because he could not remain at the salary and the board found no way to increase the salary. Dr. Williams will engage in special work on chest diseases.

Dr. Robert Wilson, Jr., chairman of the State board of health, came in on the night train from Charleston. The meeting lasted past 1 o'clock today. Dr. Hayne has been in the government service.

Like Newberry Accident.

Hoboken, N. J., May 11.—Miss Margaret Welsh, forewoman in the American Lead Pencil company's factory is dying at St. Mary's hospital of injuries which are the result of being caught by her hair in a fly wheel and whirled a dozen times around the shaft.

Before the machine could be stopped it tore off her scalp and threw her unconscious to the floor.

The girl was noted for her luxuriant hair which reached nearly to her ankles.

Is the most superior American marble in the world that contains those durable qualities found in the stone from the ancient quarries. A vault, building or monument erected of GEORGIA MARBLE will stand through the end of time, always beautiful and free from decomposition. The close interlocking and perfect fitting of its crystalline formation prevents the slightest absorption and keeps it free from stain and disintegration. It is simply superb in beauty, and matches up perfectly, making it the one best material for monumental purposes.
