The Killough Music Co., which advertise in this issue, is a strong joint stock company recently organized in Florence. The general manager, Mr. J. B. Killough, has an experience of twenty years, and knows all about the cost of musical instruments. The company is reliable, and claim they can sell as cheap as the cheapest.
A beautiful line of spring cashmeres in all shades, with wide, small and China silk trimmings to suit, at Rigby's.
The board of stewards of the Methodist church at a meeting last Saturday adopted a resolution to make an itemized financial report to the church at least three times a year. This is a proper policy, and every member of the church should know what every member is doing for the support of the ministry, and how much in all has been paid towards the pastors' salaries. Other churches and other denominations would do well to take this plan also.
For the grippe, coughs, colds, etc., use syrup of rock candy, honey and lemon, 50c. a bottle at Dinkins & Co.'s drug store.
Just at this season of the year it is a very hard matter to obtain news, owing to the fact that our people are mostly farmers, and this is the time of year when they are very busy. However, by constant publishing, we are enabled to give our many readers a good, wholesome newspaper. It is a source of gratification to us to know that our patrons are on the increase, thus showing that our efforts to get out a good paper are appreciated. Interesting reading matter will be found on our supplement sheet, instead of a whole lot of chatty puns, plate matter literature, and patent medicine advertisements. We ask our patrons to carefully look over the advertisements, as all of them represent first class houses, and when in need of an article to order or buy from them. We also ask our friends to send us the news from the various sections of the country. Let the outside world know what is going on in your community. It does good, it helps your community, and it helps us.

The Good Templars meet next Friday night.
The Manning Guards will attend the Columbia centennial.
The auditor informs us that more "additional" taxes were collected last year than ever before. The taxable property of this county will this year aggregate more than \$2,500,000.
Last Thursday night on the plantation of Mr. H. B. Tindal, near Summerton, the house occupied by Abram Pugh, colored, burned down, and the family barely escaped with their lives.
F. S. Smith, of Washington, has contracted to carry the mails one year from Silver to Panama, daily, for \$134.80; N. O. Earley, of Virginia, gets \$132 for carrying the mails daily from Fulton to railroad.
Mules and horses can be raised in this county as cheap as they can be bought, and the hundreds of thousands of dollars which annually go from here to Kentucky, Tennessee, and Virginia might be kept at home.
The people of Clarendon county make enough money, but the trouble is they spend too much of it in buying Western bacon, corn, oats, hay, wago, buggies, horses, and mules. Farmers should raise their own provisions and live stock, and buggies and wagons should be manufactured at home.
The Manning Guards will have an election of officers the 20th inst. They will also at that time vote for a lieutenant colonel and a major of the 4th regiment. Capt. A. Levi has been suggested for the office of major, and will probably be elected. He is well versed in military tactics, and would grace the office.
The execution of Edmund Holladay will take place in the jail yard on Friday the 24th inst. Arrangements will be made to have the hanging as private as possible, but owing to the situation of the jail and yard it will be a difficult matter to keep those that desire to witness it from doing so. The prisoner does not seem to be in the least cast down, nor to exhibit any fear for the fate that awaits him. His appetite is good, and occasionally he is heard to indulge in a hearty laugh. It may be that he has confidence in the efforts that some of his friends are making in his behalf, or that he is circulating a petition to the governor asking for the commutation of the sentence. But judging from the remarks made by Judge Aldrich in sentencing the prisoner we think that any hope of an interference by the governor will be in vain.
Co. H. 5th S. C. V., Attention!
From the following it will be seen that Mr. T. Adams Way has consented to write up Co. H. 5th S. C. V. The work will be well done, and we hope that all who can in any way assist Mr. Way, by furnishing him any information in their possession, will do so at once.
SILVER, S. C., April 3, 1891.
EDITOR MANNING TIMES:—As my highly valued friend, Mr. McDonald Farman, declined to write the history of Company H, 5th S. C. V., and the work has been assigned to me, would you give me space enough to invite all old surviving comrades to furnish me all such data in their possession, as would lead to a correct history of its general history, and so forth?
My connection with the company was of such limited duration, it would be unwise in me to begin so an important undertaking without such data.
Very truly yours,
T. ADAMS WAY.

County Alliance.
The County Alliance met in the court house last Friday, and was presided over by Hon. James E. Tindal, who had come down from Columbia the evening before. Many matters of interest to the farmers were discussed, and he who imagines that the power of the Alliance is waning counts without his host.
This county is practically a unit for the establishment of a State alliance bank in Columbia.
It is desired to build several ware houses for the storage of cotton, and they will possibly be built by September. The farmers this fall will probably combine in selling their cotton, and by offering it for sale in lots of several hundred bales expect to realize a higher price than when sold in the usual way.
The farmers are practically benefited by the alliance. They paid out better than usual last year, are able to get money and supplies on more favorable terms, and altogether were never more happily situated than at present, despite the low price of cotton.
Capt. D. J. Bradham was unanimously elected county lecturer, and he will before July visit every alliance in the county, and make a public address at each meeting. His appointments will be made known later.
At the close of the meeting Hon. Jas. E. Tindal made an interesting talk to the alliance, full of good, sound, common sense. He alluded to the fact that his term of office as president would expire with the next meeting in July, and that he having filled this office for two years was constitutionally ineligible to re-election. He urged that thoughtful attention be given to the selection of officers for the next two years.
The meeting was well attended, and all seemed to take great interest in the proceedings.

