G. O. P. in Need of S. S. S.-Senator Plumb' Attempt to Forbid Liquor Traffic in the Senate Wing of the Capitol-

Fun for the Democrats. Special to the Gazette.

WASHINGTON, Aug. 27 .- There was a monkey and parrot time in the house today when two members actually had a personal altercation and the lie was passed. The participants were both Re-Wilson of Washington Beckwith of New Cannon had applied and of New Jervery coarse remark to McAdoo of New Jersey, saying the latter was made of wind and drew a vulgar comparison that would not appear well in print. Mason of Illinois, Cannon's coleague, took him to task about the language used, and said that had (Cannon's) family been in gallery he would not have to use such language. dared Mrs. Mason was in the members gallery. Cannon told Mason this was a lie. Mason then called Cannon a d-d liar and tramp. Beckwith and Wilson were seated near and took part in the controversy, one siding with Mason the other with Cannon. The lie passed between them in the heat of the discussion and they arose and

Williams of Ohlo attempted to quell the disturbance, when Beckwith turned on him and was about to thrash him. when the sergeant-at-arms appeared with the mace and the melee was stopped. The excitement was intense and the entire house was in turmoil. No such incident has been witnessed for years. It was a most disgraceful scene, and clearly shows how deep is the breach in the Republican party. In fact, the g. o. p. is in bad odor among its own members. The Democrats greatly enjoyed the unenviable position of the Republicans to-day and jeered the majority unmerci-Bad blood is apt to break out at any time and a repetition of the scene to-day may occur.

More Spite Than Morality.

Special to the Gazette. WASHINGTON, Aug. 27 . - Senator Plumb has at last got up his resolution instructing the senate committee on rules to report a rule forbidding liquor traffic in the part of the capitol controlled by the senate, and it was this afternoon referred to the committee on rules. Whether it will ever be heard from again is the question, but if it is not it will not be for lack of prodding by its author, who declares he is thoroughly in earnest about It is suspected that Plumb was not actuated in this matter by consideration of pure morality in the abstract, but he aimed his shaft especially at one of his associates in the senate chamber, who, in row's Yellow Front Drug Store, 512 moments of mental stimulation, by potations, has had produced habit of "turning down" free-speaking Kansan with considerably more sharpness than necessary. As a matter of fact, no rule such as is expected to be forthcoming as the fruit of this resolution will put a stop to convivialism in the senate any more than elsewhere. It is to the credit of the members of that body that drinking to excess is rarely to be observed among them. Their habits are usually very decorous in that regard, and a few ex-

AN OLD TEXAN DEAD.

Col. John M. Seguin, Noted in Texas' Early History, Dies in Mexico-

Special to the Gazette. AUSTIN, TEX., Aug. 27 .- Governor Ross was in receipt of a dispatch from Mrs. Seguin of Nueva Laredo, Mex., announcing the death of her husband, Col. John M. Seguin, in that city. The fing was in consequence ordered at half mast on the capitol. Col. Seguin was a noted character in the early history of Texas. He was a son of Erasmo Seguin, known to all old settlers, and who lived twenty miles below San Antonio. The family gave the name to the present town of Seguin, in Southern Texas. In the Texas revolution John M. Seguin was one of the immortal garrison of the Alamo, but a few days before the massacre he was sent on detached duty, and thus escaped the fate of Bowie, Crockett and their doomed comrades. Capt. Seguin commanded a company subsequently at the battle of San Jacinto, where a territory larger than the empire of Germany was conquered from the gov-ernment of Mexico under Santa Anna.

The Smallpox Near Canton

Special to the Gazette. CANTON, TEX., Aug. 27,-Dr. M. F. Wakefield, the attending physician in the quarantined district six miles east of Canton, came in this morning and reports another case of smallpox in the infected district. The patient is a lad fourteen years old, named Clarence Par-

nell. The doctor says the boy was thor-

oughly vaccinated and hopes he will pull through all right, but his symptoms are bad. He has broken out like young Rosman, who died. This has created a new excitement among those who have been doubting the reality of the disease. The quarantine regulations will be strictly observed for a couple of weeks vet at least.

