Joe Smith pleaded guilty to the charge of aggravated assault and fined \$25,00 In Forth Worth National Bank vs. J. W. Benford et al., judgment was granted plaintiff in the sum of \$624.55.

Smith is arranging to entertain this excur sion party during their stay in our city. The party numbers over one hundred, and many of the quill-drivers will be accompanied by their families. The party is com-posed of the Northern Indiana editorial as-sociation, and Fort Worth can add a brilhant plume to her headgear by co-operating with Mayor Smith in entertaining the vis-itors on Saturday next: "Upon the invitation of the Peces-hiriga-

tion and improvement company of Eddy, N. M., to visit them in their valley, the members of the Northern Indiana editorial as sociation and their families, to the number of about one hundred, will start next Thurs-day, October 22, from Chicago, on the trip. Starting from the Dearborn street station, the route will be over the great Santa Fe system to Fort Worth, Tex., and from there to Pecos over the Texas and Pacific, and from there to Eddy, N. M., over the Pecos Vailey road and return. The entire trip will be made in two Pullman sleepers chartered for the purpose, and which will be retained wherever stops are made, and it is hoved that visits may made, and it is hoped that visits may be made at some of the more interesting points en route. At this time—and the time for application. for application expires to-day—there are over forty Northern Indiana newspapers represented in the party, and it promises to be the most enjoyable and successful trip in the history of the association. In making the arrangements for the trip, the executive committee have found the railroad and Pullman car officials courteous and obliging, and it goes without saying that such things are appreciated by newspaper men. Mr. G. O. Shields, traveling passenger agent of the Pecos Valley railroad, has rendered valuable personal assistance in the preliminary arrangements."

To-Night's Council Meeting. The council met in adjourned secret seon at the city hall last evening, but their liberations are known only to themselves

It is thought the tax rate question is set among the members, and that to-night to public will be made acquainted with their determination. There is much speculation among the city employes as to just where the pruning knife will enter, and how deep it will go. The late additions to the police force are greesing, but nothing is known force are guessing, but nothing is known definitely. The salary question, too, is subject of much interest. It is not thought. however, that much business of an interesting nature, aside from the subjects mer tioned, will come up, except, perhaps, the adoption of the ordinance creating the offic of pound keeper. The time for opening the bids for improving the waterworks system has been extended until November 16, so the subject will be, no doubt, omitted. The proposed bridge question will, tee, doubt-less go over until the next meeting, as the plans submitted by Neil P. Anderson and others have been undergoing a course of re-vision in St. Louis, and will not arrive until the latter part of the present week.

Meeting Messrs. Brockman and Nelson yesterday, who are connected with Mr. Au-derson and others in the Eddy bridge company's proposition, they were asked con-cerning the bridge question, and said: "The award for the proposed bridge was made to us on August 4 last. There was

some hitch in the matter of agreement on the proposed plans, but they are now being revised by a well-known St. Louis firm of engineers, and here's a telegram saying that on next Wednesday they'il be sent us, and will be submitted at next week's meeting of the council. They claim, with our-selves, that the proposed bridge will be the strongest one ever built on the American ontinent, as will be shown by comparison of the cables with those of the Niagara, Brooslyn and Cincinnati bridges, and will be built on a modern design, which, how ever, has been outlined in Ten Gazerre, which eliminates the most objectionable features of ordinary suspension bridges, and at a cost of \$10,000, the lowest hids. and at a cost of \$10,000—the lowest bids offered against it being between \$25,000 and \$35,000. The award was made to our comany over twenty-two competing bridge companies, and so soon as the meater of plans is settled work will be begun. At the last regular meeting of the coun-

cli Engineer Kerr was instructed to have negatives made of the government building ground site, etc. These have been made and proofs taken and sent to Washington, and a GAZETTE reporter was shown a cop at the engineer's office yesterday. Plats the grounds and surroundings have be prepared, and can be seen at Mr. Kerr' flice. Plans for the proposed new central

hall have also been prepared, and are in the bands of Alderman Montgomery, chairman of the fire committee. The building as pro-posed will cost \$15,000 or \$20,000.
