More Than Three for One.

The late John Davenport, Auditor of the New York City Board of Education, held policy No. 3172 in the Mutual Life Insurance Company of New York for the sum of \$3,000. At his death that "grand old company" paid his heirs the astonishing sum of \$9,911, or \$31 more than three times the face of his policy. No other company on earth can show such a record in a single instance at any period of its history. The Mutual Life shows such records every year.

Death to the Hogs.

D. Y. Hadley received the following interesting communication this morning from a number of ward 2 property holders. Mr. Hadley: A number of property holders living in the vicinity of the First, Second and Park streets wish to inform you that you have to report on Park street who are keeping hogs; and the stink from them has made sickness in this neighborhood. We have notified the board of health for the season, and no notice has been taken of our request; so we appeal to you. If something is not done immediately to get rid of this stink and pest, we will take it into our own hands, and make a clean sweep of the logs and their owners.

Master Keyport Brady, aged four years, on Oct. 1 Mrs. Virginia Brady of this city was sent to his grandfather, Charles A. Wright, 1018 South 3rd street, Leavenworth, Kan., today over the Santa Fe, to remain all winter. The young man was suitably tagged and fixed out with descriptive material, and the express company will see him safe and sound in Leavenworth.

El Paso's population is likely to have an increase before long, as people in San Antonio, Galveston and Houston who are frightened at the yellow fever, are signifying their intention to come to this city to remain until the scare is over.

The Santa Fe was one hour late today, owing to waiting for connection with the circle railroad at Denver.

Luetgert's Defense.

CHICAGO, September 24.—The prosecution in the Luetgert case professes to combat the evidence in which witness Scholey identified the woman seen in Kenosh, Wis., May 3rd, as Mrs. Luetgert. It is intimated they may produce this woman whom defense's witnesses took for Mrs. Luetgert.

CHICAGO, September 24.—Mrs. Emilia Kaiser gave some astonishing testimony. She visited the Luetgert home on the evening of May 1. She established the fact that the couple could not have had quarrels in the short time between 9:30 and ten when Gottlieb Schimpke swore he saw them go into the factory. Franz Schieme, who knew the Luetgerts for twenty years, swore he saw Mrs. Luetgert on the road near his farm May 5.

DENVER, Sept. 24.—The city is full of notables this week. Secretary of the Treasury Gage is visiting Boulder today. Comptroller Eckels was banqueting by the city bankers last night. This morning the visiting notables are city sights. Senator Stewart of Nevada is also here. He is not at all averse to boldly denouncing the financial policy of Gage and Eckels. The three celebrities are stopping at the same hotel.

Anti-Trust Law.

OMAHA, Sept. 24.—Suit has been brought by the United States against the Omaha Live Stock Exchange to change all its members under the anti-trust law. The effect of the suit, if decided against, is to perpetually restrain the Omaha Live Stock Exchange from carrying on its business. The suit is but one of many to be filed at once in all the states.

Morocco Gives in.

WASHINGTON, Sept. 24.—The state department has authorized the emphatic denial of the statements published this morning that the United States would send a fleet to Morocco. It is declared explicitly that the differences heretofore regarding status of Americans has been adjusted for some time, and there is no likelihood of its reappearance.

Taxing the Poor.

NEW YORK, Sept. 24.—The grand jury has been asked to indict the three tax commissioners of this city for perjury. Another Mine Horror.

MARION, Ill., Sept. 24.—An explosion occurred in the Williamson County Coal company's mine at 7 o'clock this morning. Three men are dead, and thirteen wounded have been taken out. Six others are missing, and undoubtedly killed. The mine is on fire, they cannot be rescued. Several of the wounded are so severely crushed that they cannot recover. The mine is located four miles north of here. There is an unusually large amount of natural gas in the mine. The explosion was no doubt caused by this gas taking fire from the miners' lamps as they descended this morning. The loss of life is not so heavy owing to the fact that most of the American miners, or more than half the force take holiday today to attend the county fair. Most of the men killed and wounded are Susquians. It is impossible to get their names at this time. The force of the explosion was very heavy, and blew mules over 200 yards along the main entry, and into the mining dump at the bottom of the shaft, which is one hundred and eighty feet deep. One report says that only four men are imprisoned, while another one puts it at eleven. Great blame is laid against the managers of the mine for not adopting safer means of controlling the gas. Only a short time since the state inspector of mines, examined the mine, and the managers were ordered to place the gas under better control, or the mine would be closed because of the great risk for men.

Senator Mark Hanna has absolutely promised to speak and so has the idol of Kansas republicans James R. Burton, Congressman Rollin P. Mabony, of Buffalo, and Congressman Lacey, of Iowa. President McKinley, however will not be able to present although he regards this as one of his pet organizations outside of Ohio.

Gen. A. J. Sampson has been appointed minister to Ecuador, and he will be located at Quito, 200 miles from the seaport town of Guayaquil. The elevation is 9,520 feet, making it one of the highest in the world. It will be a difficult place to locate owing to the high atmosphere. Quito is also a hazardous place to live owing to the frequent earthquakes. In 1797, 40,000 of its inhabitants were killed at one shock, while in 1859 three million dollars worth of property was destroyed. The city has 80,000 inhabitants, no railroad and it requires fourteen days to make the trip to the seacoast. Its cost is \$14 to transport 250 pounds, so the general should not carry too much luggage.
