

GIANTS CAPTURE 8TH PENNANT

The New York Giants clinched the National League pennant when they downed St. Louis, 5 to 4, in a 10-inning battle Monday afternoon. Even if the Giants lose their remaining seven games and Pittsburgh wins all of its three scheduled games, the Giants will still be on top in the final standing. It was the eighth pennant that McGraw has won since he became manager of the Giants, a major league baseball record.

The big bat of "Long George" Kelly, the Giants' first sacker, played a prominent part in the Giants' victory. Even if the Giants lose all of their remaining games and the Pirates win all their games, the final standing would be: New York, won 89, lost 65—57 per cent; Pittsburgh, won 88, lost 66—57 per cent.

Y. W. C. A.

On Friday night, October 6, at 7:30 o'clock there will be an entertainment given by Miss Virginia Slade, of Lexington, in the History Club rooms. Her program is entitled, "An Evening with the Masters," and it promises to be the most delightful she has given here. Miss Slade was with the Redpath Chautauqua in the west last season and was highly complimented. She is certainly a Kentuckian of whom the state may well be proud. She comes under the auspices of the Y. W. C. A. and this in itself should insure her a good audience. In addition to her readings there will be music by home talent.

BUYING HOLIDAY GOODS

Dillard McGuire and brother, Willard McGuire, composing the firm of McGuire Brothers, having concluded that the December holiday trade would be very large, Dillard McGuire left Sunday for Cincinnati, where he will meet representatives of firms that carry the largest stocks of holiday goods and will place orders for the McGuire Brothers. Mr. McGuire will meet with many southern merchants who place their orders simultaneously, will receive the best discounts, at the same time getting everything that is new. By placing orders now they get their purchases and will not be dependent on unreliable railroad service as of this day.

FOR SALE—1921 Ford touring car with starter. Price, \$200.—Cockrell & Alfrey. (97-4)

FIRE DESTROYS HOME

Fire, thought to have originated from a defective flue, completely destroyed the home of Tom Richardson at Silver Ridge, near Jeffersonville, this county Sunday night. A pet dog discovered the fire and aroused the family, who, but for this, would have perished in the flames. The house and its entire contents were burned, the loss reaching \$2,500, with no insurance.

ROOT PREDICTS LAWS WILL END STRIKES

Early adoption by the Republican congress of laws at once prohibiting strikes which "cut off the supply of food or service necessary to the life of the community," and at the same time protecting the workman's liberty, was predicted by Elihu Root, temporary chairman, in his address before the Republican state convention at Albany, N. Y., yesterday.

Touching on the recent rail and coal strikes, Mr. Root said: "We are all employees and laborers and the general public is apt to be impatient about strikes. So long as strikes were a contest between laborers and employers to secure for labor its fair share of the new wealth which has come to mankind through invention and discovery and application of science, and the art of organization, the sympathies of the American public were with labor. When the strike becomes an attempt to coerce the public into taking action by cutting off the supply of food or service necessary to the life of the community, I am sure that public feeling goes the other way.

"I think that in this country we are gradually approaching the point where the law of the land will provide for distinguishing between the two kinds of strikes, and protecting the public against compulsion by any threat of peril to life or of destruction to the machinery of civilization and at the same time protecting the workman's liberty to refuse to work and the workman's liberty to work. We cannot come to that point then the American government of all the people by all the people for all the people will fail, and a few will rule the many. Perhaps we are approaching that point as rapidly as is practicable and wise to attempt."

LOWER FREIGHT SCALE MADE

When the livestock rate hearing convened at 2 o'clock Tuesday afternoon in Louisville the carriers and shippers announced that an agreement had been reached whereby a scale of livestock rates will be established throughout the south that will be satisfactory to the shippers.

The new scale is somewhat higher than had been asked by the shippers, but materially lower than proposed by the carriers. It differs from the scale heretofore established in similar proceedings.

It is to be known as the Southeastern livestock scale and is made in the light of conditions in this territory.

Coupled with the agreement as to the rates is a proposition whereby Southern producers will be accorded "stocker" or "feeder" rates from all their markets on basis of 75 per cent of rates applicable to the finished animals. Lower curioad minimum is also to apply than is used in other territories.

LOCUST TREE IN BLOOM

J. O. Kirk has on his farm on the Grassy Lick pike a locust tree in full bloom, something very unusual for this time of year. The tree is a mass of flowers, much smaller than those of the spring and is very beautiful.

