A Very Easy System

ONE OF OUR PATRONS has tried several plans for keeping a record of all his income and expense during the year—but he has found all of them a lot of trouble to keep up to-date. But he has a fine system now. The bank is keeping this record for him. He deposits all his earnings in the bank and then he writes checks for all the money he spends. Even for his pocket money he writes a check once in a while and marks it "Misc. Exp." When he wants to know the amount of his income he looks at his Bank-book. When he wants to find out what he is spending, he looks over his Cancelled Checks. By sorting these old checks into several piles he finds what he is spending for food, clothing, fuel, etc. That plan is easy. It is safe and business-like, too.

SENATOR WHITE MOSS ON THE ROAD QUESTION.

Senator Moss addressed the annual convention of the State Federation of Women's Clubs, at Hopkinsville, recently, on the subject "United We Move Forward—Divided We Stick In The Mud," and pleaded with the women to aid in "taking Kentucky out of the mud." He said "Two thirds of the people in the state are in the mud, and the mud-slaves of Kentucky are interested in any kind of a program that will lift them out of the

mud. The women of Kentucky before they had the vote, were always found fighting for progressive measures and now that they have the vote it is doubly important that they should continue their efforts toward all progressive legislation." Senator Moss highly commended the present State Highway Commission for the work they have done, and said "The State Highway Commission should not be condemned for begging \$1,600,000 from the rich counties of the state" to build roads where Federal aid funds were not available, "but, on the other hand, that a monument should be erected to them for their ability to get money with which to construct this primary system of roads."

It is Senator Moss's belief that the bond issue for roads will be the paramount issue in the campaign of 1923 and that the party that nominates for its candidate a man who will go before the people of the state and advocate a bond issue for roads will be overwhelmingly elected Governor in 1923. Certainly there is no more crying need in Kentucky today than roads.
