

COUNTY POINTS.

ORANGEBURG.

A few cases of pink-eye in this vicinity.

Alexander True was visiting relatives at Dover last week.

John Ford, of Maysville, was visiting Thomas J. Heflin, of this place.

Miss Linie Parker, a charming young belle of this vicinity, who was visiting relatives at Wilson Bottom, has returned home.

Mr. West and wife, of Bourbon county, were visiting the family of John Holliday last week.

Miss Mollie Chandler, of Millwood, is the guest of Mrs. Frank Parker.

Jerome Mayhugh purchased of Mr. West last week his farm containing forty acres, for \$1,400.

The Harrison brothers raised on six acres of ground this year nine thousand pounds of tobacco and sold it for \$16 a hundred.

Ed. Ross, of Covington, is visiting his father Mr. Thomas Ross, of this place.

Miss Lucy Bullock has returned home from a visit to relatives at Winchester.

We are glad to see our old friend J. L. Bullock out again after a spell of neuralgia.

There was a social gathering at Mr. G. Turner's Tuesday night of last week, where there were sixty young ladies and gents present and were furnished music by Orangeburg and Summit Station string band. Also, a dance at Capt. Wm. Corryell's Friday night of last week where an enjoyable time was had. DAN.

TWO LICK.

J. D. Insko is sick with malarial fever.

Mrs. Nannie Berry, who is visiting at Wesley Woodward's, is sick with malarial fever.

Elijah Woodward is quite sick. He has been in very bad health for some time.

Wm. Woodward sold seven head of young cattle to Coughlin & Dickson, for \$200.

Misses Maggie Insko and Annie Williams, two of our fair belles, have been visiting in Germantown for a week past.

D. R. Morgan will move to Morefield, Nicholas county, as soon as his school is out.

J. W. Case will occupy the house vacated by Mr. Morgan.

J. D. Woodward, of Kentontown, Robertson county, will move on Asahel Woodward's place.

Rev. H. C. Northcott will begin a series of meetings at McKendrie Chapel next Sunday.

No report of sales to report this week. What is the matter with the merchants? Are they "friz" out.

If we can't have a turnpike why can't we have a county road and a bridge across the North Fork? Will the county build a bridge? This part of the county never has received a cent from the county, and we pay tax year after year for improvements in other portions of the county. We ought and should receive the appropriation for a bridge. We hope this matter will be attended too. HOMO.

A Vaccine Factory at Greenwich.

Probably the first vaccine factory established in this country is in a barn in the outskirts of the village of Greenwich. From this barn vaccine matter is sent to Japan, Europe, and all over the United States. Business in quills here has been very brisk this winter. The first calf was inoculated from vaccine matter brought from Europe. It was not until they had experimented a number of times that the vaccine took, and from this calf it was given to the next and so on for twelve years to the present time. The calves are in most cases hired from the farmers. The operation does not injure, but, on the contrary, they are said to be benefited by it. They do not suffer any more pain than a person who is vaccinated, for the process is the same in both cases, except that two or three hundred incisions are made on the calf instead of only one. There is a cow in the village which is said to be the animal which was first vaccinated twelve years ago.—New York Sun.

New York Weekly Herald

ONE DOLLAR A YEAR.

The circulation of this popular newspaper is constantly increasing. It contains all the leading news of the Daily Herald and is arranged in handy departments. The

FOREIGN NEWS

embraces special dispatches from all quarters of the globe. Under the head of

THE SUN.

NEW YORK 1882.

The Sun for 1882, will make its fifteenth annual revolution under the present management, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic depraved and virtuous, intelligent and obtuse. The Sun's light is for mankind and womankind of every sort, but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.

The Sun of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconventional way all the news of the world, omitting no event of human interest, and commenting upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of the Sun.

It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modelled after the Sun. Every important journal already existing has been modified and bettered by the force of the Sun's example.

The Sun of 1882, will be the same outspoken, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with the Sun. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhara.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of the Sun's political course.

The Weekly Sun gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of the unequalled merit, full market reports, and a liberal proportion of literary, scientific and domestic intelligence complete the Weekly Sun, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like the Sunday Sun, each number of which is a Goldmine of interesting literature, with the poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little?

If our idea of what a newspaper should be pleases you, send for the Sun.

Our terms are as follows.

For the daily Sun, a four-page sheet of twenty-eight columns, the price by mail, is 55 cents a month, or \$6.50 a year, or including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7.50 a year, postage paid.

The Sunday edition of the Sun is also furnished separately at \$1.20 a year, postage paid.

The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.

Address L. W. ENGLAND,

Publisher of the Sun, New York City.
