DEMOCRATIC TICKET.

FOR CONGRESS,
HENRY D. ALLEN,
 OF UNION COUNTY.

Lieut. Hobson has resumed his duties on board the New York.

Col. Bryan's regiment has been ordered to join Fitz Lee and will probably see service in Porto Rico.

Camara sailed through the Suez canal and then sailed back again at an expense of \$116,000 in canal tolls.

Miss Fannie Davenport, the actress, is very low with heart disease at her summer home near Duxbury, Mass.

Geo. M. Pullman, Jr., son of the late sleeping car magnate, has been given a commission and will enter the army.

A carefully revised roll of the lost and saved, shows that of 714 persons on La Bourgogne, 164 were saved and 55 drowned.

The Chicago Record wants to know who affixes the stamp on deadhead telegrams sent under Congressional frank.

The third annual convention of the National Association of Fire Insurance Agents will be held at Hotel Cadillac, Detroit, Mich., July 15 and 16.

Colson's Smooth Walkers at Lexington have been enclosed with a barbed-wire fence eight feet high, to keep them from walking away without leave of absence.

The members of the State Executive Committee of the "National Democratic Party" of Tennessee, have held a meeting and decided not to try to keep up the organization.

Wm. A. Hunter, Dr. Hunter's son, aged 30, eloped to Jeffersonville a few days ago with Miss Blanche Malkin, an 18-year-old girl. There was no especial opposition to the match.

Maj. Gen. Miles has reached the camp of the army at Santiago and has held a conference with Rear Admiral Sampson. He also had a chat with Gen. Shafter over the telephone.

Dr. Jos. Muir, who captured Miss Ella McPherson and her millions in New Jersey, was a grass-widower. After securing a divorce last fall he changed the spelling of his name from Meuer to Muir.

There will be a contest for the Republican nomination for Congress in this district between Geo. W. Jolly and W. T. Fowler. Mr. Fowler is supported by the Franks wing of the party and his nomination is regarded as practically assured.

Secretary Alger has issued orders attaching the Hawaiian Islands to the military department of California. The First New York Volunteers, Col. Barber commanding, will be assigned for the time being at the garrison at Honolulu. Col. Barber is considered an especially good officer for the coast.

Chas. D. Jacob, Jr., of Louisville, is reported in the official list as among the killed at Santiago. He was a son of Hon. C. D. Jacob, and enlisted in the First Cavalry May 7. His father has not been notified and is still hoping that the name, which was given as "C. D. Jacobs," may not have been intended for "C. D. Jacob, Jr."

Admiral Cervera and 53 officers and 638 privates, Spanish prisoners from the wrecked fleet, have arrived at Portsmouth, N. H. on the St. Louis, and will be confined on Seavey's island in the harbor. The officers all talk freely and speak in terms of highest praise of the kind manner in which they have been treated by their captors. The officers are under parole, except one who refused to take the oath, and are not restrained.

The Democratic vote was a little short of a majority, though the plurality was 2,216 over Bailey.

Some of the morning papers claim that Gen. Shafter's indulgence to the Spanish commander in so long extending the time for negotiations has been rewarded by a characteristic bit of Spanish craftiness. According to the latest news from the front, Gen. Shafter believes that Gen. Toral has slipped out of Santiago to the westward with all his men and arms, leaving a sacked and deserted city as the only trophy of the American army.

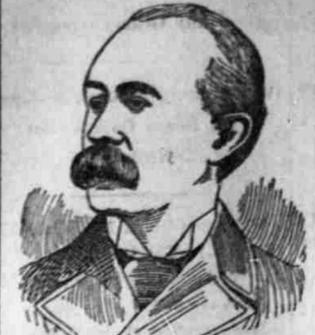

Camara was allowed to coal at an Egyptian port on the way back, after stating in writing that he was bound for Spain.

It is a great summer. It is bringing freedom for Cuba and for the summer widower at the same time.

FAMOUS MEDICAL MAN.

George Miller Sternberg, Head of the Hospital and Surgical Service of the American Army.

Surgeon Gen. George Miller Sternberg, the man who is at the head of the hospital and medical service of the great army of the United States, is an experienced and able surgeon-soldier. He is about 50 years old, and has a fine record. He began at the bottom of the ladder as assistant surgeon in 1861. In 1868 he was promoted to be a captain, and in 1893 he was elevated to his present position of

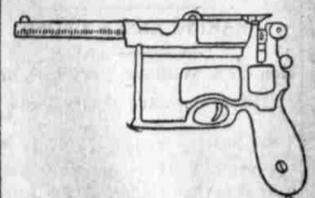

SURGEON GENERAL STERNBERG.
 (Head of the United States Hospital and Medical Service.)

command as surgeon general with the rank of brigadier general. During the civil war Gen. Sykes served in Gen. Banks' expedition and was in charge of the general hospital at Cleveland when peace was declared in 1865. Since that time he has been in the service of Uncle Sam's army in the campaigns against the Indians and in epidemics of yellow fever. He was a member of the Havana yellow fever commission in 1879, and was a delegate to the international sanitary conference in Rome in 1885. In 1887 and 1889 he was specially detailed by the president to make investigations in Cuba, Mexico and Brazil relating to the etiology and prevention of yellow fever. He is an ex-president of the American Public Health association, and is a distinguished member of several important scientific and medical societies in this country and abroad. His knowledge of the conditions in Cuba with relation to yellow fever and other ills of that climate will make his administration of the office he holds of extraordinary value to the country at this time.

