HON. W. L. CRAWFORD, the candidate for floater, is decidedly in the swim. MINISTER EGAN is bound to stand Pat. He can't help himself; he was christened that way.

AS LONG as there is a salary attached to the office, Minister Egan will never retreat under fire.

At a Georgia marriage the groom was one hundred and twenty-four years old and the bride was eighty-one.

ACCORDING to the statement of a leader of the state Grange, Tracy, Perdue and other sub-treasury advocates refuse to meet anything less than congressmen on the stump.

EDITOR LAMB, while in Dallas the other day, opined to a reporter that Governor Hogg will be beaten by the vote which elected him, and that H. Chilton will never go to the senate for the long term.

UNCLE JERRY RUSK may now consider himself a great man. The farmers' congress at Sedalia, Mo., said something very nice about him the other day.

THE suit of the Illinois husband who demanded \$100,000 damages for the loss of his wife killed in a railroad accident, the railroad company pleaded a suit for divorce about to be brought by the said husband against his wife before the occurrence of the fatal accident.

IN pursuance of the plan of campaign, Democratic clubs are organizing all over Missouri. If this is to be an "educational campaign," we cannot blame these organizations any too soon in Texas and spread them all over the state.

AFTER keeping the torturing secret locked in his bosom for a pair of years, or longer, Bismarck has divulged to the world the details of the quarrel which caused him to quit running the German government for Kaiser Bill.

THE insurrection in one of the states of Brazil is causing Dictator Da Fonseca to understand the feeling that prompted a hard to write, "uneasy lies the head that wears a crown."

THE prompt and explicit denial by Hon. Roger C. Mills of the slanderous statement originated by the correspondent of a paper interested in compassing his defeat for the speakership has materially strengthened his canvass.

WHO got the two prizes of \$100 each offered by ex-Governor Gibbs for the two best essays on the getting of treasury notes from the government to the people, and the best investment for the Texas school fund? The awards were to have been made at the Dallas fair, and the successful contestants announced.

ELECTION day having passed with the usual result in South Dakota, the government inspector who has been prying into the affairs of the Cheyenne Indian agency up there tells us of gross frauds and rascalities perpetrated on the Indians and the government.

HON. GEORGE CLARK'S Democracy is developing a fungus growth about the shoulders that has the appearance of a pair of sub-treasury wings in an incipient stage.

RED LIQUOR got to playing high jinks in Lincoln, Me., recently, prompting its imbibers to chuck aged eggs at a Congregational minister, to hurl ditto at a Methodist preacher, and to cause one Indian girl and several school boys to contract an elaborate "three-cornered jag with bristles on it."

HON. GEORGE CLARK'S Democracy is developing a fungus growth about the shoulders that has the appearance of a pair of sub-treasury wings in an incipient stage.

town. All of which goes to show that the brand of whisky sold in Maine can develop more different kinds of drunk than any other beverage on earth.

SHOULD the Chilian men-of-war take a notion to sail up the California coast, bent on bombarding San Francisco, it is possible they may discover two ancient smooth-bore cannon planted for defensive purposes at the entrance of the harbor.

THE trend of diplomatic movements, as viewed from the distance, would seem to indicate that Chili will apologize by assuring the United States that "if she has done anything to be sorry for she is glad of it."

IT is seldom that a president has in the latter half of his administration as many juicy political plums to bestow as are now at the disposal of President Harrison.

THE Knights of Labor convention in Toledo, Ohio, reported a membership of 27,000. These figures appear to be incorrect. It is well known that there has been a great declination of the ranks of that order since its perihelion, about 1886, but the decline can not have been so great as to reduce the order to so insignificant a number as 27,000.

THE outlandish bets made in New York on the recent election are being paid by the men who had faith in Fasset. One hauls his victorious wager around the block in a wheelbarrow, bearing this placard: "Fasset and the World's Fair did this. Hereafter I am a Democrat. Are you in? I am!"

AT an expense of but \$52,000 more than thirty-four miles of road have been graded and gravelled by convicts in Tarrant county, in addition to grading but not graveling twenty-odd miles. This work was done under great disadvantages, and not always with skilled superintendence or under competent direction.

THE efficient police, standing hard by and hearing this vicious utterance, arrested the author of it, together with sixteen others who were in his company, and haled them before the magistrates.

UPON trial, it was in evidence that the language quoted above was spoken by the offender; and that he looked as if he meant it. What could be more portentous? "The mayor is a d-d dude!" Not only are these words profane and shocking, but they evidently cover a hidden meaning.

THE prompt and explicit denial by Hon. Roger C. Mills of the slanderous statement originated by the correspondent of a paper interested in compassing his defeat for the speakership has materially strengthened his canvass.

WHO got the two prizes of \$100 each offered by ex-Governor Gibbs for the two best essays on the getting of treasury notes from the government to the people, and the best investment for the Texas school fund? tion and answer are given: "What were the relative importance of the tariff question and the silver question as the voters considered them?" "To answer that direct would really be of little consequence, for what I should say would be merely a matter of conjecture. We made no Republican gain, either in Cincinnati or Cleveland, the great commercial centers, where the silver question would have been more likely than in any other part of the state to have influenced the result. Our gain was in other sections of the state. The Democrats didn't discuss the silver question at all." It is very evident that Maj. McKinley does not propose to allow John Sherman to take the credit of having carried Ohio. He intends to have, as he is entitled to, some of the credit for himself.

THE Queen Victoria has in her possession a dress worn entirely of spiders' webs, which for fineness and beauty is said to surpass the most splendid silk. It was a gift from the Empress of Brazil in 1871.

ALTHOUGH he is a charming little bald-headed man, with a bronzed face, flashing black eyes and a great fund of conversation, Paul Du Chailu, the African explorer, is said to be a bachelor.

