They left this week for Jackson.—Central Record.

LOCAL

W. M. Smith has his new store room about completed and will soon be ready for business.

The Board of Supervisors, composed of C. H. York, Tip Langford, E. Dyer, Wm. Adams and John Hysinger, with Tom French as Clerk, is in session this week. From what we have been able to learn, very few are being slighted.

News was received here this week of the death of J. F. Cooper at his home in Tennessee on the 3rd instant. Mr. Cooper had been suffering for some time with consumption. The deceased made his home at Livingston for several years and was well known to many of our people.

STOP AND THINK.—Winter will soon be over and spring is the time when we ALL want to beautify the last resting place of our dead. Those who want Monuments put up in the spring, now is the time to place your order. Come and see me and I will show you something that will interest you.

GEORGE OWENS, Mt. Vernon, Ky.

G. T. Johnson and J. Fish expect to be in their new buildings by February the first.

A move is again on foot to have electric lights in Mt. Vernon. There are three local men interested and if the right kind of a price can be secured, it is pretty sure to be a go.

The Brown Memorial School had many new students Monday. When all are in who expect to enter, the attendance will be nearly 150, which is indeed a splendid showing.

Gravbel & Bullock have bought the store house and stock of goods of W. G. Niceley at Hansford. Mr. Niceley is one of our most enterprising citizens and we regret very much to lose him from our midst. But our loss will be Berea's gain.

Will Casper, representing the Modern Woodmen of America, has secured a sufficient number to install a lodge at this place. It is about the cheapest insurance on the market and those looking for cheap insurance should not lose this splendid opportunity.

U. G. Baker and Fritz Krueger have begun removing the embankment at the rear of their business houses preparatory to adding a thirty foot addition to each building which will be made of concrete. It will make their buildings over one hundred feet long.

We hope to hear from our correspondents as regularly as possible during the year of 1907. Good, live correspondents at every post office in the county, is what we want, and at those places where we have no representative, we trust some suitable person will volunteer his services. We intend that every part of the county shall be represented.

"Some Rockcastle History of First Things and Occurrences Within the County," a remarkable article, the first portion of which appeared in last issue of the SIGNAL, and concluded in to-day's paper, is worthy of being filed away in your scrap book for future reference. Mr. Maret devoted considerable time and patience in securing data and information to enable him to write this condensed history, and everyone who has read it pronounces it a remarkably valuable record of past doings in old Rockcastle.

The stockholders of the Bank of Mt. Vernon pursuant to the call met Monday and re-elected the same officers and directors as follows: C. C. Williams, President; J. T. Adams, Vice President, and W. L. Richards, Cashier. Directors: G. S. Livesay, S. H. Martin, A. T. Fish, Rod Perry, C. C. Williams, W. L. Richards, P. Benton. The directors, appreciating the valuable service of Cashier Richards, demonstrated the same by giving him a handsome increase in his salary.

REAL ESTATE DEALS.—R. B. Mullins has purchased from W. G. Niceley, the property on South Main St. known as the Joplin property, consideration \$900. We understand Mr. Mullins will convert the building into a business house. A. H. Hamlin bought of Jonas McKenzie his farm known as the McClary farm, price \$3,000. Mr. McKenzie reserved a lot, 1 1/4 acres, adjoining the College lot and expects to build in the early spring. Mr. Hamlin will move his family here about the first of February. Mr. McKenzie will move to the James I. White place until he gets his new building erected.

McKenzie Brown, who has been associated with this office for the past year has resigned his position and will launch into the journalistic field at Williamsburg. He is a natural born newspaper man and as the eloquent Fontaine Fox Bobbitt would express it, with a few years experience we will find him one of the most "shining lights of the tripod." He expects to issue his first number about March the first, or sooner if he can get everything in readiness. With the resources of Whitley county and Williamsburg, with its two splendid institutions of learning, we firmly believe that Whitley's metropolis will soon be the best town in all Southeastern Kentucky and that his election to that place was indeed a wise one. During his stay with us he has been faithful to every trust and entering in his labors, and here is hoping that unbounded success will crown every effort of this gallant young knight.

LAND, STOCK AND CROP. Sheep are now in greater demand for mutton than in many years, therefore the southern farmers should prepare to shelter and keep their flocks in the best physical condition for the winter market. There is profit in sheep growing. The complaint is the dog in the way, but if a dozen sheep owners will employ the shotgun and stand together, the dog fear will be removed. There few farmers who could not profitably keep a few sheep. The difficulties that stand in the way can be overcome. Surely no one will admit they are too dull to learn how to raise them. A sheep tight fence can easily be bought or constructed.