RIVALS THE REVOLVER.

A New Self-Loading Pistol Which Can Be Fired as Many as 30 Times a Minute.

The self-loading pistol invented by Herr Paul Mauser is meeting with a large sale in England, India and South Africa. The fact that a skillful man can fire six or seven shots per second with it renders it a formidable rival to the revolver. The pistol is very compact in form, the magazine being quite flat, and it is therefore easily portable. The magazines are of two kinds, to hold six and ten cartridges respectively. In action the force of the recoil opens the mechanism of the breech, ejects the empty cartridge case, cocks the hammer, introduces a new cartridge into the chamber and closes and locks the breech, the shooter having only to aim, press the trigger, and reload after six or ten shots, according to the capacity of the magazine. So much of the recoil is utilized in this way that there is

 (It Can Be Fired Thirty Times a Minute.)

scarcely any shock to the hand and the barrel very nearly maintains its original direction. The mechanism is simple and perfect, so that when the magazine is filled the piece is ready to fire without further manipulation, and when it is emptied the shooter is notified by the action remaining open.

Another popular form of magazine pistol is known as the Bergman, which in skillful hands can be fired 30 times a minute. The cartridges are inserted five at a time, and if desired another empty cartridge can be carried in the barrel. The weapon is self-cocking and the spent cartridge is ejected automatically.

Queer Municipal Order.

At Schkenditz, in Prussian Saxony, the burgomaster recently gave orders that on Sunday people should dress in a manner befitting the day, and when a mechanic appeared in the streets in his everyday working dress he was arrested and condemned to a fine of three marks or one day's imprisonment. The decision was set aside on appeal, but the court admonished the culprit that he was an insensate dot, and that the grace of the Lord was not in him. The tribunal evidently leaned to the conviction that he had got what he deserved, though the letter of the law did not sustain the penalty.

Mrs. Ingersoll's Explanation.

A good story is told of the wife of Col. Robert Ingersoll. She was recently spending an evening with a friend. About eight o'clock, after ineffectually attempting to smother several yawns, Mrs. Ingersoll apologized as follows: "You really must excuse me, but you know, dear, that I have accompanied the colonel on a recent lecture tour and have in consequence got into the habit of falling asleep at about eight o'clock every evening."

SPECIFICATIONS.

The Head—Is five and one-half inches high and eight and one-half inches long, inside measurement. This is as high as any family machine made, and must not be confounded with the medium or so-called high-arm machines. The head plate sets into or level with the table.

The Needle—Is straight, self-acting; flat on one side and cannot be set wrong.

The Shuttle—Is open on the end, cylinder-shaped and absolutely self-threading.

The Bearings—Are all steel, well fitted and adjustable.

Self-threading—The machine is self-threading, and no hole to put the thread through, except the eye of the needle.

The Feed—Is positive in action, and has no springs to get out of order.

Automatic Bobbin Winder—Will wind the bobbin as smooth as on a spool of thread.

The Tension—Is double lock stitch. The same on both sides and will not ravel. Can be lengthened or shortened from eight to thirty stitches to the inch.

The Stand—Is a flat-spring tension and adjustable to all sizes of thread.

Hand-Wheel—Is nickel plated and has a loose wheel attached to operate bobbin-winder without running machine.

The Movement—Is the celebrated eccentric movements, positive in action and fewer working parts than any machine on the market.

The Stand—Has large balance wheel, hangs on two adjustable centers. The treadle is large and hangs in cone centers and all lost motion can be taken up. Casters under each end, and can be easily moved. A nice dress guard over

wheel to keep dress from getting on wheel. Attachments—Are the famous Johnson's set, in a tin box, and consists of tucker, ruffler, four hemmers, binder, quilter, foot hemmer and feller, under braider and shorer, oil can and oil, two screw drivers, six bobbins, paper of needles, thumb screw, gauge, and book of directions.

The Furniture—Is well made highly polished and elegant in appearance. All these machines will be sent out with oak furniture unless walnut is specified. Each machine has lock to the drawers and cover, nice nickel plate drop rings to all drawers. All machines are well packed and crated.