LOCALETTES.

The young people of the First Methodist Episcopal church, South, with their young friends, are requested to meet this evening at 8 o'clock at the parsonage, 507 Jones street.

C. H. Richmond is the name of a pedestrian who hails from classic Boston and who arrived in Fort Worth yesterday with the intention of interesting the go-as-you-please and heel-and-toe gentleman of the city in a grand walking match. He will probably give an exhibition and be a leading attraction at the picnic on Monday.

The following gentlemen will be the delegates from Fort Worth to the state Republican convention which convenes in San Antonio next Wednesday. They will start to San Antonio on Monday: Judge N. B. Moore, John L. Ward, E Mont. Re. y., M. C. Hurley, J. N. Deihl, G. W. Gillespie, Judge J. E. Martin, J. J. Putman, J. C. Martin and Dr. I. M. Darter.

The Fort Worth gun club was organized last night at Judge Holland's office under auspices which guarantee its future success. There were a large numof enthusiastic gun men on hand to become members, and promise was held out that ere long the club will be the largest and most prosperous of its kind in the state. Some of the members are anxious to hold a shooting tourns. ment in this city this fall, and probably ere long steps will be taken to that end.

Mansfield people who were in the city yesterday report that an era of improvement and progress has struck that enter-prising town. Messrs, Pyles and Morrison and J. W. Squires have broken dirt brick building which when for n. building 25x80 will be quite an attraction to the city. In a few days the foundation will be laid for a college as the necessary subscriptions have about been raised. The handsome \$3500 residence of Dr. J. T. Stephens is rapidly nearing completion.

The Bethel mission and the Y. M. C. A, are taking great interest in the movement against variety theaters, which was inaugurated on a wholesale scale in the city council by the presentation of Mr. Armstrong's resolution; and the two organizations named, while not claiming victory for glory won, are pleased that the outcome was as they desired. And now they propose to enter actively into the contest. They will to-day or to-morrow appoint committees to circulate a petition for signatures favoring the Armstrong resolution, and next Sunday they will endeavor to have the various churches of the city appoint similar committees, that the whole city may be canvassed. want to get 4000 or 5000 names to the

Vein Now Being Developed in Coleman County-

Col. Andy J. Chambers has just returned from a trip through the eastern portion of Coleman county, and brought with him specimens of coal that is now being mined at different points near the line of the Santa Fe railroad. To s GAZETTE reporter Col. Chambers stated that the vein from which the specimens he showed were taken was one of the finest he ever saw in Texas, and that the supply of it seemed to be inexhaustible.
"The vein of coal," he said, "as far

as it has been traced runs from several miles north of the eastern line of the county towards the southwest to and across the Colorado river near the mouth of Bull creek. The first shaft that I visited was that of Huffman & Hall at the upper end of the vein. This shaft is now down sixty feet and a seventeen-inch wein of fiint coal has been struck, and great quantities are being taken out and hauled to Coleman City. Further down there has been another shaft sunk and an eighteen-inch vein struck, and it is said that in a well that was boxed the drill passed thirty inches through coal The Pueblo shaft just across the Colorado river in Concho county is down eightytwo feet and has struck an eighteen-inch vein of coal.

"I have tested this coal and find it as good as the Richardson, the Victor or the McAlister article; it burns freely and leaves nothing but ashes behind. There is no doubt that this section of country has an inexhaustible supply of coal of superior quality, and when the railroads strike the iron fields of Llano county, which they will in a short time, this coal will be used. " "How will it be got to the iron works?"

"The railroads will build spur tracks to the mines which are too valuable to remain idle or undeveloped. The Santa Fe road crosses this bed of coal just a little south of the center of the eastern line of the county, and a few miles below the Huff an & Hall shaft. That the mines will be fully developed I have no doubt, and when they are Coleman county will boom for a certainty. have seen no Texas coal equal to and it is there in untold quantities. There is but little slate or sulphur in it, and it is bound to be popular. A railroad from Fort Worth penetrating this section would solve the fuel problem for all time to come.

THE SAGE OF SEGUIN. Special to the Gazette.

