In Four Hand-writings.

A Stuffed Pelican.
M. D. Greenberg, of the "Old Moore" stand has just received a very handsome specimen of taxidermy in the form of a mounted pelican, which Mr. Greenberg purchased of a farmer last winter. The pelican was killed on the Cimarron river north of town last winter. Prof. Stevens of the Alva normal mounted the bird, which Mr. Greenberg has placed in the show window at Harrison and Division streets.

Was Not Arthur Sanders.
Sheriff L. E. Martin, of Lincoln county is here today and says that the man under arrest at Mare Island, Cal., was not Arthur Sanders, the man under indictment in Lincoln county for the murder of his brother-in-law, John E. Howard. Before leaving for California, Martin received a telegram from Mare Island that Virginia authorities had arrived and identified the man under arrest as one wanted in Virginia for a murder.

Denied Habeas Corpus.
Judge Rindford this morning denied the writ of habeas corpus asked by Elias Peckett, alias "Cy Papacy," who was brought here June 26th from Okla. Ark. by United States Marshal W. P. Warner, charged with the

murder of "Walter, the Kid" at Pawhuska, in 1906. Judge Rindford held that the commitment issued by the United States commissioner at Omaha was sufficient to hold Peckett, who claims that the Federal authorities here have no indictment or warrant against him.

Census Work Delayed a Week.
The necessity of making a new census district map of the two territories, following the arrival of Acting Supervisor William C. Hunt and his corps of workers in Oklahoma, has delayed the census taking fully a week, as well as the fact that the reconvening of the constitutional convention in the Guthrie city hall delayed the commencement of work, as the city hall had been secured for census headquarters. Prior to coming to Oklahoma, a man outlining census districts, had been prepared in Washington, but this was found to be defective after arriving here, and a new map was necessary.

Difficult Path to Matrimonial Bliss.
A couple from the country that came to the capital city yesterday afternoon to get married, caused much amusement on the streets. They went to the court house building which is nearing completion and tried to find some one there that would marry them. Thinking perhaps that they had the wrong building, they went across the street to the Masonic Temple, but we were told they could not marry there. They had about given up trying to get married and started homeward with heavy hearts when they met a friend who took them to Probate Judge Strawn's office, and that accommodating gentleman took the happy couple up in short notice. There gave the names of Grover Butcher, of Canfield, and Naomi Branson, of Crescent.

House Very Scarce.
Never in the history of the capital city have houses been so scarce as they are at the present time. It is almost impossible to get any kind of a house to rent. Generally in the summer months there are vacant houses because over a hundred families that moved into the city from the country in the fall to send their children to school, go back to the farm in the spring. Just now there are twenty-eight families moving here from Enid on account of the Denver, Enid and Gulf shops being moved here from Enid, and because of this being headquarters for all of the train crews on that road. Yesterday some of these families were out looking for houses, but scanned the town in vain. Most of the city could realize a big income if they would erect modern dwelling houses for renting purposes as there will be a big demand for houses this fall on account of families moving in from the country and by the many families that will locate here when statehood is assured.

OKLAHOMA CATTLE IN GOOD CONDITION.
The movement of cattle pastured in the Osage nation to the Eastern market is beginning at least ten days

earlier than in any previous year, and the Midland Valley alone is expected to handle 2,000 cars of cattle from Osage nation points for Kansas City, Chicago and St. Louis. The early movement is due to the fact that the cattle have fattened so rapidly and are now in so much better condition than in usual at this time of year. Ruhs have been plentiful, the grass abundant and the stock from Oklahoma pastures this year will be generally strong and fat. Cattle shipped from Texas a few months ago, which were almost too weak to stand, have fattened up and will now grade well. The Midland Valley business will come from Pawhuska, Meyers, Hardy and Foraker, with the largest amount from the last two named.

WHY AN IRISHMAN IS NOT A SCOTCHMAN.

Noted Dr. Parkhurst to Be Chautauque Attraction in August.

Dr. M. M. Parkhurst, the noted all time, will be at the Epworth Chautauque two days. It would be hard to place on the program a man of greater power and magnetism as a popular lecturer as well as a great divine. It is doubtful if there is another man on the lecture platform that can equal him in the presentation of the "Great World Powers of the 20th Century." Having traveled most extensively among the people of whom he speaks, he gives information first hand, and propounds with confidence. His grasp of thought is remarkable, and his memory wonderful. His lecture on "Money Troubles of the Wide, Wide World," is a remarkable presentation.

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—well, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol Dyspepsia Cure

Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

Dr. Parkhurst is a native of New York state, holds degrees from several of the leading universities in America, has held some of the largest pastorates in this country and is perhaps the most widely travelled clergyman in America. He is popularly known as "The Original Globe-Trotter." More than twenty years ago, he made a trip around the world, visiting all the principal countries in Asia, Africa, and Europe. Since then he has made two extensive lecture tours in Europe, occupying more than two years, speaking in nearly every principal city in England, Ireland and Scotland. Dr. Parkhurst has been sought for by the largest churches all over the country where he has returned year after year. At some assemblies he has appeared for ten years in succession.

He will appear in Guthrie at the Epworth Chautauque the 15th and 16th of August. At one of these dates he will deliver that great lecture, "Why an Irishman is Not a Scotchman." His delivery is Scotch and his character is inflexible.

Brakeman Run Amok.

A thousand persons at Pond Creek witnessed the antics of a Rock Island brakeman Saturday afternoon. He had been without sleep for 60 hours, and had drunk a lot of "White Line whiskey," to keep going. While helping to lift a heavy piece of wreckage to the wrecking train, he became temporarily insane and driving a pistol he ran the citizens about town threatening to shoot them. He was finally captured by the sheriff. He lives in Caldwell and had been sent to Enid on a wrecking train.

Highest Yield 34 Bushels.
The best wheat crop in Woodward county is now being threshed, and is averaging 34 bushels per acre. "The McAlister Capital thus plainly explaining the attitude of the fight on the constitution."

"The fight against the constitution now being made by the Republican leaders is because of its provisions relative to corporations and not of the 'errandman,' the soldiers' vote, that relating to taxation, or anything in the world but the proposed control of corporations when they shall exceed their legitimate purpose and become trusts and monopolies. It is simply a fight between the people and the trusts with every one of the Republican leaders on the side of the trusts. Protective and prohibitive tariff laws enacted and maintained by the Republican party made possible the trusts in power by the illegal donations of campaign funds, so any effort toward the enactment of laws which shall hinder or seek to control the trusts in their gigantic robbery of the people, must be stopped if it rests with the power of the Republican leaders to do it."—Chickasha Daily Express.
