## "Clincher" Paint

We know a paint which holds to the wood like a driven nail. Seasoned lumber is porous. The pores are the empty sap-cells. White lead paint, which dries on the wood in the form of a solid, elastic film, fastens into these pores, and the whole coat of paint is actually riveted like armor-plate to the surface it decorates and protects.

Phoenix White Lead  
(Dutch Boy Painter Trade Mark.)  
and Pure Linseed Oil.

Take the paint that spreads into a solid body. It becomes a part of the wood itself—an outer layer that preserves the life of the lumber.  
We sell it as well as other painting requisites. Come in and have a talk with us about painting.

## See that joint!

THAT patented joint has revolutionized the whole business of building silos by making it possible to construct a perfectly solid stavesilo of any desired height. When put together with a little white lead at these joints, a two-piece stave

## INDIANA SILO

is as good as if it were made of one-piece staves, and very much less expensive. There is no metal at these joints to become corroded by the acids and no outside moisture can collect in them to rot the wood. This joint adds years to the life of your silo and many dollars to its value.

We have a plan by which you can own an Indiana Silo and let it pay for itself out of what it saves for you on next winter's feed bills. Give us a chance to explain it to you.

### NO DIFFERENCE

The Proof Is Here The Same As Every-where.

For those who seek relief from kidney backache, weak kidneys, bladder ills, Doan's Kidney Pills offer hope of relief and the proof is here in Lancaster, the same as everywhere. Lancaster people have used Doan's, the kidney remedy used in America for fifty years. Why run the risk of dangerous kidney ills—fatal Bright's disease. Here's Lancaster proof. Investigate it.

W. M. Zanone, Campbell & Crab Orchard Sts., Lancaster, Ky., says: "My kidneys were disordered and the kidney secretions were irregular in passage and contained sediment. I had pains in my back and sides and when I stooped, I had difficulty in straightening. Finally, I used Doan's Kidney Pills and they completely relieved me."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Peevish, ill-tempered, fretful children, who toss and grind their teeth, with bad breath and colicky pains, have all the symptoms of having worms, and should be given Kickapoo Worm Killer, a pleasant candy lozenge which expels worms, regulates the bowels, tones up the system, and makes children well and happy. The Supremacy of Verse.  
Gray's "Elegy" was not much esteemed by its author, who in one of his letters said that "the public would have received it as well had it been written in prose." The poet was a poor critic, for the third line of the first stanza achieves the supremacy of verse. There can scarcely be another to equal it in English literature. "The plowman homeward plods his weary way." Now, that line is such a supreme verse that you may recite it this way and that and it is still as good as ever:

The weary plowman homeward plods his way.  
Homeward the weary plowman plods his way.  
Weary, the plowman homeward plods his way.  
The plowman, weary, plods his homeward way.  
Homeward the plowman plods his weary way.  
The plowman plods his weary homeward way.  
And so on. But if it is not poetry it is the supremacy of verse.—London Chronicle.

### The Split Log Drag.

The split log is due to the ingenuity of a Missouri farmer, who, to improve the condition of the highway between his farm and the neighboring village, devised a rude contrivance to smooth the rough places and round up the surface from the ditch to the center so as to drain off the water. This device was most simple since it consisted of a log split into two equal parts, with a few braces between them and a chain by which the horses hauled the drag. It was tried after a rain when the road was soft, and it worked so well that its fame soon traveled far and wide. This was the beginning of the split log drag, the improved form of which any farmer can make in a short time. It has revolutionized the work of maintaining dirt roads, work which had always been expensive and ineffective.—Harper's Weekly.

### Fried Salt Herring.

When Kipling wrote about east and west never meeting he might, with almost equal truth, have made it north and south. England and Scotland have their own national ideas, particularly about cookery, and they won't mix. North of the Tweed it is rare in the extreme to find a man or woman who will eat eels, and south of it haggis has never succeeded in making itself a popular dish. Then there is salt herring. I heard lately of an English lady resident in Glasgow who went home to London on a holiday, taking with her, as a distinctive Scottish delicacy, a keg of Loch Fyne herring. To please her the Londoners tried to eat them, boiled, as they ought to be. But it was no good. They wouldn't go down. So after that they had them fried, and I understand the keg was finished.—Glasgow News.

### On a Needle Point.

Indirectly Pasteur solved the famous medieval problem. "How many angels can stand on the point of a needle?" Sir W. Crookes said that altering the word "angels" to "molecules" he had found that of one of the deadliest diseases that had ever scourged mankind 500 of the malevolent microbes—veritable devils—could, without overcrowding, find place on the point of the finest needle.

### Not Worthless.

Patience—Why, her husband is absolutely worthless. Patience—Oh, you shouldn't say that! You know it has been proved that a man weighing 150 pounds contains enough grease to make seventy-five candles and a pound of soap.—Yonkers Statesman.

### A Real Hero.

From boyhood every man wears in his heart the image of his ideal woman. Then he marries the substitute, eats her burnt biscuits and says noth- ing.—Florida Times-Union.

### Simply Didn't Do It.

Mother—Now, Willie, tell me the truth. You forgot to wash your face this morning, didn't you? Willie—No, mother, honest, I didn't forget.—Judge

## Your confidence is what Studebaker seeks to keep

Possessing this confidence, we have never tried to produce a cheap wagon. We could, but we don't dare try the experiment. Our constant aim has been to produce the best wagon.

And in living up to this highest standard, we have won and hold—the confidence and good-will of hundreds of thousands of farmers all over the world.

Studebaker wagons are built to last, to do a day's work every day, to stand up under stress and strain and to make the name Studebaker stand for all that is best in vehicles.

Don't accept any other wagon represented to be just as good as a Studebaker. The substitute may be cheaper, but it isn't up to Studebaker standards, and you can't afford to buy it.

For business or pleasure, there is a Studebaker vehicle suited to your requirements. Farm wagons, trucks, business wagons, surreys, buggies, runabouts, pony carriages—each the best of its kind. Harness also—of the same high Studebaker standard.

## MASTIC PAINT

### A Lesson in Real Economy

Take two houses—both alike—  
Spend about \$50 to MASTIC-PAINT one—  
Let the other go unpainted—

Offer them both for sale—  
You'll wonder why the unpainted house finds no buyer at even \$500 less than the MASTIC-PAINTED house will bring.

At the beginning both houses represented equal value.

**The Lesson:** A few gallons of MASTIC PAINT properly applied at the right time greatly increases the value of your property.

Your building needs painting Right Now, but don't use keg-lead or hand-mixed paints. It may be cheaper at the start, but is costly and unsatisfactory in the end.

**For Real Economy use MASTIC PAINT**

**FREE** Ask for beautifully illustrated book "Homes and How to Paint Them" and color chart showing 45 different color combinations.
