W. E. JENKINSON CO.

Mrs. Louis Levi left this morning for an extend visit relatives in Sumter.

Mrs. D. Hirschman spent the past few days in Barnwell with her sister Mrs. Heiden.

The election commissioners can get the pay by calling at THE TIMES office after tomorrow.

Dr. C. B. Geiger has purchased a very fine automobile of the Pope-Hartford make. It arrived yesterday.

J. Ed Anderson was acquitted last week in Sumter for the murder of Policeman S. F. Hurst of Mavesville.

Mr. S. E. Metheny and family have moved to Summerville, and the Hotel Clarendon is now being run by Mr. C. F. Jenkinson.

Mr. W. T. P. Sprout of Foreston has gone to Seneca, and will be back the latter part of this week with a car load of fine milch cows.

We are the recipient from Mrs. Thomas Nimmer of fruit nuts and candy from Syria, he native land. We appreciate her kind thoughtfulness.

Now is the time to look after the purchase of fertilizer. If you contract now you can avoid the delay of shipments when traffic is congested on the railroads.

Cards are out announcing the coming marriage in the Methodist Episcopal church at Florence on 23rd inst., Miss Belle Haynesworth and Mr. Joseph Taylor Hudson.

Mr. W. F. Lyon one of our tobacco buyers has gone to his home in Durham N. C., and we hope he will return next season in good health and with a plethoric purse.

The demand for dwelling houses in this town continues to increase, and those owning desirable lots will not build because the value of the land is more than the rental income.

The train loads of bargains advertised in these columns by Jenkinson has brought good results, people from this and surrounding counties are daily visiting his store to make purchases.

The vote in this county being cast against biennial sessions is an indication that our people read and think for themselves, and are not easily caught by the economical clap-net of hobby-horse riders.

We were glad to see Mr. E. D. Hodgre on our streets last Monday, after his recent severe illness. Mr. Hodgre begs us to State that being ill prevented him from answering a number of letters relating to registration.

Venning the Jeweler has his cases filled with the prettiest lot of Christmas goods we have seen in town in years, just look what you can get for your friends to be married, or for a birthday or a Christmas present.

The whole County expects to do the State Carnival next week. Everybody is talking about going to see "Old Pa" in the great automobile race. He will show the youngsters what a man can do that has marrow in his bones.

The Paxville Missionary Society had an oyster supper last Friday evening and a meal contest. The supper turned into their treasury a nice sum of money, and Master Joe King, an eight year old son of Mr. W. M. King was the prize winner in the contest.

The local Woodman of the World are jubilant over their accessions during the month. They have received and accepted twenty-four applications, and have in sight many more. This institution is growing not only here but everywhere. Its purpose is noble, and its work good.

Again we would ask council to instruct the police to stop fast driving around the street corners, it is dangerous to pedestrians, and it is not doing any good. There is no necessity for people to go dashing at a rapid speed when turning a street corner, and it should not be permitted.

The attention of our legislative delegation is called to the necessity to have an act passed authorizing a new registration of voters in this county. The books of the registration officers have been handled roughly for a number of years, and in order that the records may be properly preserved we think a new registration should be ordered.

Arbor Day is to be celebrated at the Manning Memorial Institute next Friday afternoon and the children are making extensive preparations for it. It would be a thoughtful act if the children would name a tree for Moses Levi, and if one for each of the trustees. The exercises will begin at 12:30 p. m. An address will be delivered by Charlton Durant Esq. The public is cordially invited.

A party composed of Hon. C. M. Davis, J. D. Gerald, Willie Davis and others had made arrangements to take a duck hunt on Santee River, and among the articles they take along is a jug of tar. They say the jug is filled with tar, but nowhere in any of the books, or in history is there recorded where a State Senator carried tar in a jug when he went on a duck hunt. It frequently happens that it is not so, and the contents of a jug is "stuck," and it is possible that the Senator has every confidence in the capacity of the party, and the quality of the contents of that jug to guarantee that it will "stick."

The Sumter District Conference of the Woman's Foreign Missionary Society will convene in the Methodist church here Nov. 18 at 8 o'clock p. m. Mrs. Humbert, Mrs. Wait and Mrs. Darley will be here.

The ladies of the Presbyterian church are soliciting aid for the Thornwell Orphanage at Clinton. The committee, Misses Mayme Harvin, Octavia Dove, and Janie Ingram in a few hours last Monday afternoon collected nearly fifty dollars in cash and a lot of groceries, clothing, dry goods and other necessities for the children of this noble institution. The merchants and all others contributed liberally.