SAN ANTONIO, TEX., Aug. 27 .- If the reports which reach San Antonio are reliable it appears very probable that the Hon. L. W. Moore will be retired to private life this year and ex-Governor Irelaud will be sent in his stead to represent the Eighth disstead trict in congress. It will be remembered that early in the campaign Judge George McCormick started in on a right lively race against Mr. Moore. Quite a number of countles instructed for McCormick; others have given no instructions, while about one half of the counties in the district have instructed for Moore. Judge McCormick withdraw from the contest several, weeks ago without assigning any cause for such action It is now learned that McCormick entered the race solely for the purpose of solidifying the opposition to Moore in fa-yor of Ireland. The Farmers' Alliance left his home suddenly. From letters it has always supported Governor Ireland in every race he has made, and supporting with splendid prospects, it is said, of securing his nomination. If this is accomplished the exgovernor will make a formidable candidate for the seat to be made vacant by

Senator Reagan two years hence. MISSOURI REPUBLICAN CONVENTION. St. Louis, Mo., Aug. 27 .- The Republican state convention to be beld in Jefferson City will open to-morrow morning at 10 o'clock. Candidates will be nominated for associated justice of the supreme court, railroad commissioner and superintendent of public schools.

A STRANGE CASE.

An Old Man Leaps from an Express Train-His Little Daughter Follows Him and Both are Killed-

PHILADELPHIA, PA., Aug. 27 .- Among

the passengers on an early express train

from this city for New York this morning was a well dressed old man who was accompanied by a little girl. Just before the train reached Holmesburg, a way station about ten miles from this city, the old gentleman, arising from his seat, went forward, and opening the door, stepped to the pistform, and although the train was running at a high rate of speed, he jumped off. The little girl, who had been watching, saw him jump, and before the passengers realized what she intended to do, she had run to the front of the car and sprang after him. The train was stopped and backed to the spot where the two had jumped off. The old man was found lying beside the track dead and the girl was stretched insensible a short distance from his body. The body of the man and the little girl were placed upon the train and brought to this city and both were taken to a hospital. When she recovered consclousness she said that the old man was her father, that his name was Stephen Beck, that her name was Lela Beck, that they lived in St. Clair county, Iil, and were bound for Hamburg, Germany On the body of Mr. Beck were found two checks of a St. Louis bank for 12,000 marks and \$85 in money. The child died soon after boon.

AN INVESTIGATION . PHILADELPHIA, Pa., Aug. 27.—Lieut. Dungan of the Fifteenth police district made a minute inspection of the dead man's effects, and in his report to the was learned the deceased had been held in \$100 bail for felonious assault upon the little girl, and he had gluen a check to his bondsmen to cover the amount and then prepared to fiee the country. He had naturalization papers dated August 1, 1890. The lieutenant states that a strong smell of whisky was noticeable on the corpse, and he thinks he was intoxicated when he leaped from the train. Whether liquor had produced a mania that led the man to the rash act or whether he became suddenly insane and imagined the Illinois authorities were chasing him it will probably never

be known. Prof. Hall Returns. Prof. J. R. Hall can be found at his studio (beginning to-day) from 10 to 12 for the enrollment of pupils and lessons may begin September 1.

H. N. CONNER & Co., No. 207 Houston street. THAT HOT WELL.

Further Particulars Concerning the Phenomenon at Goodland, Choctaw Nation. Special to the Gazette. Paris, Tex., Aug. 27 .- Judge Durant

of the Choctaw nation, who brought the first report here of the hot well near Goodland, was in this city again yesterday and states that the well continues to be a mystery and terror to the natives. It is a veritable hot air geyser for a period, then there will be no manifestations and the air in it is at a normal temperature, and then will come a blast of hot air completely filling the well and scorehing any combustible article it There does not seem to be any odor, and no flame or smoke is perceptible, only a sudden flow of dry, intensely hot air. Armfuls of light material have been thrown into the well only to be violently ejected when the geyser effort is made. Judge Durant states that no accurate note has been kept of the phenomenon, or any investigation made, date. Several gentlemen speak of going over to investigate. It is not believed that natural gas has anything to do with the matter, as it would produce visible combustion.
