GRAPEVINE.

Extension of Time on the Dallas and Southern Railway Asked For.

Crops in Fine Condition.

The Dallas and Southern managers sent a representative to this place last week to confer with our citizens in regard to extending the time of building the road two years longer. This company gave our people a bond to build the road to this place in two years in consideration of nine miles of right of way. The bond expires about the middle of this month. If an extension is not granted a forfeiture of the right of way follows. Our people have made certain proposals and the company have them under advisement. Grapevine will not get this road this year.

The farmers have about got their corn plowed and clear of weeds. The cotton is now ready for chipping.

Threat and out in fine condition and only storms can prevent a large crop.

The high school at Grapevine, closed on the 1st of this month.

The health of the community is very good.

Fishing is the order of the day.

Business is at a low ebb.

BROADWAY PRESBYTERIAN.

The Debt on the Church Being Reduced Rapidly—Meeting To-Night.

The Broadway Presbyterian church is steadily advancing in numbers and strength. As the installation service last Sunday \$875 was contributed toward the reduction of the church debt. The members of the First church, with others, gave generous assistance to this end. The board of trustees announced that hereafter the ladies' aid society would be relieved of all payment of interest, and that their efforts would be devoted to the payment of the principal.

At the regular meeting of the ladies' aid society this afternoon important measures for accomplishing the above purpose are to be considered.

A constitutional meeting will be held at the close of the prayer meeting Wednesday night for the purpose of electing a trustee and deacons.

The Christian Endeavor society will hold a social and picnic party at the church to-night, to which all are cordially invited.

Mexican Cavalry Band.

For a number of years P. J. Gilmore and his band have been the stellar attraction at each succeeding exposition held in St. Louis. A few years ago the management also secured the famous Mexican Cavalry band in conjunction with Gilmore and the people of the North made a tremendous fuss over them. They were unused to the sweet music of the happy tempered children of Montezuma, and after they had played beautiful "La Polona," it took the place of everything else as a popular air. They will be at Greenwall's May 14.

Church-Daniel Case.

In The Gazette, May 11, was the statement that the "charges brought against Dr. Daniel by Dr. Burch were dismissed, as not supported by the evidence. Dr. Burch had no personal grievance. He charged Dr. Daniel with unprofessional conduct toward Dr. Ghent. Here is the official report.

W. P. Burd, M. D., President Texas State Medical Association.

We, your judicial council, would report, after carefully investigating all the testimony in the case of Dr. J. D. Burch vs. Dr. F. E. Daniel that we fully exonerate Dr. H. C. Ghent from all accusations of conduct unbecoming a gentleman, a physician and a member of the Texas State Medical association. [Signed]

J. T. Bell, Chairman.

The accusations above referred to are those contained in Daniel's Medical Journal from September 1890 to March 1901, and also in his card of April 15.—(Waco News.

JOHN MAYFIELD ARRESTED.

Special to the Gazette.

DALLAS, TEX., May 11.—A man named John Mayfield was arrested and jailed today for the perpetration of a nameless crime, the victim being a little four-year-old girl, the daughter of a North Dallas butcher. Police Officer Brewer made the arrest. It is safe to say that the excited populace would have lynched Mayfield had facts been known. Mayfield protests his innocence.

POLICE OFFICER WOOD RAMSAY was fined \$25 by Judge Tucker Saturday night for attending the convention at Fort Worth to-morrow and whooping up the exhibit. About 100 leading citizens of the city will go over on the special train in the morning.

THERE IS TALK of the Times-Herald publishing a Sunday morning edition. It is also understood that Col. Burton of the Galveston Tribune also contemplates issuing a Sunday morning edition of his paper.

THE CITY COUNCIL held a special meeting this afternoon. J. M. Caldwell, the caucus nominee for city auditor, was elected to succeed F. R. Rowley. The vote stood: Caldwell, 13; Rowley, 10; Montgomery, 1. It was thought Ford House, the Democratic center, would be given a position, but he was slaughtered in the house of his friends. Rowley was the independent Republican candidate for mayor. L. Myers Connor, brother of the mayor, and present applicant for the office, was elected.

THE "BIG THIRTEEN" defeated Connor and elected Dr. C. W. Groves. This is another slap at the mayor.

A proposition to abolish the offices of superintendent of streets, superintendent of waterworks and assistant chief of the fire department was submitted by one of the "Big Thirteen," but action was deferred. "The Thirteen" are after the scalp of Jacob Spahr and Dennis P. Mahoney, two of Mayor Connor's strongest supporters. Their terms do not expire until May 18, but the scheme is to legislate them out of office. Harmony is a dead letter, so far as it applies to the two branches of the Dallas city government this year, and the end is not yet. Connor's friends are now the fiercest and should shape the administration of affairs. The "straight Democrats" say that they are in the saddle and propose to run things to suit themselves. If the mayor don't like it he can resign.

THE CITIZENS OF MESQUITE have notified the local correspondent of the Kansas City Sunday Sun at that place that a coat of arms and feathers is in store for him if he continues to "personalize" the citizens of that town.