The town of Pinewood has exhibited evidence of growth by having a first class fire, just like other progressive towns. On last Thursday morning before day light, fire broke out in the store of R. L. Felder, and it spread to the stores of A. F. Stack, and Dr. P. M. Salley, consuming everything in the Felder store, and very little was saved from the Stack and Salley stores. The store and stock of goods belonging to the Levi Brothers of Sumter was badly damaged. The total loss was about \$12000, and only about 50 per cent insurance. Mr. Felder was in Manning last Monday, and he gives it as his opinion, the fire was the work of an incendiary. He says he expects to rebuild in January a brick store.

Col. W. A. Neal has brought to Clarendon a traction engine to sell to the county commissioners for road working purposes. The engine is to be given a fair trial, and if it does good work and is a money-saver, the commissioners will buy it. We are told that the engine and its equipment will cost \$2000, that if the county buys it, the miles will be sold, and the work on the roads will be entirely done by this engine. Supervisor Owens says that he has been testing the machine near Abolou, and so far he is satisfied it will be economy for the county to buy it. The expense of mules and feed will be done away with, and much time can be saved in the amount of labor, as the machine will do the work of 15 mules, and the cost of running it will be very little.

Acid Iron Mineral has more power to quicken hair, cure wounds, burns and old sores, blood-purifier. For man or beast. Sold by Druggists.

The election in Clarendon County last week demonstrated the fact that the people are not much interested in politics, and when they have something at home to do they will not put it aside to go to the polls. The vote for the State and County officers aggregated 1182 votes, and for the constitutional amendments considerably less. The vote for State and County officers was 1182. Constitutional amendments by precincts is as follows:

Table with 10 columns: Precinct, State Officers, County Officers, Constitutional Amendments, etc.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

Meeting Postponed.

The meeting of the congregation of the Presbyterian church, called to meet last Sabbath, to decide upon the matter of a new church building, was postponed until next Sabbath. A fair sized congregation was present, but it was desired to wait until those, prevented by the inclement weather, could be present and participate in this important business. A vote was taken of all those present as to their desire and every one voted as desiring a new building. Let all endeavor to be present next Sabbath.

Foreston News.

Editor The Manning Times:

We are all fellow-travellers on a journey to a far distant country. Each setting sun may be regarded as a mile-post on the way. For some the journey will be shorter than for others, but however short the distance travelled, all have many opportunities of cheering and helping way-worn, weary ones by a smile and word of encouraging action. We are assured that even a cup of cold water given to one of the least will meet with abundant reward. We will pass this way but once—there is no return from the journey. Let us, therefore, let us "do all the good we can, in all the ways we can, to all the people we can," and may the end of the journey find us in that better land, of which half the glories has never yet been told.

Mr. and Mrs. C. M. Mason received a telegram on Sunday, regarding the death of their son, Ceth, a student of Welsh Neck High School, at Hartsville. They started at once, reaching there about 11 o'clock, a. m. Monday, finding Ceth critically ill with pneumonia. He had the advantage of superior medical skill, and the careful ministrations of trained nurses, and is now thought to be doing well, slowly, but surely improving. Mrs. Mason is still with him, and as soon as practicable will return home to recuperate. Ceth is a good boy, and highly esteemed by all who know him. We sympathize in his suffering and wish for him a complete and a rapid recovery.

Mr. C. S. Land was in Manning Monday.

Tuesday was election day throughout our great and extensive county. As usual everything passed off very quiet in Foreston. While not what we wished for, the result of the election for President was just what we expected.

Mr. Will Brunson returned Wednesday to his home at Greelyville.

Messrs. Burnet Land and Marvin Wilson went to Manning Thursday.

Mrs. Almira Canvey, who for the past two years has been with her children in Georgia and Florida, arrived here Thursday visiting her son, Mr. B. O. Canvey.

Mr. Flippin Wilson, of Wilson's Mill, was in town Friday.

Mr. Broadway, of Bradhamville, was here one day last week.

No doubt everybody knows as much about the cold, dark, gloomy, windy, rainy, stormy, disagreeable weather we have had as we can tell them, so will not charge on the subject.

Mr. Butler left here Saturday night for his home in Orangeburg.

Our budget of news is small this week, but interesting events cannot always be occurring in a place the size of Foreston. NEMO.

Acid Iron Mineral cures all skin diseases, Has cured dozens of persons standing and is king of germicides. Sold by Druggists.