ARRESTED IN PARIS

When Richard English of Paris, applied to Postmaster J. Walter Payne in the lobby of the Paris postoffice for a c. o. d. package and had paid the charges, amounting to \$115, and received the package, he felt a hand laid on his shoulder, and turning around saw State Narcotic Agent L. H. Sheehan, of Louisville, and Sheriff M. Peeler Collmer, of Paris, who informed him he was under arrest on a charge of violating the narcotic laws. English was taken into the private office of Postmaster Payne, where the package was opened and found to contain sixteen ounces of morphine, enough, according to Sheehan, to last 150 physicians for at least three months through an epidemic requiring its use. The "bootleg" value of the narcotic was estimated at \$2,000. Joseph Veal, Louisville, who was with English at the time of the arrest, was also held with the former as an accomplice.—Paris News.

VISITING FRIENDS HERE

Mrs. B. F. McCormick, of Florida, who has been visiting Mrs. Emily Duff and other relatives in the county, left today for Lexington to visit her daughter, Mrs. Fannie Cockrell, and from there will return to her home in Florida. Mrs. McCormick is a former citizen of this county and of Lexington, and due to long absence from Mt. Sterling and the many improvements here it was with difficulty that she recognized the city and the homes she knew in early days. While in the city Mrs. McCormick was the guest of Mrs. C. H. Petry.

TRIES POLITICS; GETS LAUGH

Theodore Roosevelt, Franklin K. Lane and Senator Francis G. Newlands, of Nevada, were the men who created national interest in the reclamation of western land through irrigation, and all three of them have figured in the senate discussion on that subject. Senator Pittman, of Nevada, recently paid a tribute to Senator Newlands as the father of the western reclamation policy, and called attention to the fact that Senator Newlands was a Democrat.

In the more recent discussion in the senate, Senator Nicholson, Republican, Colorado, by implication disparaged the late Secretary Lane by declaring that Theodore Roosevelt was the man who placed reclamation on the map. Whereupon Senator Harrison paid a tribute to the late President Roosevelt as a great man, but exposed Senator Nicholson as a supporter of Mr. Taft and an opponent of Roosevelt when the two were candidates for president.

Senator King, Democrat, Utah, added to the confusion of Senator Nicholson by interjecting this statement: "The senator (Mr. Nicholson) supported Mr. Taft, and Mr. Taft and the Republican party conducted a campaign of vituperation and abuse of Mr. Roosevelt."

"I yield to the senator from Colorado to answer," said Senator Harrison. But Senator Nicholson was silent and the incident closed with laughter.

GOES TO HOSPITAL

Mrs. O. V. Jones, who has been suffering quite severely from tonsillitis for the past week, was taken to a Lexington hospital today to have an operation performed.

NEW TARIFF A COFFIN FOR PROSPERITY CORPSE

The Fordney-McCumber profiteers' tariff bill, which is estimated to double taxation of the American people; that is to say, to add another \$4,000,000,000 in the way of taxes, but of which only a few hundred millions will go into the treasury, the balance into the pockets of the special privilege class, has been signed by the president and is now a law.

This tariff bill, aptly termed the "coffin for the corpse of prosperity," will fall heaviest upon farmers and working men, by reason of the fact that it will still further curtail the farmers' foreign markets, and by destroying what little is left of our foreign trade will greatly reduce production in manufacturing lines as well as in natural industries.

In a speech just prior to the passage of the bill Senator Underwood, the Democratic leader of the senate, called attention to some of the outrageous rates of the bill, particularly to the wool schedule, in which he showed that the tax levied on raw wool would collect out of the pockets of the American people \$200,000,000, only \$20,000,000 of which would go into the treasury of the United States and the balance into the pockets of the special interests.

Senator Underwood excoriated that feature of the bill which transfers the taxing power from congress to the president, and said:

"I do not think it will last long as a law. If it should last long, if the terms of the bill were to stay on the statute books for two decades I would predict the rottenest filth and corruption that could grow out of such a bureaucracy, that would be a stench in the nostrils of all good people. But I do not think it will last. I think before that day comes the American people will take the size of what this congress has done, will realize that the congress has laid down a great responsibility that was given to them, which the constitution of the United States has placed in their hands, that they have surrendered a great trust, and the American people will rebuke any party and any set of men who have been guilty of abandoning a trust like this given to their safekeeping."

TREASURY CERTIFICATES ARE NOW GOING GOOD

According to an announcement by the savings division of the Fourth Federal Reserve District, approximately \$120,000,000 worth of treasury savings certificates have been absorbed by the general public since the first of the year. The sale of these certificates being now established on a going basis, and due to the improvement that has taken place in the investment market, the treasury department increased the price of these certificates, in accordance with a recent announcement, reducing the interest rate to 4 per cent compounded semi-annually. The new price becomes effective Monday, October 2, beginning which date the \$1,000 certificates will be sold for \$820; the \$100 certificates for \$82 and the \$25 certificates for \$25.50.

Certificates of the current issue will be on sale at practically all post-offices until Saturday, September 30. If held for five years, they will net the purchaser four and one-half per cent compounded semi-annually.