News Notes from Summerton.
SUMMERTON, April 7.—We have been having it pretty cold for the last three or four days, plenty of frost and ice. Potatoes and other vegetables have been nipped.
On last Monday night some sneak thief went into Mr. R. H. Belser's store while his clerk was gone to supper, and lifted his till to the amount of \$38. No clue as yet to the parties. This is the third time in the last year acts of this kind have occurred in the place, and as they are not taken to catch up with the thieves there is no telling where it will end.
Dr. H. C. DuBose, missionary from China, delivered a very fine and instructive lecture on China.
Mr. W. E. Richbourg's chicken house was burned down one night last week with twenty-five head of poultry consisting of turkeys, guineas, etc. People should be careful of their chickens, especially at this time of year when poultry is so hard to get, and not roast twenty-five head at one time.
The Baptists of this place will give an old folks concert sometime the first of May. The purpose of raising money to build a parsonage.
Foreston News.
FORESTON, April 6.—You know that Foreston has a high reputation for its morals and quietness which is seldom broken. They say variety is the spice of life. We had a little of the variety the other day. A man from the backwoods, whose first name was what once was a favorite drink, Tom and Jerry; his other name was the same that Noah's ark floated in. He accented a word here with a corn mill, saying to him: "My little boy took corn to your mill, and only got half back." The miller replied that he had better not send any more, and not to accuse him of stealing corn. He replied that he did not accuse him, but that his miller had taken it. The miller replied that he had too big a pile for them to steal from without going into his peck, and that he supposed his boy had sold it. He ranter of the church should know what every member is doing for the support of the ministry, and how much in all has been paid towards the pastors' salaries. Other churches and other denominations would do well to take this plan also.
For the grippe, coughs, colds, etc., use syrup of rock candy, honey and lemon, 50c. a bottle at Dinkins & Co.'s drug store.

Home Again.
"No place like home!" the poet sung.
With grateful heart and tuneful tongue:
"No place like home!" my tongue repeats,
Whilst heart responsive softly beats—
"At home, sweet home!"
Yes, home again! Here quiet reigns—
Not such as at Warsaw reigns,
But quiet born of joyful love—
And chants my soul as cooing dove,
At home, sweet home!
Yes, "home, sweet home," though humble, sweet!
From noise and strife I'd fain retreat,
And pass my days in calm content
On works of purest love intent
At home, sweet home!
God bless all homes, our land and friends,
So long's the sky above us bends!
Bless those near by! Bless those we've left!
In all we're best, of none best,
At home, sweet home!
Whilst some we leave, with some we meet;
To those farewell, whilst these we greet.
We love them all—the far, the near,
And for each one ascends our prayer
At home, sweet home!
If home on earth can be so sweet,
What joy must be when we shall meet
Around God's throne, and with that throng
Sound forth His praise with hark and song
In Heaven, sweet home!

Dangerfield, Texas, Mar. 26, 1891.

PROGRESS.
It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach, and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.
Silvery Budget of News.
SILVER, April 6.—Perhaps I worry your readers with scribbling. But just enough space this week that I might trouble your pen a little. They I know need recreation for you work them hard. It's so with all newspaper men, poor fellows.
Silver begins to look town like, improvements daily going on. Dr. Henderson's new and handsome residence has been completed, which adds much to the looks of that portion of the town.
The fine house of Mr. T. B. Owen will soon have the painters' brush. It is located on Main street, and gives Silver the advantage in looks over all stations from Vanees to Sumter.
Mr. A. W. Thames has lumber on the yard to remodel his dwelling. Such men deserve notice because they propose to make things comfortable for every individual who may come among us.
The prospects of building a Methodist church were never better. Our lady friends have the matter in hand, and they never fail in any good undertaking. The Sunday-school occupies a spacious place in front of the church. A sermon from the Rev. H. M. Mood on the morning of the 5th Sabbath, and a talk to the Sunday-school in the afternoon on temperance has put the ball in motion.
The Hon. James E. Tindal, secretary of State, passed through Silver to-day on his way to his home near Calvary. Mr. Tindal looks buoyant and hopeful. Clarendon is proud of her distinguished son.
Last Thursday Silver was invaded unexpectedly by Sumter's charming young ladies. Sumter's whole-souled Capt. Deigar, soliciting agent for the C. S. & N. R. R., was with the party. Dr. China and others made Silver one of the most charming days. A handsome group of young picknickers were seen. They seemed to enjoy themselves greatly, and returned to Sumter well pleased. The intendants and wardens of Silver are building a magnificent pavilion to accommodate picknickers who may chance to come among us during the summer months on excursion trips. We know no place which gives better inducements, no people more hospitable, no climate more attractive and conducive to young folks for pleasure.
The public highways are in a muddy and holey condition, but with the aid of the grand jury (the best we have had since the great war), we will bring things all right.
The foreman understands business. All honor to such a body of men. They are scaring the wits out of whiskey sellers.
The darkeys are on the war path fighting and stealing. Judge Mahoney to-day tried with changed venue a young quadroon. They were presented by the C. S. & N. railroad company for handling goods contrary to the usages and custom of the agent. The parties implicated are Robert Green alias Georgetown and Charley Connors whose noble lineage have all pretty much died in the penitentiary. The above were tried; verdict, not guilty. So the world moves.

There is a vast difference between

One is deceptive. Staple goods sold below cost to draw trade means "high tariff" on all articles of merchandise about the value of which nine-tenths of the people are not posted. "Bargains" usually mean that a large part of the