DR. EDWARD EGGLETON, the well-known author of "The Schoolmaster," has the distinction of being the first American writer to register a work in England under the provisions of the new American copyright law. The copyright will print an English edition of "The Faith Doctor."

GILBERT A. BECKETT, the London writer, died suddenly several days ago. He was a comic journalist of note, and was chiefly known in theatrical circles as co-author with W. S. Gilbert of the travesty, "The Happy Land." He also wrote the lyrics in "La Cigale," now being sung in New York and London.

Few lady athletes are more energetic than the Misses Morrell Mackenzie. At Warrenton, Ore., they showed great prowess in the double scull race, one sister steering, the other sculling. The race was very close, but the ladies carried the day over their man competitors. Some of the sisters also raced in the Canadian canoe and gondola race.

THE difficulty of finding a suitable bride for the crown prince of Russia seems to grow greater as time goes by. One of the latest reports is that he is soon to be engaged to his cousin, the Duchess Olga of Wurtemberg. The young man is not particularly attractive. The imperial family of Russia fear that he will eventually succumb to consumption, which has already afflicted his younger brothers.

THE punctual man often has a wait upon his hand. Ten per cent of the population of India are widows. The pope can speak English, German and French perfectly.

CHICAGO has 2948 miles of streets, four times as many as New York. A rooster struts around Carnesville, Ga., with the aid of a wooden leg.

ABOUT eight billion pieces of mail matter are distributed by postal clerks in the country yearly. Hundreds of fish are still alive in the royal aquarium in St. Petersburg that were placed there more than 130 years ago.

THE sea post-office system recently established on ocean steamers to Europe saves five hours in the time of delivery of mail. The young man of genius is not wholly a product of this age. Michael Angelo finished his greatest painting when he was but thirty years of age.

OF the 500,000,000 persons who were carried last year on steam vessels, but sixty were killed. This shows that this means of travel is the safest in the world. A fine ten-inch equatorial telescope in Lawrence university at Appleton, Wis., was made entirely by the colored pupils in the school of mechanical arts at Nashville, Tenn.

THE English sparrow was introduced into the United States in 1838. Now he ravages thirty-seven states and six territories, comprising an area of 885,000 square miles, and in Canada he is familiar over 160,000 square miles of territory.

IF a division of the real estate of the globe was made each one would only have a small lot. Some one has figured it out that taking the whole land surface of the globe into consideration there is, on an average, twenty-two and a half acres to each person.

Few people know the significance of the figures in playing cards. In olden times hearts represented "choirmen," or ecclesiastics, and the early cards of that suit have a picture of a priest. The spade was originally a pikehead, typifying the nobility of the soldiery. The arisians were represented by a stone tile, now known as diamonds. Farmers were represented by a trofoil, or clover leaf, now called a club. The four kings were originally David, Alexander, Caesar and Charlemagne, representing the four great monarchies. The queens were Argine, Judith, Esther and Pallas, representing birth, fortitude, piety and wisdom. The knaves were either knights or servants to knights.

THREE colossal statues ten feet in height, of rose granite, are to be erected by the government by a local savant, Danies Pasha. The first two represent in one group Rameses II. and Queen Hentimara seated on the same throne, an arrangement unknown before among Egyptian statues. The third statue represents Rameses standing upright in military attire, a scepter in his hand and a crown upon his head. Both bear hieroglyphic inscriptions and both had been thrown from the pedestals face downward. Their site is on the ancient Cape Zephyrium, near the remains of the Temple of Venus, at Arsinoe. Relics of the early Christians have been found in the same locality.

JAY GOULD wishes it distinctly understood that he is still alive and kicking.—Boston News.

Judging from late financial hysterics in Wall street there must be a private wire running from Jay Gould's stomach to the stock exchange.—St. Paul Globe.

JAY GOULD rises to remark that he is not dead. He ought to know. The conspirators against the stock market must be kept busy.—Providence Telegram.

HONESTY on the stock exchange seems to be a myth; when the market is ruled by such dishonest means as sending out runners of the death of Jay Gould and the failure of Chicago banks by men who know them to be false, the stock gamblers need not be surprised if the rest of the world regards them as pretty low in the moral scale.—Kansas City Journal.

IT is beginning to become apparent that Mr. Gould is slowly but surely losing his grasp upon things. The last attack of weakness which has compelled him to keep out of the rush for a while was a significant one. He has been a doctor may say he is "all right in every way," but the indications do not bear out a liberal interpretation of this statement.—Brooklyn Times.

THE Queen of Denmark is seventy-four years old. Sir Arthur Sullivan will write the music for Lord Tennyson's new play.

ROSA BONHEUR is at work on her painting of Buffalo Bill's Indians and buffaloes. Albert Bierstadt has sold his great painting, "The Last of the Buffaloes," for \$50,000.

HENRY LABOUCHERE says Mme. Boulanger is "a woman of sad temper, prosaic, commonplace, and with a bad liver."

SIDNEY DILLON is an example for errand boys to point to with pride. He was one when young, and now he is president of the Union Pacific railway.

FOREIGN princes are not going on the lecture platform. Prince Krapotkin, the noted nihilist, will visit America this winter and lecture on socialism.

AN exchange says that Jay Gould's pet fancy is raising fowls. So the public, it seems, was misinformed when it got the

idea that the pet fancy of the wizard of Wall street was the watering of railway plants. Princess Sarah Wernersleben, the Plute woman who died in Montana recently, lectured in the East about ten years ago, and wrote a book on "Life Among the Plutes." Austin Corbin is going to say "Bless you, my children," when his daughter, Annie, marries. His words will be rendered more impressive by the accompaniment of a check for \$100,000.