THE COMMITTEE OF CITIZENS and a committee representing the Laborer's League held a meeting at the city hall this morning to bring about, if possible, a settlement of existing labor troubles. The labor men demanded \$1.50 per day and nine hours. The committee citizens wanted to adopt nine hours as a day's work at the expiration of ninety days. After wrangling for several hours the meeting broke up without accomplishing anything.

Another meeting will take place tomorrow at which time the contractors of the city will be present. The men and the bosses are as far apart as ever. The cable company had twenty men at work this morning and night on this line. The League has a membership of 1100.

FRED BOTTO was drowned in Winn's lake late Saturday evening. He was boating with two companions. The craft capsized and Botto was drowned. He was twenty-two years of age, unmarried, and lived near the lake with a married brother.

A MAX NARDEL JONES, at one time connected with the New York Voice, the prohibition organ, is in the city the representative of the Kansas City Sunday Sun. He is said to be a hard hitter, equally proficient with his fists as with his pen.

THE LAST GRAND JURY "went for" the lottery men hard. In the county court to-day P. P. Martinez pleaded guilty in fifty cases for selling lottery tickets and was fined \$10 in each case and pleaded not guilty in twenty-five cases. The remainder of cases against him were filed under an agreement that he was not to sell any more tickets during the Williams administration. Should he do so these cases will be re-docketed and tried and Col. Williams says that Mr. Martinez shall in these cases receive the benefit of that law that says that when a man has been re-tried the fine can be doubled.

J. Kaufman pleaded guilty to thirteen charges of guilty to fourteen and fourteen were filed under same agreement with Martinez.

Case Dismissed.

A TIRADE OF ABUSE.

A Georgia Congressman-Elect Closes Cleveland and Alexander Hamilton in the Same Political Category.

Special to the Gazette.

THOMPSON, GA., May 11.—Congressman-elect Tom Watson, who made himself prominent by antagonizing Charles Crisp's aspirations for speakership, delivered a sensational speech here Saturday night on the occasion of the district gathering of Alliance men. Watson opened his speech with an appeal to the farmers to stand united and fight together for reforms that have been inaugurated. He referred to President Polk's interview and intimated it. He said the Democratic politicians would be to blame if they ignored the just demands of the reform movement and would drive the farmers into the third party. He agreed with Col. Polk that the Democrats of the South could not take Cleveland with his anti-silver doctrine. Speaking of Cleveland Watson said: "Cleveland stands just where Alexander Hamilton stood. Hamilton favored two metals as a basis of our currency, Cleveland says gold should be the autocrat. With this standard you get no more for your 8,000,000 bales of cotton than you get for your 6,000,000. The measuring rod of value being a void, standard, the products of labor are at its mercy. When they say Cleveland is a Jeffersonian Democrat, I deny it. You may call it the Jeffersonian violin if you like, but it is nothing but the old Hamiltonian fiddle, and it's got to get out of here. We want no more of it."

The audience applauded this sentiment enthusiastically.

LITTLE SATISFACTION

Will be Had by the Finance Committee in Visiting the Dry Goods District.

Special to the Gazette.

NEW YORK, May 11.—The lethargy of the dry goods district was disturbed by an unusual event to-day. Three men, high in the service of the nation, descended upon this part of the city shortly after 11 a. m., and for a few hours did away with its unutterable dullness. They were Senators Aldrich, Hiseock and Carlisle, and their mission was one of inquiry into the state of the dry goods trade. The senators held a short session of the sub-committee of the senate finance committee, appointed to ascertain the effect of the high tariff upon the country, and to devise to make a tour of the dry goods district.

Senator Carlisle said that the committee

deemed it wise to look at goods themselves and get facts and figures from prominent dry goods merchants before the committee would make a statement of the day's work.

The senators were everywhere courteously received and all the men visited, found ample time to spare from their business to talk with their guests.

The opinion was freely expressed that the satisfaction the senators would get could be contained in a very small grain of mustard seed.

The heavy stocks and dullness of trade are conditions everywhere found in the dry goods districts.

LITERARY DEPOSITORY

Of the Methodist Church Located in Fort Worth—It Will Likely Become an Extensive Institution.

Rev. Z. T. Morris, recently appointed at the head of the depository for literature for Texas by the five Texas conferences, was seen by a reporter yesterday and interviewed upon his work. He said: After being appointed to the position I now hold I selected Fort Worth as the most central point. Over six hundred pastors and Sunday schools will get their literature through this depository, and the business is rapidly increasing every week. In fact, indications point that it will soon be a branch of the Southern Methodist publishing house, located at Nashville, Tenn., as it seems to be the idea of the church to place literature among the people, and it desires to have its publishing house in the most central locality. The books, quarterlies and other religious literature I am now able to sell to the churches and Sunday schools at the same price that is paid in Nashville.

Do you ever give this literature away?

Where we find a Sunday school that is unable to buy its literature it has always been the policy of the church to furnish it gratuitously, and I follow the precedent.

What kind of literature do you handle in this depository?

All kinds of books for a Sunday school library, song books, prayer books, Sunday school papers, quarterlies and journals.

Do you remain in Fort Worth all the time?

Oh, no. I will leave shortly and will stay on the road until the next September, during which time I will visit over six hundred Sunday schools throughout the state.

Mr. Morris is from Bryan and has long been engaged in religious matters.
